Jardine Cycle & Carriage Limited Annual Report 2016

2016

Annual Report

Jardine Cycle & Carriage

Corporate Profile

A long-term shareholder of market-leading businesses, Jardine Cycle & Carriage ("JC&C" or "the Group") is a leading Singapore-listed company and a member of the Jardine Matheson Group. Together with its subsidiaries and associates, JC&C employs more than 240,000 people across Indonesia, Vietnam, Singapore, Thailand, Malaysia and Myanmar.

JC&C has a strategic interest in Astra International ("Astra"), the largest independent automotive group in Southeast Asia. Astra has further interests in financial services, heavy equipment and mining, agribusiness, infrastructure and logistics, information technology, and property. Through striving to achieve long-term sustainable growth in its market-leading businesses, as well as actively seeking to improve the welfare of the Indonesian people at large, Astra has become one of Indonesia's household names.

The Group also has a strong automotive presence through its Direct Motor Interests operating in Singapore, Malaysia and Myanmar under the Cycle & Carriage banner, as well as through Tunas Ridean in Indonesia and Truong Hai Auto Corporation in Vietnam.

Further diversifying the Group's businesses are Other Interests in Siam City Cement and Refrigeration Electrical Engineering Corporation, market leaders in which JC&C gains exposure to key Southeast Asian economies by supporting the long-term growth of these companies.

JC&C is 75% owned by the Jardine Matheson Group, a diversified business group focused principally on markets in Greater China and Southeast Asia. Through a balance of cash producing activities, investment in new businesses and long-term property assets, the Jardine Matheson Group aims to produce sustained growth in shareholder value. In addition to its 75% shareholding in JC&C, the Jardine Matheson Group operating companies include wholly-owned Jardine Pacific and Jardine Motors, together with strategic shareholdings in listed entities Hongkong Land, Dairy Farm, Mandarin Oriental and Jardine Lloyd Thompson. These companies are leaders in the fields of engineering and construction, transport services, insurance broking, property investment and development, retailing, restaurants, luxury hotels, motor vehicles and related activities, financial services, heavy equipment, mining and agribusiness.

Key Operating Businesses

Astra International

Indonesia
Astra International (50.1%) is a diversified business group with seven core businesses. It is listed on the Indonesia Stock Exchange.

Automotive
Astra is the largest independent automotive group in Southeast Asia. Its automotive business comprises the production, distribution, retail and after-sales service of motor vehicles and motorcycles. It is the sole distributor of brands such as Toyota, Daihatsu, Isuzu, Peugeot, UD Trucks. It is the main dealer for BMW in the motor vehicle market, and represents Honda in the motorcycle market. Astra also manufactures and distributes automotive components.

Financial Services
Astra's financial services include consumer financing, heavy equipment financing, banking, and general and life insurance. Its heavy equipment financing division further supports the mining, construction, forestry and agricultural sectors.

Heavy Equipment & Mining
Astra supplies construction and mining equipment including heavy-duty trucks, vibratory rollers, cranes and forklifts, and forestry equipment, alongside the provision of after-sales service. It is the sole distributor for the Komatsu brand in Indonesia. It is also the largest coal mining services contractor in Indonesia.

Agribusiness
Astra's agribusiness includes the cultivation, harvesting and processing of palm oil. It is a major producer of crude palm oil in Indonesia.

Infrastructure & Logistics
Astra's infrastructure and logistics businesses include toll roads development and management, as well as operations in water utility system and transportation services.

Information Technology
Astra's information technology business provides document information and communication technology solutions. It is the sole distributor of Fuji Xerox office equipment in Indonesia.

Property
Astra's property business includes the development of a grade A office building as well as a premium apartment complex in Jakarta, Indonesia.

Direct Motor Interests

Vietnam
Truong Hai Auto Corporation (25.1%) is one of the largest automotive companies in Vietnam. It manufactures, assembles, distributes, retails and provides after-sales service of commercial and passenger vehicles, representing Kia, Mazda, Peugeot, Foton and Hyundai. Truong Hai Auto Corporation also engages in property development in Vietnam.

Singapore
Cycle & Carriage Singapore (100%) is one of the leading automotive groups in Singapore. It is engaged in the distribution, retail and after-sales service of Mercedes-Benz, Mitsubishi, Kia, Citroën, DS and Maxus motor vehicles.

Malaysia
Cycle & Carriage Bintang (59.1%) is listed on Bursa Malaysia. It is the largest dealer of Mercedes-Benz motor vehicles in Malaysia, providing sales and after-sales service for Mercedes-Benz passenger cars and commercial vehicles.

Indonesia
Tunas Ridean (44.4%) is listed on the Indonesia Stock Exchange and is a leading automotive dealer group in Indonesia. It represents Toyota, Daihatsu, BMW and Isuzu motor vehicles, as well as Honda motorcycles. Tunas Ridean also offers automotive rental and fleet management services as well as vehicle financing.

Other Interests

Myanmar
Cycle & Carriage Myanmar (60%) provides motor vehicle maintenance and repair services in Myanmar. JC&C has the distribution rights to Mercedes-Benz passenger cars and commercial vehicles, Fuso commercial vehicles, EvoBus and Mazda passenger cars for Myanmar.

Thailand
Siam City Cement Public Company Limited (24.9%) is listed on the Stock Exchange of Thailand and is the second largest cement manufacturer in Thailand. Operating across South and Southeast Asia, it also produces concrete and other building materials.

Vietnam
Refrigeration Electrical Engineering Corporation (22.9%) is listed on the Ho Chi Minh Stock Exchange. It is a diversified business group with operations in mechanical and electrical engineering services, real estate, and power and water utility infrastructure.

Chairman's Statement

Highlights

- Underlying earnings per share up 3%
- Improved contribution from Astra
- Strong performance across Direct Motor Interests
- Higher contribution from Other Interests

74%
Astra Honda Motor's motorcycle market share increased from 69% to 74%

"The outlook for 2017 appears positive as Astra should benefit from improving economic conditions in Indonesia and higher coal prices, while the Group's Direct Motor Interests and Other Interests are expected to perform satisfactorily."

Ben Keswick, Chairman

Overview

The Group's results for the year were satisfactory. Improvements were seen in Astra's automotive, heavy equipment, mining contracting and agribusiness operations, offset in part by lower results from financial services due to a significant increase in loan provisions at Permata Bank. The Group's Direct Motor Interests and Other Interests both recorded higher contributions.

Performance

The Group's revenue for 2016 was US$15.8 billion, little changed from the prior year. Underlying profit attributable to shareholders was 7% higher at US$679 million, while underlying earnings per share rose 3% to US¢172, with the lower increase due to the effect of the rights issue in 2015. Profit attributable to shareholders was US$702 million after accounting for a net non-trading profit of US$23 million, due to a gain on sale of a property and investment property valuations. This compares to profit attributable to shareholders in 2015 of US$691 million, which included a net non-trading gain of US$59 million.

Astra's contribution to the Group's underlying profit of US$500 million was up 6%. The Group's Direct Motor Interests contributed US$167 million to the Group's underlying profit, up 18%, and its Other Interests contributed US$33 million, 11% higher than in 2015.

The Board is recommending a final one-tier tax-exempt dividend of US¢56 per share (2015: US¢51 per share) which together with the interim dividend will produce a total dividend of US¢74 per share (2015: US¢69 per share).

Business Activities

Jardine Cycle & Carriage's ("JC&C") strategy is to pursue the expansion of its business interests in Southeast Asia. This includes supporting the growth of Astra in both its existing operations and new businesses; strengthening its regional Direct Motor Interests, currently operating in Vietnam, Singapore, Malaysia, Indonesia and Myanmar; and developing its Other Interests by investing in market-leading companies that provide exposure to new business sectors in regional economies.

Chairman's Statement

Astra
During the year, Astra consolidated its real estate interests into a new property division to give greater focus to this sector. The current projects comprise the Anandamaya Residences, Astra's 60%-owned luxury residential development in Jakarta's Central Business District, and the adjacent grade A office tower, Menara Astra. In October 2016, PT Astra Land Indonesia, owned 50% by Astra and 50% by Hongkong Land, signed an agreement with a subsidiary of PT Modernland Realty Tbk to acquire and jointly develop a 67-hectare site in Cakung in East Jakarta.

In order to further strengthen its capital base, Astra's 44.6%-held joint venture, Permata Bank is planning a US$220 million rights issue in the first half of 2017, of which US$110 million has been injected as a capital advance by Astra and Standard Chartered Bank, its two major shareholders. Combined with the US$420 million rights issue completed by the bank in June 2016, this raises some US$640 million of new capital.

Direct Motor Interests
In 2016, Dai Quang Minh Real Estate Investment Joint Stock Company ("DQM") became a subsidiary of the Group's 25.1%-held associate, Truong Hai Auto Corporation. DQM is a real estate company that is developing 1.3 million sq. m. of land within the prime Thu Thiem New Urban Area, District 2, in Ho Chi Minh City. The project is a mixed-use development of residential and commercial buildings, a marina, nature parks and other amenities. In December 2016, DQM recognised an initial profit arising on units sold at its completed development properties.

The Group's 59.1%-owned Malaysian subsidiary, Cycle & Carriage Bintang Berhad ("CCB"), continued its Mercedes-Benz dealership network upgrade and expansion to 12 outlets in West Malaysia. In January 2017, CCB announced a proposed US$14 million acquisition of a strategically located 4,240 sq. m. site at Sungei Besi, Kuala Lumpur, to establish a new Autohaus.

In December 2016, JC&C increased its interest in PT Tunas Ridean Tbk from 43.8% to 44.4%.

Astra consolidated its real estate interests into a new property division

Cycle & Carriage Bintang continued its dealership network upgrade and expansion

Jardine Cycle & Carriage Limited | Annual Report 2016

Other Interests
Siam City Cement Public Company Limited ("SCCC"), in which JC&C holds a 24.9% interest, has expanded its regional footprint to Bangladesh, Sri Lanka and Vietnam through strategic acquisitions at a cost of some US$1.0 billion. In February 2017, SCCC announced a rights issue of approximately US$480 million to reduce loans used to fund these acquisitions.

The Group's 22.9%-held Refrigeration Electrical Engineering Corporation ("REE") is expanding its property interests with the construction of a new office tower due for completion by the end of 2017. The new building will increase REE's total lettable space from 106,000 sq. m to 140,000 sq. m.

People
Despite facing challenging economic conditions, the Group achieved a good result in 2016 thanks to the commitment and hard work of its 240,000 employees across the region. On behalf of the Board, I would like to thank them for their contributions.

A strong staff strength of 240,000 people

Siam City Cement expanded its regional footprint at a cost of some US$1.0 billion

Tan Sri Azlan Zainol will be retiring as director of the Company at the upcoming Annual General Meeting in April 2017 after 13 years on the Board. On behalf of the Board, I would like to record our appreciation and thank Tan Sri Azlan for his valuable contribution to the Group.

I am delighted to welcome Ms Vimala Menon who will join the Board in April 2017 and also serve as a member on the Audit Committee. Ms Menon has extensive knowledge and experience in finance and corporate services, and has previously served as a director of the Company and a commissioner of Astra.

Outlook
The outlook for 2017 appears positive as Astra should benefit from improving economic conditions in Indonesia and higher coal prices, while the Group's Direct Motor Interests and Other Interests are expected to perform satisfactorily.

Ben Keswick
Chairman
27th February 2017

Group Managing Director's Review

Overview

The Group's underlying profit increased 7% in 2016. This was underpinned by Astra's strong automotive performance, together with improved results in heavy equipment and mining, agribusiness, infrastructure and logistics, and a number of its financial services operations, which was partially offset by a loss arising from a significant increase in loan-loss provisions by Permata Bank. The Group also benefited from higher contributions from its Direct Motor Interests and Other Interests.

The underlying profit attributable to shareholders by business is shown below:

	2016 US$m	2015 US$m
Astra International		
Automotive	**312.8**	246.8
Financial services	**29.7**	132.3
Heavy equipment & mining	**114.0**	87.2
Agribusiness	**60.1**	18.4
Infrastructure & logistics	**9.8**	6.4
Information technology	**7.4**	7.6
Property	**(7.6)**	(2.6)
	526.2	496.1
Less: withholding tax on dividend	**(26.4)**	(25.3)
	499.8	470.8
Direct Motor Interests		
Vietnam	**93.6**	84.9
Singapore	**49.4**	39.2
Malaysia	**5.6**	7.8
Indonesia (Tunas Ridean)	**18.2**	9.4
Myanmar	**(0.1)**	(0.2)
	166.7	141.1
Other Interests		
Siam City Cement	**22.3**	21.3
Refrigeration Electrical Engineering	**10.9**	8.7
	33.2	30.0
Corporate costs	**(20.6)**	(10.1)
Underlying profit attributable to shareholders	**679.1**	631.8

Performance

The Group reported an underlying profit attributable to shareholders of US$679 million, 7% higher than the previous year, while underlying earnings per share grew by 3% to US¢172, the smaller increase reflecting the effect of the rights issue undertaken in 2015. Excluding the Group's share of the Permata Bank loss, the Group's underlying profit would have grown 25% to US$791 million.

Profit attributable to shareholders at US$702 million included a net non-trading gain of US$23 million primarily from a land sale and investment property revaluations. This compares to profit attributable to shareholders in 2015 of US$691 million, after accounting for a net non-trading gain of US$59 million arising mainly from the reversal of an impairment charge of US$43 million in respect of the Group's investment in Truong Hai Auto Corporation and a revaluation gain of US$17 million on investment properties.

The Group's net cash, excluding borrowings within Astra's financial services subsidiaries, increased to US$709 million at the end of 2016 from US$255 million at the end of the prior year, due largely to strong operating cashflows within Astra. Net debt within Astra's financial services subsidiaries was US$3.6 billion, compared to US$3.2 billion at the end of 2015. JC&C's net cash was US$154 million, compared to US$136 million at the end of 2015.

Group Review

Astra

Astra reported a net profit equivalent to US$1,137 million under Indonesian accounting standards, a 5% increase in its local currency terms. Higher contributions from automotive, heavy equipment and mining, agribusiness and infrastructure and logistics, were partially offset by a lower contribution from financial services.

Automotive

Net income from the group's automotive businesses in Indonesia increased by 23% to US$688 million. This was largely due to successful new model introductions which also benefited margins.

The wholesale market for cars increased by 5% to 1.1 million units. Astra's car sales were 16% higher at 591,000 units, resulting in an increase in market share from 50% to 56%. Astra launched 14 new models and nine revamped models during the year.

The wholesale market for motorcycles decreased by 8% to 5.9 million units, while Astra Honda Motor's domestic sales were 2% lower at 4.4 million units. However, its market share increased from 69% to 74%, supported by the launch of seven new models and eight revamped models in 2016.

Net income from the component business, Astra Otoparts, increased 31% to US$31 million, with higher revenue from its OEM and after-market segments combined with higher earnings in its associated companies.

591,000 units

Astra's motor vehicles sales were 16% higher at 591,000 units, achieving a market share of 56%

Financial Services

Net income from the financial services businesses declined 78% to US$59 million. Improved contributions from Federal International Finance, Toyota Astra Financial Services and Asuransi Astra Buana were more than offset by declines in the other financial services businesses, principally due to a loss recorded by Permata Bank following a significant increase in loan-loss provisions in its commercial loan book. Excluding this loss, the net income from the financial services businesses would have risen 7% to US$282 million.

The consumer finance businesses saw a 21% increase in the amount financed, which rose to US$5.5 billion, including balances financed through joint bank financing without recourse. The car-focused Astra Sedaya Finance reported net income 4% lower at US$70 million following a reduction in used car financing, whereas Toyota Astra Financial Services recorded net income up 15% at US$26 million. Motorcycle-focused Federal International Finance's net income was up 20% at US$135 million, benefiting from loan product diversification.

The amount financed through the group's heavy equipment-focused finance operations increased by 20% to US$352 million. Surya Artha Nusantara Finance, which specialises in small and medium heavy equipment financing, reported net income 26% lower at US$6 million.

Astra's 44.6%-held joint venture, Permata Bank, reported a net loss of US$486 million compared with a net income of US$18 million in 2015. The decline was due to a significant increase in loan-loss provisions amounting to US$921 million, which saw the bank's gross non-performing loan ratio rise from 2.7% at the end of 2015 to 8.8% at the end of 2016, while its net non-performing loan ratio rose from 1.4% to 2.2%. In order to further strengthen its capital base, the bank is to undertake a US$220 million rights issue in the first half of 2017, of which US$110 million has been injected as a capital advance by Astra and Standard Chartered Bank, its two major shareholders. Combined with the US$420 million rights issue completed in June 2016, this raises approximately US$640 million of new capital.

Net income at general insurance company, Asuransi Astra Buana, was slightly higher at US$69 million, primarily due to increased investment income. During the year, Astra's life insurance joint venture, Astra Aviva Life, acquired over 158,000 individual life customers and 133,000 participants for its corporate employee benefits programmes, bringing the respective totals to 228,000 and 596,000 at the end of 2016.

Heavy Equipment & Mining

Net income from the heavy equipment and mining businesses increased by 30% to US$227 million.

United Tractors, which is 59.5%-owned, reported net income 30% higher at US$375 million due to the absence of an impairment charge on the carrying value of its coal mining properties, which had affected its 2015 result. Excluding the impact of this impairment charge in 2015, 2016's net income would have been 22% lower than the prior year. United Tractors recorded lower mining contracting revenue, caused largely by relatively weak coal prices for much of 2016, as well as a foreign exchange translation loss on its US dollar monetary assets.

In its construction machinery business, Komatsu heavy equipment sales rose 3% to 2,181 units, while parts and service revenue declined. The mining contracting operations of Pamapersada Nusantara recorded coal production little changed at 109 million tonnes, while overburden removal was 8% lower at 702 million bank cubic metres. United Tractors' mining subsidiaries reported 48% higher coal sales at 6.8 million tonnes.

General contractor Acset Indonusa, a 50.1%-owned subsidiary of United Tractors, reported net income up 63% at US$5 million. Acset secured new contracts worth US$283 million, compared with US$228 million in 2015. To support its business growth, Acset completed a US$45 million rights issue in June 2016.

Group Managing Director's Review

Agribusiness
Net income from the agribusiness division increased significantly to US$120 million from US$37 million.

Astra Agro Lestari, which is 79.7%-owned, reported net income of US$150 million, up from US$46 million, due to the benefit of the stronger rupiah on the translation of its US dollar monetary liabilities and improved revenue from higher crude palm oil prices. Crude palm oil sold was 3% lower at one million tonnes, while average crude palm oil prices were 11% higher at Rp7,768/kg. Olein sales were 22% lower at 320,000 tonnes. To strengthen its balance sheet, Astra Agro Lestari completed a US$300 million rights issue in June 2016.

Infrastructure & Logistics
Higher earnings from the infrastructure and logistics businesses led to their net income increasing by 35% to US$20 million.

The 72km Tangerang-Merak toll road, operated by 79.3%-owned Marga Mandalasakti, saw traffic volumes increase by 3% to 48 million vehicles. Construction continues at the wholly-owned 41km Jombang-Mojokerto toll road, where 20km is already operational. At the 73km Semarang-Solo toll road, in which Astra has a 25% interest, 23km is now operational.

In January 2017, Astra completed the acquisition of an initial 40% interest in PT Baskhara Utama Sedaya, which owns 45% of the operator of the fully operational 116km Cikopo-Palimanan toll road, and has subsequently agreed to acquire the remaining 60% interest.

Along with its 40% stake in the 11km Kunciran-Serpong toll road and a 25% stake in the 30km Serpong-Balaraja toll road, both of which are greenfield, the group's total interest in toll roads amounts to 343km.

PAM Lyonnaise Jaya, which operates the western Jakarta water utility system, experienced a 1% increase in sales volume to 162 million cubic metres.

Serasi Autoraya's net income rose by 96% to US$8 million, where higher net margins in its car leasing and rental, used vehicle sales and logistics businesses outweighed the effect of a 3% decline in contracted vehicles in its car leasing and rental business.

Information Technology
Net income from the information technology division decreased by 4% to US$15 million. Astra Graphia, which is 76.9%-owned, reported a 4% decline in net income to US$19 million, despite an increase in revenue mainly due to lower net margins.

Property
Net income from the group's new property division was US$8 million, compared with US$16 million in 2015. The reduction was primarily due to a lower revaluation gain on its grade A office tower development, Menara Astra.

54% growth

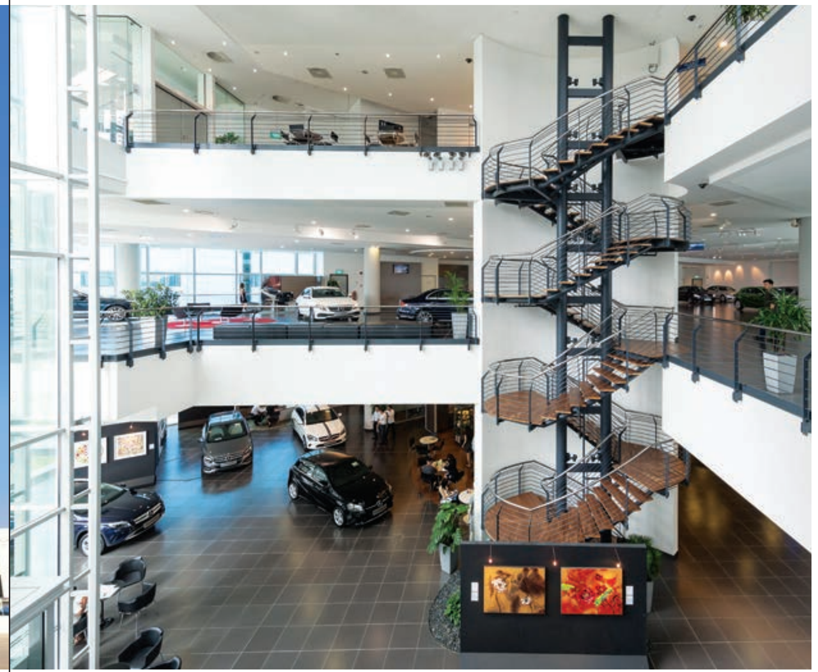
Thaco passenger car sales grew by 54% to 63,500 units

Construction continues to progress at the 93%-sold Anandamaya Residences, the group's 60%-owned luxury residential development in Jakarta's Central Business District, which together with the adjacent grade A office tower, Menara Astra, are on schedule for completion in 2018.

Direct Motor Interests
The Group's Direct Motor Interests contributed a profit of US$167 million, an 18% increase from the previous year.

Vietnam
In Vietnam, 25.1%-owned Truong Hai Auto Corporation ("Thaco") contributed a profit of US$94 million, a 10% increase. The improvement was due to a higher automotive profit following an increase in vehicle unit sales and the recognition of an initial profit from its real estate business through Dai Quang Minh Real Estate Investment Joint Stock Company, which is now a subsidiary of Thaco. The vehicle market in Vietnam grew by 26% to 352,300 units, while Thaco's overall sales grew by 39% to 110,500 units. Its passenger car sales grew by 54% to 63,500 units and its commercial vehicle sales increased by 23% to 47,100 units, although it did suffer lower margins and increased operating and financing costs.

Singapore
The Singapore passenger car market grew 52% to 87,500 units following an increase in the number of certificates of entitlement. The Group's Singapore motor operations saw earnings grow 26% to US$49 million due to a 45% increase in passenger car sales to 12,500 units, together with improved contributions from used cars and parts. The Group's passenger car market share saw a slight decline from 15% to 14%.



26% earnings growth in Cycle & Carriage Singapore

US$480 million rights issue announced by Siam City Cement

Malaysia
There was a contribution of US$6 million from 59.1%-owned Cycle & Carriage Bintang in Malaysia, which included the recognition of dividend income received from Mercedes-Benz Malaysia. This represented a 28% decline due to lower margins following changes in the sales mix despite an increase in unit sales.

Indonesia
In Indonesia, 44.4%-owned Tunas Ridean performed well with a contribution of US$18 million, 94% up on the previous year, due to stronger contributions from its automotive and rental operations and from 49%-owned Mandiri Tunas Finance. Motor car sales were 17% higher at 51,000 units, while motorcycle sales were stable at 206,300 units.

Other Interests
The Group's Other Interests comprising 24.9%-held Siam City Cement Public Company Limited ("SCCC") in Thailand and 22.9%-held Refrigeration Electrical Engineering Corporation ("REE") in Vietnam, contributed US$33 million, an increase of 11%.

SCCC reported a profit equivalent to US$111 million for 2016, a reduction of 15% in local currency terms. Its contribution to JC&C was US$22 million for the year, compared to US$21 million for the nine months of ownership in 2015. SCCC's lower earnings were mainly due to the decline in domestic cement prices, partly offset by the contribution from new acquisitions.

In line with its strategy to broaden its regional exposure, SCCC acquired 99% of Holcim (Lanka) Limited for US$374 million in August 2016, and a 100% interest in Cemex Thailand and Cemex Bangladesh in May 2016 at a total cost of US$61 million. Siam City Cement (Lanka) Limited (formerly Holcim (Lanka) Limited), is the market leader in Sri Lanka with an estimated 40% market share. SCCC is also acquiring, for an estimated US$524 million, a 65% interest in Holcim (Vietnam) Co. Ltd, the second largest player in Southern Vietnam with an estimated 20% market share. In February 2017, SCCC announced a rights issue of approximately US$480 million to reduce the loans used to fund these acquisitions.

REE's contribution was up 25% at US$11 million. Higher contribution from the M&E business segment was due to the completion of a larger number of projects, while the power and water business segment achieved a satisfactory performance. The property development and management segment performed well with improvement in office leasing rates, alongside a higher contribution from its 29%-held development property associate, Saigon Real Estate.

Alex Newbigging
Group Managing Director
27th February 2017

Financial Review

Accounting Policies

The Directors continue to review the appropriateness of the accounting policies adopted by the Group having regard to developments in International Financial Reporting Standards ("IFRS"). In 2016, a number of amendments to the Standards became effective and the Group adopted those which are relevant to its operations. As mentioned in Note 2.1 of the financial statements, the only amendments adopted that impact the consolidated profit and loss account and balance sheet are the amendments to IAS 16 and IAS 41 on Agriculture: Bearer Plants. The adoption of these amendments does not have a material effect on the financial statements, but the comparative financial statements have been restated in accordance with the requirements under IFRS.

Results

The Group's revenue at US$15.8 billion was similar to the previous year. The Group's gross revenue, including 100% of revenue from its associates and joint ventures, which is a measure of the full extent of the Group's operations, increased by 15% to US$34.8 billion. Astra's gross revenue, including 100% of revenue from its associates and joint ventures, rose 13% to US$28.0 billion with increases in all businesses, except heavy equipment which was impacted by low coal prices for most of the year. Growth was also seen in the Company's direct associates and joint ventures, Truong Hai Auto Corporation ("Thaco"), PT Tunas Ridean Tbk ("Tunas Ridean"), Siam City Cement Public Company Limited ("SCCC") and Refrigeration Electrical Engineering Corporation ("REE").

Operating profit from the Group's subsidiaries rose by 28% to US$1,500 million. Excluding non-trading items, which amounted to a net gain of US$25 million (2015: US$34 million), the Group's underlying operating profit was 29% higher at US$1,475 million. Astra's underlying operating profit of US$1,416 million was 31% up on 2015's results which included an impairment charge of US$349 million in relation to its coal mining properties, with all its major businesses recording improved results. Excluding the effect of this impairment charge, Astra's 2016 operating profit would have been marginally lower compared to 2015. The Group's Direct Motor Interests saw an increase in underlying operating profit as vehicle sales in Singapore grew, following the increase in the number of certificates of entitlement, partly offset by lower profits in Malaysia due to lower margins following changes in the sales mix.

The non-trading items in 2016 referred to above of US$25 million comprised mainly the fair value gain on agricultural produce and revaluation gains on investment properties, partly offset by a loss on dilution of interest in an associate.

Net financing charges, excluding those relating to the Group's consumer finance and leasing activities, increased by US$18 million to US$39 million mainly due to the higher level of average net debt in Astra. Interest cover excluding the financial services companies calculated as the sum of underlying operating profit and share of results of associates and joint ventures divided by net financing charge remained strong at 29 times (2015: 30 times).

The Group's share of associates' and joint ventures' results after tax at US$380 million, was 19% down on the previous year mainly due to the loss recorded by Permata Bank following a significant increase in loan-loss provisions in its commercial loan book. 2016's results included a non-trading gain of US$34 million largely due to the sale of land, while 2015's results included a non-trading gain of US$45 million, mainly due to the reversal of an impairment charge in respect of the Group's investment in Thaco. Excluding the loss in Permata Bank and the non-trading gains, the Group's share of associates' and joint ventures' results after tax would have risen by 34% to US$569 million. Astra's automotive and its other financial services associates and joint ventures performed well, while higher contributions were seen in Thaco, Tunas Ridean, SCCC and REE.

The effective tax rate of the Group, excluding associates and joint ventures in 2016 was 23% compared to 29% in the previous year. Excluding non-trading items, the Group's effective tax rate was 23%, compared to 30% in 2015. The lower effective tax rate in 2016 resulted from the Group's Indonesian subsidiaries having availed themselves of a new tax incentive on fixed asset revaluation, under which the increase in value of fixed assets from the revaluation was subject to a reduced tax rate.

The profit attributable to shareholders for the year at US$702 million was 2% up on the previous year. Excluding non-trading items, the underlying profit attributable to shareholders was 7% higher at US$679 million with Astra contributing US$500 million, 6% up on the previous year and the Group's Direct Motor Interests and its Other Interests

	2016			2015		
	Underlying profit US$m	Non-trading items US$m	Total US$m	Underlying profit US$m	Non-trading items US$m	Total US$m

Non-controlling interests	766	30	796	576	20	596
	1,445	53	1,498	1,208	79	1,287

Jardine Cycle & Carriage Limited | Annual Report 2016

contributing US$167 million and US$33 million, 18% and 11%, respectively higher than 2015. Central overheads at US$21 million were US$10 million higher as 2015 had the benefit of a foreign exchange gain arising from loan repayments.

Dividends

The Board is recommending a final one-tier tax-exempt dividend of US¢56 per share (2015: US¢51 per share), which together with the interim dividend will give a total dividend of US¢74 per share (2015: US¢69 per share) for the year. Shareholders will have the option to receive the dividend in Singapore dollar and in the absence of any election, the dividend will be paid in US dollar.

Cash Flow

Cash inflow from the Group's operating activities was US$1,400 million, US$448 million lower than the previous year, due to an increase in working capital in Astra mainly in its financial services and heavy equipment and mining businesses.

The cash outflow from investing activities was US$827 million, US$304 million lower than the previous year, as 2015 included the acquisition of the 24.9% interest in SCCC for US$619 million. Cash expenditure and investments mainly comprised:

- US$75 million for the purchase of intangible assets which included US$60 million for the acquisition costs of contracts in Astra's general insurance business and US$30 million for the purchase of leasehold land use rights for use by Astra's businesses;
- US$468 million of property, plant and equipment mainly by Astra comprising US$175 million of heavy equipment and machinery for its heavy equipment and mining business, US$132 million of equipment and network development for its automotive business, US$113 million to develop the agribusiness;
- US$80 million for the development of Menara Astra and US$56 million for additions to bearer plants in Astra;
- US$14 million mainly for investments in Astra's mining subsidiaries;
- US$381 million for investments in associates and joint ventures which include US$240 million for Astra's subscription to Permata Bank's rights issue and capital advance, Astra's capital injection into various associates and joint ventures of US$130 million, including Astra Aviva Life and a new investment in 50%-held Astra Modern Land. The Company also invested some US$10 million in its Myanmar business, Tunas Ridean and REE; and
- US$86 million net outflow from investments by Astra's general insurance.

Disposals which added US$31 million to the cash inflow from investing activities mainly arose from the disposal of heavy equipment.

The cash outflow from financing activities was US$290 million, US$103 million higher than the previous year as 2015 had surplus proceeds after debt repayment from the Company's rights issue which raised US$748 million. In 2016, the net cash inflow from borrowings and the receipt of US$110 million from non-controlling interests for the investment in Astra Land Indonesia and the rights issues in Astra Agro Lestari and Acset, were offset by lower dividends paid to non-controlling interests and dividends paid by the Company.

Funding

The Group is well financed with strong liquidity. The Group's consolidated net cash, excluding borrowings within Astra's financial services subsidiaries, increased from US$255 million in 2015 to US$709 million in 2016, primarily driven by strong operating cash flows from Astra. Net debt within the Astra's financial services operations increased to US$3.6 billion as a result of higher lending volumes. The Company ended the year with net cash of US$154 million, compared to US$136 million at the end of 2015.

At the year-end, the Group had undrawn committed facilities of some US$1.5 billion. In addition, the Group had available liquid funds of US$2.5 billion.

Overall, the Group's funding arrangements are designed to keep an appropriate balance between equity and debt, both short and long term, to give flexibility to develop the business.

Balance Sheet

The Group continues to have a strong balance sheet. Shareholders' funds increased by 11% to US$5.8 billion. Property, plant and equipment increased by US$100 million to US$3.0 billion, mainly due to the purchase of heavy equipment and machinery. Interests in associates and joint ventures grew by US$477 million to US$3.7 billion, from the Group's share of profit, participation in Permata Bank's rights issue and the purchase of new and additional interests. Financing debtors increased by US$454 million to US$4.8 billion due to increase in volumes financed. Stocks increased marginally, as a decrease in inventory days for heavy equipment, was offset by higher inventory days for other stocks. Trade creditors increased mainly due to higher purchases of heavy equipment stocks.

Treasury Policy

The Group manages its exposure to financial risk using a variety of techniques and instruments. The main objectives are to limit foreign exchange and interest rate risks and to provide a degree of certainty about costs. The investment of the Group's surplus cash resources is managed so as to minimise risk while seeking to enhance yield.

The Group's treasury operations are managed as cost centres and are not permitted to undertake speculative transactions unrelated to underlying financial exposures.

The Group's financial risk factors are set out on page 67.

Risk Management Review

A review of the major risks facing the Group is set out on page 32.

Adrian Teng
Group Finance Director
27th February 2017

Board of Directors

Benjamin Keswick
Non-Executive Director

Mr Keswick was appointed Chairman on 1st April 2012. He was last re-elected as a director on 29th April 2015. He is a member of the Nominating Committee and Remuneration Committee. He was the Group Managing Director from 1st April 2007 to 31st March 2012.

He has been with the Jardine Matheson Group since 1998, undertaking a variety of roles before being appointed as Finance Director and then Chief Executive Officer of Jardine Pacific between 2003 and 2007. Corporate information as at 20th March 2017

Corporate Governance

The Board of Jardine Cycle & Carriage believes that good corporate governance is one of the keys of the Company's success. The Board has put in place a Corporate Governance Policies Manual which sets out the Company's corporate governance practices and terms of reference for the Board, Audit Committee, Nominating Committee and Remuneration Committee, in line with the principles prescribed by the Code of Corporate Governance 2012 ("Code").

This report describes the corporate governance practices of the Company for the financial year ended 31st December 2016, in adherence to the principles and guidelines of the Code. The Company has complied in all material aspects with the principles and guidelines of the Code except for Guideline 4.4 relating to the setting of a policy on the maximum number of listed company board representations which any director may hold. Please refer to the section on *Individual Director's Performance and Time Commitments* on page 27 for an explanation of the deviation.

The Board

Composition

The Board in 2016 was composed largely of non-executive directors, the majority of whom were independent directors. It comprised two executive directors and 11 non-executive directors of whom seven were independent.

Director	Position	Status	
Benjamin Keswick	Chairman	Non-executive	Non-independent

Chang See Hiang	Member	Non-executive	Independent
Hassan Abas[4]	Member	Non-executive	Independent
Mrs Lim Hwee Hua	Member	Non-executive	Independent
Dr Marty Natalegawa	Member	Non-executive	Independent
Anthony Nightingale	Member	Non-executive	Independent
James Watkins	Member	Non-executive	Independent

1 Group Managing Director
2 Group Finance Director from 1st April 2016, succeeding Chiew Sin Cheok
3 Group Finance Director up to 31st March 2016
4 Lead Independent Director

Key information regarding the directors relating to their academic and professional qualifications, date of first appointment as director, date of last re-appointment, directorships or chairmanships both present and those held over the preceding three years in other listed companies, and other principal commitments can be found on pages 16 to 19 of this Annual Report.

Key information on the directors' shareholding in the Company and its related corporations can be found on pages 38 to 39 of this Annual Report.

No alternate director has been appointed to the Board.

The Board, with the assistance of the Nominating Committee, continually ensures that there is a diverse but appropriate mix of core competencies and skills among its members to provide the depth of knowledge and experience necessary to meet its responsibilities and effectively lead the Company. The core competencies and skills which the Board considers as relevant to the Company's businesses are accounting, finance, human resource, legal, strategic planning, customer-based experience, international relations and national policies.

The Board members come from a variety of professional backgrounds which together fulfils all of the core competencies mentioned in the preceding paragraph. Additionally, a majority of the directors are either existing or ex-CEOs with many years of knowledge and experience in managing businesses, some of which are public-listed and multi-regional operations. Please refer to pages 16 to 19 of this Annual Report for details of the directors' professional backgrounds.

The Company has been led by a Board that has been relatively stable in its composition over the years. This is one of the cornerstones of the Board's effectiveness and the Company's success. However, the Board is mindful of the need for fresh perspectives and diversity. There has been a process of progressive Board renewal with the addition of carefully selected new members; in the last six years, three new directors have joined the Board, bringing with them a wealth of experience and skills. At the same time, the Board continues to benefit from long-serving members who have amassed valuable knowledge of the Group's businesses over the years and who are able to provide strategic direction and oversee management's performance in the medium to long-term.

Together, there is a good balance and diversity of knowledge, experience and skills on the Board as well as strong stability in the Company's leadership.

Roles and Responsibilities

The Board has adopted a comprehensive set of Terms of Reference defining its roles and responsibilities. These are further elaborated on below.

The Board is responsible for charting the overall strategy and direction of the Group and providing entrepreneurial leadership. It sets strategic objectives and broad policies on matters of a significant nature, and ensures that sufficient resources are available to meet them. Sustainability issues such as environmental and social factors are also taken into consideration in the formulation process.

The Board works with management to oversee the business and affairs of the Company and to safeguard shareholders' interests and the Company's assets. It is responsible for establishing a sound system of internal controls and risk management, including reviewing regular risk management and internal audit reports. Please refer to the section on *Internal Controls and Risk Management* of this report on page 25 for further details.

It also ensures proper financial reporting, and reviews the quarterly and full year results announcements of the Company. These results announcements provide shareholders and the public with regular updates on the financial performance, position and prospects of the Company. The Board reviews the results announcements prior to their release to ensure that they present a balanced and understandable view. The Board is provided with monthly management accounts and explanations and information on a regular basis which enables it to make a balanced and informed assessment of the Company's performance, position and prospects throughout the year.

The Board is also responsible for ensuring that the Company adheres to all other disclosure obligations under legislation and the Singapore Exchange's listing rules, including timely and adequate disclosure of material price sensitive information. Announcements to be released via SGXNET contain adequate information as per the Singapore Exchange's Listing Manual requirements and guidelines. The Board ensures that the announcements are prepared by persons who are familiar with these requirements, which includes the finance and legal teams and external lawyers, and the Board delegates authority to senior management to approve the final drafts for release.

The Board also reviews and approves important matters which have been specifically reserved for its approval as set out in its Terms of Reference. These include acquisitions, disposals, capital expenditure, lease commitments, financial assistance, capital investment, bank facilities and derivative transactions which are material in nature as per the specified limits. The Board also approves the operating plan and budget. To safeguard shareholders' interests, there are also internal guidelines setting out the financial authorisation and approval limits for various operational matters. Significant matters and material transactions which exceed the threshold limits are referred to the Board for review and approval, and these include major and discloseable transactions as referred to in the Singapore Exchange's Listing Manual. Matters below the threshold limits are approved by the various levels of management according to the applicable financial authority limits.

The Board also monitors management's performance, which remains accountable to the Board.

The Board's responsibility also extends to setting the Company's values and standards of doing business (including ethical standards) and ensures that obligations to shareholders and other key stakeholders are understood and met.

Board Meetings and Attendance

In 2016, the Board met regularly every quarter during which it reviewed and approved the release of the Company's quarterly results as well as received management's updates on the performance and development of the Group's businesses. Various other matters were also deliberated upon, such as declaration of interim and final dividends, significant investments and divestments, corporate and risk strategies, budget, operating plans, internal audit reviews and Board re-appointments, independence and performance appraisal.

The full Board attended the Annual General Meeting of the Company to address questions from shareholders.

Below are the details of Board and committee meetings and Annual General Meeting held in 2016 and the attendance of every director at these meetings:

	No. of meetings held whilst in office / attended				
Director	Board	AGM	Audit Committee	Nominating Committee	Remuneration Committee

* Appointed on 1st April 2016.
^ Ceased as Director on 28th April 2016.
\# Attended not as a member but on *ex officio* basis.

Corporate Governance

For 2016, the dates of all Board and committee meetings and the Annual General Meeting were scheduled and circulated in advance to allow the directors to plan ahead, resulting in optimal attendance. All directors attended the meetings in person, and on the rare occasion where a director was not able to be present, the Constitution of the Company allowed the director to participate in the meeting via teleconferencing or video conferencing. Every director received a set of Board papers tabled for discussion at the meeting and the resulting minutes, regardless of whether he or she was able to attend the meeting.

Outside of the regular Board meetings, the Board passed decisions via circular resolutions on ad hoc matters as warranted by particular circumstances. In such cases, board papers were circulated to each director giving full information regarding the matter, and management was available to answer any questions which a director may have had.

Access to complete, adequate and timely information
In order to fulfil their duties, directors have access to adequate and timely information provided by management, including monthly management accounts.

All directors are provided with a detailed agenda of each Board and committee meeting, and related materials, background and explanatory information on each of the agenda items in the form of Board and committee papers. Where budgets are concerned, the paper will also address any material variances between the projections and actual results.

The agenda and papers are generally made available to the directors at least a week before the scheduled regular meetings to allow them time to process the information and prepare themselves for the meetings. The materials are digitally available on a secure site and can therefore be conveniently accessed by the directors via an application on the iPad which is provided by the Company to each director. Additionally, the Company also provides printed copies to the directors who prefer them in paper form. For circular resolutions on ad hoc matters outside of the quarterly scheduled meetings, Board and committee papers will also be circulated to the directors, giving full information regarding the matter, and management will be available to answer any questions which a director may have.

Management acknowledges that the information provided in the Board and committee papers is unlikely to be enough and it is the Board's duty to question and challenge management as part of its oversight function. The Group Managing Director, Group Finance Director and Company Secretary who is also the Group General Counsel are therefore present at every Board and Audit Committee meeting to provide further information or address specific queries which the directors may have. The Group Managing Director also attends every Nominating and Remuneration Committee meeting, and the General Manager – Group Finance attends every Audit Committee meeting. Management may make available other senior executives to attend the meetings where the situation warrants. Management also ensures that it is separately and independently accessible by the Board at other times and will address queries and provide additional information in a timely manner.

In addition, the Board has separate and independent access to the Company Secretary and other members of senior management. It is also empowered to seek independent professional advice as considered necessary, at the Company's expense.

Board Orientation and Training
An orientation pack is provided to newly-appointed directors explaining their duties and obligations, and briefings on the Group's businesses and strategic plans are arranged. A first-time director will also be provided with training under the Singapore Institute of Directors' ("SID") Listed Company Director Programme which covers modules such as listed company director essentials, Audit Committee, Nominating Committee, risk management and investor relations.

The directors are also provided from time to time with continuing training and education to ensure that they are kept abreast of relevant new laws, regulations and practices that affect the Board's functions. The directors are kept updated on industry-related developments to improve their understanding of the issues involved, leading to appropriate decision-making as Board members. These are done via Board papers circulated to all directors, and updates and presentations during Board and committee meetings by management, the auditors, consultants or a Board member who is knowledgeable about a particular subject matter. These would cover areas such as accounting standards and issues which have a direct impact on financial statements, directors' duties and responsibilities, corporate governance, Companies Act, continuing listing obligations, risk management and other relevant business or geopolitical topics and trends.

Chairman and Group Managing Director
The Chairman of the Board is a separate role from that of the Group Managing Director and both roles in the Company are held by different individuals who are not related to each other. In 2016, the Chairman of the Board was Benjamin Keswick and the Group Managing Director was Alexander Newbigging.

There is a clear division of responsibilities between the two roles to ensure effective oversight, an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision making. The Group Managing Director is the chief executive officer of the organisation who manages the day-to-day business operations of the Company in accordance with the strategies, budgets and plans approved by the Board, whereas the Chairman occupies a non-executive position, leads the Board and oversees all of its functions to ensure that the Board performs effectively in its role.

Lead Independent Director
Since the Chairman is not an independent director, a lead independent director, Hassan Abas, has been appointed to provide shareholders with an independent channel for contact with the Company.

Communication with Shareholders and Conduct of Shareholder Meetings
The Board ensures regular and timely communication with shareholders through announcements on the SGXNET, which are also contemporaneously posted on the Company's website, www.jcclgroup.com, as well as quarterly and year-end reporting of its results. Such results are also available on the same website under the "Investor Relations" section.

Shareholders are informed of shareholders' meetings through notices published in the newspapers and which are also sent to all shareholders in advance of the meetings. The shareholders will also receive explanatory notes, reports and circulars containing relevant information on the matters to be tabled for their approval at such meetings. All such information is also made available on the Company's website at www.jcclgroup.com.

At the shareholder meetings, each specific matter is proposed as a separate resolution to be put to a vote by poll. Shareholders are also invited to put forth any questions they may have on the motions to be discussed and decided upon. The Company engages an external service provider to facilitate the poll voting which is carried out electronically. For greater transparency, votes cast for and against each resolution, and the respective percentages, are immediately tallied and displayed 'live-on-screen' to shareholders at the meeting. The appointed scrutineer is also present at the meeting to ensure that the voting exercise is conducted properly and signs off on the results of the voting. After the meeting, the Company releases a detailed announcement via SGXNET showing the results of the meeting in terms of number of votes cast for and against each resolution and the respective percentages.

If any shareholder is unable to attend, he/she is allowed under the Company's Constitution to appoint up to two proxies to vote on his/her behalf at the meeting through proxy forms sent in advance to all shareholders with clear instructions on how they should be completed and returned to the Company and the relevant deadline. Under the multiple proxy regime, depository agents such as banks, securities custodians and the Central Provident Fund ("CPF") are allowed to appoint more than two proxies. This enables indirect investors, including CPF investors, to attend and participate at the meetings as proxies. Voting in absentia by mail, facsimile or email is currently not allowed.

After each shareholders' meeting, the Company Secretary prepares the minutes of the meeting which are available to shareholders upon request. The minutes reflect substantial and relevant queries and comments from shareholders with reference to a specific agenda item, and also record the Board and management's response to these queries and comments.

The Annual General Meeting is the principal forum for dialogue with shareholders, where the directors, chairmen of the Board Committees and external auditors are available to answer questions. For 2016, the full Board and external auditors attended the annual general meeting in person. The Company's Annual Report is sent to all shareholders prior to the Annual General Meeting, and copies of the present Annual Report and those of the last four years are available on the Company's website at www.jcclgroup.com.

Investor Relations
The Company meets once a year with analysts after the announcement of its full year results to brief them on the results, and uses the opportunity to gather views and address issues or concerns. A similar meeting may also be scheduled after the announcement of its half year results, if considered appropriate. The Company also receives requests from time to time from institutional and retail investors and meets with them on an ad hoc basis as part of its efforts to directly engage with shareholders and to gather feedback or address specific concerns. It also participates in investor roadshows or investors' day briefings. Designated management spokespersons are present at such meetings. They include the Group Managing Director, Group Finance Director and Company Secretary.

The Company has a dedicated "Investor Relations" section on its website, www.jcclgroup.com, which provides relevant information for investors. Materials given out during analyst briefings are also made available in that section.

Internal Controls and Risk Management
The Board believes in the importance of a sound system of internal controls and risk management to safeguard shareholders' interests and the Company's assets as well as to achieve corporate objectives. The Board has overall responsibility for the Group's internal controls and risk management and reviews the adequacy and effectiveness of these control and risk management systems, including financial, operational, compliance and information technology controls.

For 2016, the Board had received assurances from the Group Managing Director and Group Finance Director that the financial records had been properly maintained and the financial statements gave a true and fair view of the Group's operations and finances, and the system of risk management and internal controls in place was adequate and effective in addressing the material risks in the Group in its business environment then.

The Board, with the concurrence of the Audit Committee, was satisfied that adequate and effective internal controls including financial, operational, information technology and compliance controls and risk management systems had been in place and met the needs of the Group in its business environment then. The conclusion was based on the internal controls established and maintained by the Group, work performed by the internal and external auditors and reviews performed by management throughout 2016, as well as the assurances from the Group Managing Director and Group Finance Director as mentioned above.

The Board notes that the Group's system of internal controls is designed to manage the Group's risks within an acceptable risk profile, rather than eliminate business risk completely.

Corporate Governance

The Group's internal controls and risk management systems provide reasonable but not absolute assurance that the Group will not be materially adversely affected by any event that can be reasonably foreseen and do not provide absolute assurance against material misstatements, the occurrence of material or human errors, poor judgment in decision-making, losses, fraud or other irregularities.

The Company does not have a separate Board risk committee but has in place a risk management programme, under the purview of the Audit Committee, to identify and report on areas of potential business risks, and to recommend counteracting measures to prevent and minimise any loss arising from the business risks identified. This programme is further elaborated upon under the "Risk Management Review" section of this report on page 32.

Board Committees

To assist it in the discharge of its responsibilities, the Board has established the following committees and delegated specific authority to them whilst retaining overall oversight:

- Nominating Committee
- Remuneration Committee
- Audit Committee

These committees operate under clear terms of reference which set out their roles and responsibilities as well as qualifications for committee membership in line with the Code's recommendations. Members of these committees were carefully selected based on the skills and experience required, to maximise the effectiveness of the Board. The composition and functions of these committees are described in the following pages.

From time to time, the Board also establishes ad hoc committees to look into specific matters for operational efficiency.

Nominating Committee

The members of the Nominating Committee in 2016 were as follows:

Director	Position	Status
Chang See Hiang	Chairman	Independent director
Hassan Abas	Member	Lead independent director
Benjamin Keswick	Member	Non-independent director

The majority of the Nominating Committee was independent and it was chaired by an independent director. It also met the minimum size requirement of three members.

The members of the Nominating Committee carry out their duties in accordance with the Terms of Reference defining their roles and responsibilities, which are further elaborated on below.

Board Appointments

The primary function of the Nominating Committee is to make recommendations to the Board on all Board appointments, including the Company's representatives on the boards of the Group's subsidiaries and associates. It ensures that the Board and Board committees comprise directors who as a group provide an appropriate balance and diversity of skills, experience, gender and knowledge of the Company as well as a mix of core competencies in areas such as accounting, finance, business, management, law, industry knowledge, strategic planning and customer-based knowledge. It also determines the size of the Board after taking into consideration the scope and nature of operations of the Group.

The Nominating Committee leads the process of Board succession planning, appointment and re-appointment of directors of the Company and makes its recommendations to the Board accordingly.

There is a formal and transparent process for the appointment of new directors. The Nominating Committee reviews each proposal for the appointment of a new member to the Board, and the candidate could be identified via a recommendation by a Board member or management, or sourced through the Company's extensive network of contacts or through external help like the Singapore Institute of Directors or search consultants. The candidate will be assessed for his or her suitability and potential contribution to the Board, taking into account the existing competencies, knowledge and experience of the other Board members. After considering factors such as the candidate's professional qualifications, business experience and capabilities as well as integrity and ability to make independent and sound decisions, suitable candidates will be nominated to the Board for approval.

All newly-appointed directors are subject to election by shareholders at the Annual General Meeting following their appointment. Further, in accordance with the Company's Constitution, at least one-third of the directors, including the Group Managing Director and the Group Finance Director, is required to retire by rotation and submit themselves for re-election at each Annual General Meeting. This means that each director would be submitting himself or herself for re-nomination and re-appointment at a regular interval of about once every three years.

The Nominating Committee also makes recommendations to the Board on the re-election of the directors. It develops and maintains internal guidelines used to evaluate the directors' ability and performance for the purpose of recommending them for re-nomination and re-election. Besides the factors that are looked at as part of the Board succession planning exercise, the Nominating Committee will also assess the individual director's commitment, contribution and past performance. Factors such as attendance, preparedness, participation and candour during meetings will be taken into account.

At the upcoming Annual General Meeting, James Watkins, Tan Sri Azlan Zainol, Mark Greenberg, Dr Marty Natalegawa and Benjamin Keswick will retire pursuant to the one-third rotation rule. Other than Tan Sri Azlan Zainol, all the retiring directors will be submitting themselves for re-election. Their names are reflected in the Notice of Annual General Meeting which can be found on page 134 of this Annual Report, and key information about them can be found on pages 16 to 19 of this Annual Report.

Independent Directors

The responsibilities of the Nominating Committee also include assessing annually the independence of the directors.

The Board considered a director to be independent in character and judgment if neither the director nor his or her immediate family members has a relationship with the Company, its related corporations, its shareholders who have at least a 10% interest in the Company or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgment with a view to the best interests of the Company. The Board also took into consideration whether there existed any of the relationships and circumstances described by the Code and the Listing Manual which existence were likely or could appear to affect a director's independent judgment.

The directors were asked to declare if there existed such a relationship or circumstances via a form which they completed on an annual basis, or for new directors, upon their appointment. They were also asked to assess if they considered themselves independent despite the existence of such a relationship or circumstances. Consistent with the Code, the Nominating Committee carried out an assessment of the independence of all the non-executive directors at the beginning of 2016 and presented its recommendations to the Board.

A director who was employed by a related corporation of the Company was deemed under the Code as non-independent. The Nominating Committee therefore considered Benjamin Keswick, Boon Yoon Chiang and Mark Greenberg as non-independent directors as they were senior executives of the Jardine Matheson Group, the 75% shareholder of the Company. Michael Kok who was previously the CEO of Dairy Farm, a related corporation of the Company, had retired less than three years ago, and as such, the Nominating Committee still considered him to be non-independent according to the guidelines of the Code. The Board had considered and agreed with the Nominating Committee's recommendations regarding these directors.

The Nominating Committee had assessed the remaining seven directors, namely Hassan Abas, Chang See Hiang, Anthony Nightingale, James Watkins, Tan Sri Azlan Zainol, Mrs Lim Hwee Hua and Dr Marty Natalegawa, to be independent in character and judgment, taking into account the guidelines under the Code and the Listing Manual. For all of them, there did not exist any relationship as stated in the Code that would otherwise deem them as not to be independent. The Board agreed with the Nominating Committee's assessment.

Five of the independent directors had served on the Board beyond nine years from their date of first appointment. They were Hassan Abas, Chang See Hiang, Tan Sri Azlan Zainol, James Watkins and Anthony Nightingale. These directors were therefore subjected to particularly rigorous review by the Nominating Committee. Their independence was assessed based on the following checklist and the Nominating Committee found that all of them fulfilled the requirements on the checklist:

- whether the director actively participated in deliberations and spoke out (when necessary) to question management's ideas and proposals to avoid a 'group-think' situation;
- whether the director considered himself to be an independent director of the Company and was free of material business or financial connection with the Company;
- whether the director had demonstrated independent character and judgment despite his long tenure on the Board;
- whether the director had demonstrated attributes which helped provide effective oversight of management, namely, a detailed knowledge of the Company's business and proven commitment, experience and competence; and
- whether the Company would continue to benefit from the experience and knowledge of the director, taking into account his personal attributes, skills and competency in relation to the current and future needs of the Board.

Board Performance Assessment

The quality and effectiveness of a good Board is reflected in the results and performance of the company that it governs. The Company's financial results released every quarter are therefore a reflection of the Board and its committees ongoing performance, and are a testament to how well they are able to work with and guide management.

Besides the financial results which speak for themselves, the Board also undertakes an assessment of the Board's performance as a whole and its board committees, and the contribution of each individual director to the effectiveness of the Board. The review is carried out annually and overseen by the Nominating Committee. The formal performance assessment process is set out in the Company's Corporate Governance Policies Manual, and uses self-assessment with certain set performance criteria.

Individual Director's Performance and Time Commitments

For individual director's performance, each director performs a self-evaluation by completing a checklist containing a set of pre-determined performance criteria. The performance criteria cover areas such as attendance and adequacy of preparation for Board and Board Committee meetings, contributions in topics like strategic/business decisions, finance/accounting, risk management, legal/regulatory, human resource management, generation of constructive debate, maintenance of independence and disclosure of related party transactions. These relate directly to areas in which a director would be expected to contribute and are designed to encourage the director to reflect on his/her performance and contribution during the course of the year. Each director's self-evaluation is reviewed by the Nominating Committee and reported to the Board.

In making its assessment of a director's ability and performance in adequately carrying out his/her duties as a director of

Corporate Governance

the Company, the Nominating Committee will also take into consideration the competing time commitments that are faced by the directors who serve on multiple boards and have other principal commitments. However, the Board is of the view that the number of listed company board representations should not be the only measure of a director's commitment and effectiveness, which is better assessed on a qualitative basis based on actual participation and contribution. The Board is made up of high calibre individuals who are leaders in their respective fields, and are naturally sought after to serve on multiple boards and have other principal commitments in various countries. Rather than being a limiting factor, the Board views it as an advantage that its members are continuing to gain regional and international exposure and experience in a range of industries and countries. This helps them become better directors for the Company which has a diverse set of investments in different countries.

Accordingly, the Board has decided not to set a maximum number of listed company board representations which any director may concurrently hold, as this would be arbitrary and may be unnecessarily limiting. The individual directors have the responsibility of monitoring their own time commitments and ensuring that they are still able to effectively discharge their duties as a director of the Company.

Indeed, in 2016 as well as preceding years, the directors have continued to show their commitment to the Company in terms of their high level of attendance and preparedness for Board meetings and participation during meetings. The directors have given sufficient time and attention to the Company's matters, and have all discharged their duties and responsibilities adequately.

The directors' self-assessment is part of the framework of annual reviews carried out by the Nominating Committee in respect of each director, including board succession planning and independence review exercise described earlier in this report. All the reviews aim ultimately to assess whether the director continues to contribute effectively and demonstrate commitment to the role. The results of the review will be taken into account in the director's re-appointment or re-election. The Chairman, in consultation with the Nominating Committee, will act on the results and make the appropriate recommendations to the Board accordingly.

Board's Performance
For the Board's performance as a whole and its Board committees, the Company has adopted a set of quantitative and qualitative performance criteria which have remained relatively unchanged year to year.

The quantitative assessment criteria focus on how the Board has enhanced long-term shareholder value. They are share price performance, return on capital employed ("ROCE") and earnings per share. The quantitative assessment is carried out by an external consultancy firm, Deloitte & Touche Financial Advisory Services Pte Ltd, which does not have any connection with the Company or any of its directors. The Company's information on each of these criteria is compiled by the consultant over a five-year period and compared against the Straits Times Index and a benchmark index of industry peers specially put together for the purpose of the Board performance assessment exercise. The industry peers are selected based on the fact that they have one or more similar businesses as the Company. The components of this peer benchmark index and their weightages are reviewed annually to ensure that the comparison remains relevant. The information and comparison are set out in a performance benchmark report which is then reviewed by the Nominating Committee.

The qualitative assessment is a self-reflection exercise where various aspects of the Board process and functions are examined. The Nominating Committee reviews whether or not the practices put in place are being followed. The areas that are covered are Board structure, conduct of meetings, corporate strategy and planning, risk management and internal control, measurement and monitoring of performance, recruitment and evaluation, compensation, succession planning, financial reporting and communication with shareholders. The results of the review are reported to the Board by the Nominating Committee together with any recommendations for areas of change or improvement.

Remuneration Committee

The members of the Remuneration Committee in 2016 were as follows:

Director	Position	Status
James Watkins	Chairman	Independent director
Chang See Hiang	Member	Independent director
Hassan Abas	Member	Lead independent director
Benjamin Keswick	Member	Non-independent director

The Remuneration Committee consisted entirely of non-executive directors, all but one were independent, and was chaired by an independent director. It met the minimum size requirement of three members.

The members of the Remuneration Committee carry out their duties in accordance with the Terms of Reference defining their roles and responsibilities as further elaborated below.

Executive Directors' and Senior Executives' Remuneration
The Remuneration Committee is responsible for reviewing the remuneration of key management personnel and advising the Board on the framework of remuneration policies for executive directors and senior executives, as well as the framework of fees payable to non-executive directors. These policies are designed to attract, retain and motivate them to align their interests with the growth of the Company, in order to increase shareholder value.

Several members of the Remuneration Committee are knowledgeable in the field of executive compensation. If necessary, the Remuneration Committee will seek expert advice from consultants on executive compensation matters.

The remuneration for executive directors and key management personnel is structured to link rewards to corporate and individual performance. The remuneration policy for executive directors and key management personnel consists of both a fixed and variable component. The fixed component comprises salary, provident fund contributions and other allowances. The variable component comprises a performance-based bonus, which is payable on the achievement of individual and corporate performance conditions which are set or refreshed annually. The performance of the executive directors is based on the Board's assessment as described in the earlier section, while those of the key management personnel are based on appraisals done by the executive directors.

Incentive Plans
Short-term and long-term incentive plans have been designed to strengthen the pay for performance framework and to reward participants for the success of the business units and the Group. Performance targets to be met under the short-term incentive plan include annual earnings, which are benchmarked against the budget, and individual qualitative key performance indicators, other than earnings, that focus on short-term and long-term success and profitability.

Individual payments are made based on performance appraisals. Under the long-term incentive plan, an incentive pool is created from which payment is made for performance measured in three-year cycles that exceeds baseline targets, as approved by the Remuneration Committee. These performance targets are chosen because they are closely aligned with the long-term success of the Group and shareholders' interests.

The performance conditions under the plans were reviewed to ensure that they were met in respect of any payout for 2016.

Miscellaneous
The Group does not use any contractual provisions to reclaim incentive components of remuneration from executive directors and key management personnel in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss of the Group.

The Company does not currently operate any share-based incentive plan.

Non-executive Directors' Remuneration
Directors' fees for non-executive directors are determined having regard to best market practice, the level of duties and responsibilities of the directors and the size and diversity of the Group's operations, and were last reviewed in 2015. The directors' fees paid include board committee membership fees as set out below, attendance fees of S$1,500 per meeting (capped at one meeting fee per day, regardless of the number of meetings attended on that day) and benefits-in-kind, all of which are approved by shareholders at the Annual General Meeting.

The non-executive directors' fee structure for 2016 were as follows:

Fees per annum (S$)	Chairman	Member
Board	140,000	70,000
Audit Committee	50,000	25,000
Nominating Committee	15,000	10,000
Remuneration Committee	15,000	10,000
Attendance fee of S$1,500 per director per day of meeting (capped at one attendance fee per day regardless of the number of meetings attended on that day).		

No directors' fees were paid to executive directors.

Disclosure of Remuneration of Directors and Key Management Personnel
The remuneration of the directors and the top five key management personnel (who are not also directors) of the Company for 2016, including their names, is shown in the following tables, broken down into the various elements in dollar terms and percentages, respectively:

Directors	Directors' fees S$000	Base salary S$000	Variable bonus S$000	Defined benefits/ contribution plans S$000	Benefits-in-kind S$000	Total S$000
Benjamin Keswick	166	-	-	-	-	166

Haslam Preeston	24	45	5	26	100

Notes:
1. Directors' fees for non-executive directors, including benefits-in-kind, were approved by the shareholders as a lump sum at the Annual General Meeting held in 2016.
2. Benefits-in-kind refer to benefits such as car, driver, housing and club membership made available as appropriate.
3. The total remuneration of the top five key management personnel for 2016 was S$4,297,000.
4. No stock options or share-based incentives or awards were paid to directors and key management personnel for 2016.

In 2016, there were no Company employees who were immediate family members of a director.

Audit Committee

The members of the Audit Committee in 2016 were as follows:

Director	Position	Status
Hassan Abas*^	Chairman	Lead independent director
Boon Yoon Chiang	Member	Non-independent director
Chang See Hiang	Member	Independent director
Mark Greenberg^	Member	Non-independent director
Mrs Lim Hwee Hua^	Member	Independent director
James Watkins	Member	Independent director

* Chartered accountant
^ Expertise in financial management

All the members of the Audit Committee were non-executive directors and the majority of them, including the Chairman, were independent. Three of the members have expertise in financial management, of whom, one is a chartered accountant. The Audit Committee exceeded (by a factor of two) the minimum size requirement of three members. None of the members were a former member or director of the Company's existing auditing firm.

The members of the Audit Committee carry out their duties in accordance with the Terms of Reference defining their roles and responsibilities. These are further elaborated on below.

The primary function of the Audit Committee is to help the Board fulfill its statutory and fiduciary responsibilities in relation to the Group's financial reporting, ensuring the integrity of financial statements, reviewing financial and control risks and monitoring of the internal control systems. The Audit Committee has access to management and has the discretion to invite any director or executive officer to attend its meetings, and reasonable resources to enable it to discharge its functions properly.

The Internal Audit function (excluding Astra), which reports directly to the Chairman of the Audit Committee, provides an independent and objective assurance on internal controls and assists the Audit Committee in reviewing how principal business risks in the Group are evaluated. Please refer to the "Internal Audit" section of this report on page 32 for further details.

The Group has in place a risk management programme to identify and report on areas of potential business risks, and to recommend counteracting measures to prevent and minimise any loss arising from the business risks identified. The Risk Registers are updated regularly and a Risk Management Review, which is included in this report on page 32, is submitted to the Audit Committee annually.

In performing its functions, the Audit Committee also reviews and approves audit plans for external audit. It meets with the external auditors to discuss significant accounting and auditing issues arising from their audit, other audit findings and recommendations. The Audit Committee recommends to the Board on the re-appointment of the external auditors, approves their remuneration and terms of engagement, and ensures that Rules 712 and 715 of the Singapore Exchange's Listing Manual are complied with.

The Audit Committee meets with both internal and external auditors annually without the presence of management to discuss any matters that the Audit Committee or auditors believe should be discussed privately.

Prior to the completion and announcement of the quarterly and full year results, the Audit Committee and the senior management review the Group's financial information to ensure that it is properly presented and that appropriate accounting policies have been applied in the preparation of financial information.

The Audit Committee serves as an independent party to review financial information prepared by management for shareholders, as well as the channel of communication between the Board and external auditors.

The Audit Committee also reviews or approves the interested person transactions entered or proposed to be entered into during the year as recorded in the Register of Interested Person Transactions (excluding transactions less than S$100,000). The Company has in a place an annual general mandate of interested person transactions which had been approved by shareholders for renewal at the annual general meeting. The general mandate enabled the Company, its subsidiaries and associated companies that were considered to be "entities at risk" within the meaning of Chapter 9 of the Singapore Exchange's Listing Manual to enter in the ordinary course of business into any of the mandated transactions with the specified classes of interested persons, provided that such transactions were made on normal commercial terms and in accordance with the review procedures for such transactions. In seeking shareholders' approval for the renewal of the general mandate for 2016, the Audit Committee had provided the following confirmation to shareholders:

- that the methods or procedures for determining the transaction prices under the general mandate had remain unchanged since the last Annual General Meeting; and
- that these methods or procedures were sufficient to ensure that the transactions would be carried out on normal commercial terms and would not be prejudicial to the interests of the Company and its minority shareholders.

All interested person transactions entered into pursuant to the general mandate were reviewed by the internal auditors of the Company as part of its annual audit plan, and the Audit Committee reviewed the internal auditors' report for 2016 to ascertain that the guidelines and review procedures for Interested Person Transactions have been complied with.

For 2016, the following interested person transactions were entered into:

	Aggregate value of all interested person transactions (excluding transactions less than S$100,000 and transactions conducted under shareholders' mandate pursuant to Rule 920)	Aggregate value of all interested person transactions conducted under shareholders' mandate pursuant to Rule 920 (excluding transactions less than S$100,000)

Corporate Governance

Save for those transactions disclosed above, no material contract has been entered into by the Group involving the interests of the Group Managing Director, any director or controlling shareholder, either as at the end of the financial year or since the end of the financial year.

The Audit Committee also reviews the range and value of non-audit services provided by the external auditors on an annual basis. For the financial year which recently ended, it was satisfied that the provision of such non-audit services had not affected the independence of the external auditors. The breakdown of the 2016 fees is as follows:

	US$m
Total fees for audit services	6.2
Total fees for non-audit services	0.9
Total fees	7.1

The Company has complied with Rules 712 and 715 of the Listing Manual issued by the Singapore Exchange's Listing Manual with regards to the auditing firms.

Internal Audit
The Internal Audit function of the Company is performed by the internal audit staff of its holding company, Jardine Matheson. The function is independent of the operating companies of the Group and employs qualified professionals to handle the work in accordance with the prevailing Standards for the Professional Practice of Internal Auditing set by the Institute of Internal Auditors ("IIA").

The Internal Audit function reviews the effectiveness of the internal control system and management control system. These reviews are conducted regularly throughout the year in accordance with an agreed plan to ensure that material internal controls are in place. The Audit Committee approves the audit plans, reviews the audit findings and follows up on implementation plans. The Audit Committee also evaluates the adequacy of the Internal Audit function annually.

The Internal Audit function of the Astra group is similar to that mentioned in the preceding paragraph and is performed by the various internal audit units which report to the respective boards of commissioners within the Astra group. The internal audit department of Astra's parent company provides advice and support to these various internal audit units to ensure alignment, adequate coverage and consistent standards. The Audit Committee receives quarterly reports on internal audit plans, audit findings and implementation plans from the Astra group.

Company's Codes and Policies
The Group has a Code of Conduct that encapsulates many of the Group's longstanding policies. The Audit Committee reviews and approves any changes made to the code. These policies apply to all employees and set out the standards within which they are expected to act.

The policies are aimed at the maintenance of standards of honesty, integrity and fair dealing by all employees in their dealings with customers, suppliers, interested persons, the community, competitors and other internal units in the performance of their duties and responsibilities. The employees undergo training on the Code of Conduct to ensure that they understand and are reminded of the principles under the code.

The Company encourages the early reporting of matters of serious concern which may affect the professional and compliant operation of its businesses and reputation. It has in place a whistle-blowing policy which comes under the purview of the Audit Committee to ensure independent investigation and appropriate follow-up action on any concerns raised, including those that are raised anonymously.

The Company has adopted internal guidelines on dealings in securities by directors and employees who, by the nature of their position within the Company, are deemed to be in possession of unpublished material price sensitive information. The guidelines incorporate the best practices on the subject issued by the Singapore Exchange. Under the guidelines, directors and affected employees are not permitted to deal on short-term considerations or during the relevant closed periods immediately preceding the announcement of results.

Risk Management Review

The Group has a formal risk management process to identify, evaluate and manage significant risks impacting the Group. The process is supported by a policy as well as detailed procedures, methodologies, evaluation criteria and documentation requirements with the aim of ensuring clarity and consistency of application across the Group. These procedures and methodologies are regularly reviewed to include new elements that aim at enhancing the reporting process in order to make it more comprehensive, of greater value to the Audit Committee and in line with current best practices.

Management is required to comprehensively identify and assess significant risks in terms of the likelihood of occurrence, magnitude and speed of impact. Management is also required to identify and evaluate the adequacy and implementation of mechanisms to manage, mitigate, avoid or eliminate these risks. The process encompasses assessments and evaluations at business unit level before being examined at the Group level.

The Risk Registers are updated on a bi-annual basis and a Risk Management Review is presented annually to the Audit Committee on the significant risks, measures taken by management to address them and residual risk exposures impacting the Group.

The following are the major residual risk exposures:

1. **Dependence on Investment in Astra**
Astra is the major contributor to the Group's earnings and represents a significant proportion of the Group's total assets. Consequently, any adverse changes in Astra or in the political, social or economic situation in Indonesia will in turn have a significant impact on the Group's earnings and total assets. Such adverse changes include changes in laws, regulations and policies by the Indonesian or other foreign governments, any termination of or material changes to key licensing and distribution agreements between Astra and its strategic partners or any pricing actions Astra may have to take in response to competition which have a material adverse impact on Astra's financial performance.

   The Group is exposed to foreign currency fluctuations, mainly through Astra. Any significant depreciation of the rupiah will have an adverse impact on the Group's earnings and total assets.

2. **Terrorists' Attacks, Other Acts of Violence and Natural Disasters**
Terrorists' attacks, other acts of violence and natural disasters may directly impact the Group's physical facilities or those of its suppliers and customers and have an adverse impact on the Group's earnings and total assets. Such risks cannot be totally eliminated. However, the Group takes up appropriate insurance as part of its risk management.

3. **Outbreak of Contagious or Virulent Diseases**
A pandemic outbreak or spread of contagious or virulent diseases such as severe acute respiratory syndrome or avian influenza may result in quarantine restrictions on the Group's staff, suppliers and customers and limit access to facilities. These could have a significant negative impact on the Group's earnings and total assets. Such risks cannot be totally eliminated. However, the Group takes up appropriate insurance as part of its risk management.

4. **Competition, Economic Cycle, Commodity Prices and Government Regulations**
The Group faces competition in each of its businesses. If the Group is unable to compete successfully against its existing competitors or new entrants to the industries in which it operates, its business, financial condition and results of operations will be adversely affected.

   The Group's financial performance fluctuates with the economic cycle. Market forces and their resultant movements can significantly impact the earnings and asset position of the Group.

   The Group is also exposed to financial risks arising from changes in commodity prices, primarily crude palm oil and coal.

   The Group's businesses are impacted by government regulations and policies relevant to the respective industries and territories. Free trade agreements may also result in increased competition which may have an adverse effect on the Group's earnings and total assets.

5. **Exclusive Business Arrangements**
The Group currently has a number of subsidiaries, associates and joint ventures in Vietnam, Singapore, Malaysia, Indonesia and Myanmar engaged in the automotive business that enjoy exclusive rights in various forms either as a manufacturer, assembler, distributor or dealer.

   Management works to meet targets and improve business performance. Notwithstanding this, any change in the strategies of the principals may be beyond management's control. In certain cases, any withdrawal or dilution of the exclusive rights can potentially have a significant impact on the Group's earnings and total assets.

6. **Financial Risk**
The Group's activities expose it to a variety of financial risks, including the effects of changes in debt and equity markets, foreign currency exchange rates and interest rates. It manages its exposure to financial risks by using a variety of techniques and instruments.

   The Group has an internal policy which prohibits speculative transactions to be undertaken and only enters into derivative financial instruments in order to hedge underlying exposures. The objective is to provide a degree of certainty on costs. The investment of the Group's surplus cash resources is managed so as to minimise credit risk while seeking to enhance yield. The steps taken by the Group to manage its exposure to financial risks are set out in further detail under Financial Risk Management on page 67, Note 2.31 to the Financial Statements. The Group also has a system of internal controls as described in this report.

   Notwithstanding the risk management policies of the Group, any unanticipated fluctuations in debt and equity market prices, foreign currency exchange rates and interest rates may have an adverse effect on the Group's earnings and total assets.

Community

Jardine Cycle & Carriage ("JC&C" or "the Group") strives to be an active partner of the community through corporate social responsibility initiatives. The initiatives leverage the Group's diversified resources, expertise and partnerships, as well as empower employees to contribute meaningfully to social causes. In Singapore, JC&C is committed to supporting mental health initiatives, while its subsidiaries and associates across Southeast Asia contribute to a range of education, healthcare and environmental conservation projects.

Supporting Mental Health in Singapore

In Singapore, JC&C shares the Jardine Matheson Group's philanthropic focus on mental health. MINDSET Care Limited ("MINDSET") is an extension of Jardine Matheson's social initiative that started in Hong Kong. Established in Singapore in 2011, MINDSET became a registered charity in 2012. The charity is focused on making a positive impact by creating awareness and fighting the stigma associated with mental health challenges, supporting the social reintegration of people with mental health issues through employment and social enterprise initiatives, as well as raising and allocating funds towards mental health projects.

At JC&C, the support for MINDSET is strategic and inclusive. Its Group Managing Director, Mr Alex Newbigging serves as Chairman on the MINDSET Board and Steering Committee. The Group also provides communications, corporate secretariat, finance and legal support to MINDSET. Since 2011, the Group has pledged S$1 million (US$725,000) to MINDSET, and 27 of its employees have served or are serving two-year tenures each as "Jardine Ambassadors"; young executive volunteers committed to leading and implementing MINDSET initiatives and activities. From 2012 to 2016, JC&C's Jardine Ambassadors have clocked a total of almost 4,800 volunteerism hours. MINDSET activities are also well supported by other JC&C's employees in Singapore.

2016 was a significant year for MINDSET. It was awarded the inaugural Charity Transparency Award. The award conferred by the Charity Council recognised MINDSET's exemplary transparency and disclosure practices. In addition, the Jardine Matheson Group was named a top three "Sustainability Initiatives" finalist at the British Chamber of Commerce Singapore Annual Business Awards 2016, for its social contributions through MINDSET. These achievements attest to the impact MINDSET has on Singapore's mental health community and a mark of its progress as a charity.

The year also saw MINDSET launch its long-term flagship project – MINDSET Learning Hub ("MLH"). In collaboration with the Singapore Association for Mental Health, MLH was officially launched in October 2016. Supported by a S$2 million (US$1.5 million) pledge from the Jardine Matheson Group over a five-year period, MLH is the first and only job training and placement centre that offers Workforce Skills Qualifications ("WSQ") and non-WSQ training to people recovering from mental health issues. MLH also sources for job opportunities for its trainees. Located at Jurong East within a 5,800 square feet facility comprising four different simulated work environments, MLH aims to provide trainees with hands-on learning of the essential skillsets to obtain employment. The centre has a capacity of 300 trainees a year, focusing on the job sectors of cleaning, F&B, retail, hospitality and patient care.

In November 2016, the annual MINDSET Challenge took place at the 33-floor Marina Bay Financial Centre Tower One. The vertical race raised over S$370,000 (US$267,000) for MINDSET Learning Hub and attracted over 250 participants. In the last five years, The MINDSET Challenge has raised S$1.3 million (US$935,000) for mental health projects. In conjunction with the race, the first Jardines MINDSET Carnival was held to celebrate MINDSET's fifth anniversary in Singapore. The event saw 1,700 carnival-goers including Jardine employees,

their families and friends, as well as clients from various mental health organisations. The carnival seeks to raise awareness of mental health among employees and their families and friends, as well as to provide clients a day of fun, food and interaction.

Other significant MINDSET efforts in 2016 included securing 30 job placements for mental health clients within the Jardine Matheson Group, raising internal awareness through Mini-MINDSET Days, as well as generating a revenue of about S$65,000 (US$47,000) for clients by retailing their handicrafts at MINDSET Pop-Up Store in CityLink Mall.

Astra's Community Efforts in Indonesia

During the year, our principal subsidiary, Astra undertook initiatives in healthcare, education, environment and small and medium enterprises ("SMEs").

Astra's initiatives in environment conservation continued in 2016 with the launch of the Astra Green Energy Summit ("AGES"), in support of Indonesia's commitment to the 2015 Climate Change Conference held in Paris. AGES is an initiative to roll-out tangible energy conservation plans across Astra group companies. Involving 33 Astra companies through 46 programmes, the Astra group conserved 807 terajoules of energy from 2015 to 2016.

To further encourage environmental awareness, Astra organised the third Astra Green Run ("AGR"), which was held in Bali and Jakarta in October 2016. Themed "Run for the Environment", Astra commits to plant a new tree for every runner participating in the event. Through AGR 2016, Astra will plant 7,000 new trees. In addition, AGR participants could exchange 10 plastic bottles for a Rp50,000 cashback. In total, 36,430 plastic bottles, weighing over 400kg were collected.

During the year, Astra continued to develop the Astra Integrated Village programme, which started in 2014. In 2016, the Tanon Tourism Village, comprising 43 households, in Semarang, Java was developed. Astra Green Villages aim to holistically support healthcare, education, environment and SMEs.

The year also saw Astra collect over 6,000 pairs of shoes for re-distribution to children in three communities in Indonesia. In addition, Astra lends support to SMEs through the Astra Start-Up Challenge, a platform to encourage entrepreneurship among young people. The challenge is also a partnership with the Ministry of Cooperatives and Small and Medium Enterprises to inspire start-ups. Astra also continuously recognises youths who dedicated efforts towards social causes at its annual SATU Indonesia Awards. Since 2010, 39 recipients received funding to implement their ideas.

Efforts across Southeast Asia

JC&C's subsidiaries and associates across Southeast Asia also provided support to a range of community efforts. Some of the 2016 highlights included Cycle & Carriage Bintang in Malaysia organising donation drives and contributing funds to help women and the elderly in need. Truong Hai Auto Corporation ("THACO") committed VND 200 billion (US$9 million) to a five-year programme (2016-2021) aimed at inspiring youth start-ups and VND 16 billion (US$720,000) to traffic safety efforts with the National Traffic Safety Committee (2016-2018), and further donated funds to flood relief and scholarships for poor students in 2016. In Indonesia, Tunas Ridean pledged funds to disaster relief and supported youth programmes, and also encouraged technical education by organising youth competitions. Siam City Cement also dedicated its efforts in promoting environmental conservation with green housing, educational and infrastructure projects.

Financial Calendar

Financial Year Ended 31st December 2016 Announcement of results:

Directors' Statement

The directors of Jardine Cycle & Carriage Limited present their statement to the members together with the audited financial statements for the financial year ended 31st December 2016.

In the opinion of the directors,

(a) the accompanying financial statements set out on pages 45 to 128 are drawn up so as to give a true and fair view of the financial position of the Group and of the Company at 31st December 2016, the financial performance and the changes in equity of the Group and of the Company and the cash flows of the Group for the financial year then ended; and

(b) at the date of this statement there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

1. Directors

The directors of the Company in office at the date of this statement are as follows:

Benjamin Keswick (Chairman)
Boon Yoon Chiang (Deputy Chairman)#
Alexander Newbigging (Group Managing Director)
Adrian Teng (Group Finance Director, appointed on 1st April 2016)
Tan Sri Azlan Zainol
Chang See Hiang#
Mark Greenberg#
Hassan Abas#
Michael Kok
Mrs Lim Hwee Hua#
Dr Marty Natalegawa
Anthony Nightingale
James Watkins#

Audit Committee member.

2. Directors' Interests

As at 31st December 2016 and 1st January 2016, the directors of the Company had interests set out below in the ordinary shares of the related companies. These were direct interests except where otherwise indicated:

Name of director/ Par value per share	Jardine Matheson US$0.25	Jardine Strategic US$0.05	Dairy Farm US$0.05 5/9	Astra International Rp50	Hongkong Land US$0.10
As at 31st December 2016					
Benjamin Keswick	2,760,935 40,516,428*	-	-	-	-
Michael Kok	-	-	282,888	-	-
Anthony Nightingale	1,186,780	18,374	34,183	6,100,000	2,184
James Watkins	50,000	-	-	-	-
Mark Greenberg	43,678	-	-	-	-
As at 1st January 2016					
Benjamin Keswick	2,694,812 39,683,431*	-	-	-	-
Michael Kok	-	-	282,888	-	-
Anthony Nightingale	1,186,780	18,207	34,183	6,100,000	2,184
James Watkins	50,000	-	-	-	-

* Deemed interest in shares held by family trusts in which Benjamin Keswick is a beneficiary.

Jardine Cycle & Carriage Limited | Annual Report 2016

Directors' Statement

2. Directors' Interests (continued)

In addition:

(a) At 31st December 2016, Benjamin Keswick, Alexander Newbigging, Adrian Teng and Mark Greenberg held options in respect of 290,000 (1.1.16: 170,000), 40,000 (1.1.16: 40,000), 48,334 (1.4.16: 48,334) and 190,000 (1.1.16: 240,000) ordinary shares, respectively, in Jardine Matheson issued pursuant to that company's Senior Executive Share Incentive Schemes.

(b) At 31st December 2016 and 1st January 2016, Benjamin Keswick and Mark Greenberg had deemed interests in 35,915,991 ordinary shares in Jardine Matheson as discretionary objects under the 1947 Trust, the income of which is available for distribution to senior executive officers and employees of Jardine Matheson and its wholly-owned subsidiaries.

No person who was a director of the Company at the end of the financial year had an interest in any shares or debentures of the Company either at the beginning or end of the financial year or on 21st January 2017.

At no time during the financial year was the Company a party to any arrangement whose object was to enable the directors of the Company to acquire benefits by means of the acquisition of shares or debentures of the Company or any other body corporate.

3. Audit Committee

In relation to the financial statements of the Group and the Company for the financial year ended 31st December 2016, the Audit Committee reviewed the audit plans and scope of the audit examination of the internal and external auditors of the Company. The internal and external auditors' findings on the internal controls of the companies within the Group and management's response to these findings were also discussed with the internal and external auditors and management. The Audit Committee's activities included a review of the financial statements of the Group and the Company for the financial year ended 31st December 2016 and the reports of the external auditors thereon. The Audit Committee has had four meetings since the report of the previous financial year.

The Audit Committee has recommended to the Board of Directors the re-appointment of our auditors, PricewaterhouseCoopers LLP, as external auditors of the Company at the forthcoming Annual General Meeting.

4. Share Options

No options were granted during the financial year to subscribe for unissued shares of the Company.

No shares were issued during the financial year by virtue of the exercise of options to take up unissued shares of the Company.

There were no unissued shares of the Company under option at the end of the financial year.

5. Auditors

Our auditors, PricewaterhouseCoopers LLP, being eligible, have expressed their willingness to accept re-appointment at the Annual General Meeting.

On behalf of the directors

Benjamin Keswick
Director

Hassan Abas

Independent Auditor's Report

To the members of Jardine Cycle & Carriage Limited (Incorporated in Singapore) and subsidiaries

Report on the Audit of the Financial Statements

Our Opinion

In our opinion, the accompanying consolidated financial statements of Jardine Cycle & Carriage Limited ("the Company") and its subsidiaries ("the Group") and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 ("the Act") and International Financial Reporting Standards ("IFRSs") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31st December 2016 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group, and of the financial performance and changes in equity of the Company for the financial year ended on that date.

What we have audited

The financial statements of the Company and the Group comprise:

- the consolidated balance sheet of the Group as at 31st December 2016;
- the balance sheet of the Company as at 31st December 2016;
- the consolidated profit and loss account of the Group for the year then ended;
- the profit and loss account of the Company for the year then ended;
- the consolidated statement of comprehensive income of the Group for the year then ended;
- the statement of comprehensive income of the Company for the year then ended;
- the consolidated statement of changes in equity of the Group for the year then ended;
- the statement of changes in equity of the Company for the year then ended;
- the consolidated statement of cash flows of the Group for the year then ended; and
- the notes to the financial statements, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Our Audit Approach (continued)

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31st December 2016. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Valuation of financing debtors	
As at 31st December 2016, total financing debtors of the Group amounted to US$4,810.9 million. Assessing the allowance for impairment of financing debtors requires management to make subjective judgements over both the timing of recognition and estimation of the amount required of such impairment. Refer to Note 19 of the financial statements for the impairment indicators considered by management in its assessment.	We assessed and tested the design and operating effectiveness of the controls over the financing debtors' data and impairment calculations. These controls included those over credit review and approval, system access, segregation of duties, identification and monitoring of loans that were impaired, and the calculation of the impairment allowances. We reviewed the appropriateness of the provisioning methodology used by management in determining the impairment allowances. We also assessed the reasonableness of the assumptions used in the provisioning methodology by comparing them with historical data adjusted for current market conditions. These included the estimates used in the probability of default and loss given default. We recomputed management's calculation for the impairment allowance and also tested the adequacy of prior year allowances by comparing them against actual loss incurred in the current year. We challenged management in its key areas of judgement, including the use of portfolio segmentation, loss data periods and estimated market value for collateral held. Where the impairment was individually identified and computed, we tested a sample of these financing debtors to ascertain if the impairment had been recognised on a timely basis. We also challenged management's assumptions on the expected future cash flows, including where relevant, the value of realisable collateral based on our understanding of the counterparty and business environment. Based on our audit procedures, we found management's assessment of the valuation of financing debtors to be reasonable.

Independent Auditor's Report

To the members of Jardine Cycle & Carriage Limited (Incorporated in Singapore) and subsidiaries

Our Audit Approach (continued)

Key Audit Matters (continued)

Key audit matter	How our audit addressed the key audit matter
Purchase price allocation ("PPA") and valuation of investment in an associate - Siam City Cement Public Company Limited ("SCCC")	
Purchase price allocation	
The Group acquired 24.9% equity interest in SCCC in April 2015 for a purchase consideration of US$615.3 million. As part of the PPA performed by management, this amount has been allocated to the fair value of the identifiable assets acquired and liabilities assumed, resulting in the recognition of goodwill of US$345.5 million on the investment in SCCC as disclosed in Note 16(a) of the financial statements. The fair value of the identifiable assets acquired and liabilities assumed, including the intangible assets identified for this acquisition required a significant number of management's estimates, including discount rates.	Our audit procedures included assessing the appropriateness of the fair value of the net identifiable assets acquired and liabilities assumed. Specifically on the fair valuation of intangible assets, we involved our valuation specialists in assessing the methodology and the appropriateness of the key assumptions used, including discount rates. Based on our audit procedures, we found management's bases of estimating the value to allocate to the purchase price of the Group's investment in SCCC to be reasonable.
Valuation of investment in an associate	
At 31st December 2016, management noted an impairment trigger as the carrying amount of the investment in SCCC was higher than its fair value based on prevailing market share price. Management therefore performed an impairment assessment to compute the value in use which is the present value of the future cash flows expected to be derived from the investment in SCCC. This required significant judgement in determining the key estimates used, including the discount rate, revenue growth rates and long term growth rates. Based on management's assessment, as the value in use computation is higher than the carrying amount of the investment, no impairment was recognised.	In our review of management's impairment assessment of the investment in SCCC, we involved our valuation specialists to evaluate the valuation methodology and key estimates used. We also challenged the reasonableness of the key estimates used, including the discount rates, revenue growth rates and long term growth rates based on the economic and industry statistics relevant to the business. In addition, we assessed the sensitivity of these key estimates on the impairment assessment and the impact on the headroom over the carrying amount. Based on our audit procedures, we found management's assessment to be reasonable.

Key audit matter	How our audit addressed the key audit matter
Valuation of bearer plants and agricultural produce and the application of the amendments to International Accounting Standards ("IAS") IAS 16 – Property, Plant and Equipment and IAS 41 – Agriculture	
The Group's adoption of the amendments of IAS 16 and IAS 41 during the financial year require bearer plants to be stated at cost less accumulated depreciation while the agricultural produce is measured at fair value less cost to sell at each reporting period. The revised accounting treatment for the Group's plantations in accordance with the amendments of IAS 16 and IAS 41 have been applied retrospectively. The fair valuation of the agricultural produce involved significant judgement by management in determining the inputs used, including the crude palm oil price, maintenance costs and harvesting period.	We tested the valuation of the bearer plants under the cost model and reviewed the appropriateness of the useful lives. We also tested the retrospective adjustments in accordance with IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors. The effects of adopting the amendments on the Group's financial statements are included in Note 2.1. On the fair valuation of the agricultural produce, we involved our industry specialists to independently test the methodology and estimates that were used by the management. These estimates, amongst others, included crude palm oil price, maintenance costs and harvesting period. Specifically on the harvesting period, we compared this against the period used by companies within the industry and found the estimate used by management to be within the expected range. Based on our audit procedures, we found management's valuation of the agriculture produce, the adoption of the amendments to IAS 16 and IAS 41 and the related disclosure in Notes 14 and 2.4 to be appropriate.

To the members of Jardine Cycle & Carriage Limited (Incorporated in Singapore) and subsidiaries

Other Information

Management is responsible for the other information. The other information comprises the Directors' Statement included in pages 38 to 39 but does not include the financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the other sections of the annual report ("the Other Sections"), which are expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Other Sections, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with SSAs.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and IFRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Independent Auditor's Report

To the members of Jardine Cycle & Carriage Limited (Incorporated in Singapore) and subsidiaries

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Quek Bin Hwee.

Net cash flows used in financing activities		**(290.2)**	(187.6)
Net change in cash and cash equivalents		**282.3**	528.7
Cash and cash equivalents at the beginning of the year		**2,173.0**	1,758.1
Effect of exchange rate changes		**10.4**	(113.8)
Cash and cash equivalents at the end of the year	36	**2,465.7**	2,173.0

The notes on pages 55 to 128 form an integral part of the financial statements.

Notes to the Financial Statements

For the year ended 31st December 2016

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1 General

The Company is incorporated and domiciled in Singapore and is listed on the Singapore Exchange. The address of its registered office is 239, Alexandra Road, Singapore 159930.

The principal activities of the Group are the manufacture, assembly, distribution and retail of motor vehicles and motorcycles, financial services, heavy equipment and mining, agribusiness, infrastructure and logistics, information technology and property. The Company acts as an investment holding company and a provider of management services.

On 14th March 2017, the Jardine Cycle & Carriage Limited Board of Directors authorised the financial statements for issue.

2 Significant Accounting Policies

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented.

2.1 Basis of Preparation

The financial statements of the Group and the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS"), including International Accounting Standards ("IAS") and Interpretations adopted by the International Accounting Standards Board ("IASB"). The financial statements have been prepared on a going concern basis under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 2.32.

The following new amendments which are effective in the accounting period and relevant to the Group's operations were adopted in 2016:

Amendments to IFRS 11	Accounting for Acquisitions of Interests in Joint Operations
Amendments to IAS 1	Disclosure Initiative: Presentation of Financial Statements
Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation
Amendments to IAS 16 and IAS 41	Agriculture: Bearer Plants
Improvements to IFRSs	2012 – 2014 Cycle

The adoption of the above amendments does not have a significant effect on the Group's accounting policies and disclosures except for the amendments to IAS 16 and IAS 41, which has resulted in a change in accounting policy for bearer plants. Previously, plantations were measured at each balance sheet date at their fair values. In accordance with the amendments, bearer plants in the plantations are stated at cost less any accumulated depreciation and impairment. The accounting for produce growing on the bearer plants will remain unchanged and is shown at fair value. The amendments have been applied retrospectively and the comparative financial statements have been restated.

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.1 Basis of Preparation (continued)

The effects of adopting amendments to IAS 16 and IAS 41 were as follows:

(a) On the consolidated profit and loss for the year ended 31st December 2015

	Increase/ (decrease) in profit US$m
Net operating costs	9.1
Tax	(2.2)
Profit after tax	6.9
Attributable to:	
Shareholders of the Company	2.7
Non-controlling interests	4.2
	6.9
Increase in earnings per share (US¢) – basic and diluted	1
Decrease in underlying earnings per share (US¢) – basic and diluted	(2)

(b) On the consolidated statement of comprehensive income for the year ended 31st December 2015

	Increase/ (decrease) in total comprehensive income US$m
Profit after tax	6.9
Net exchange translation differences	31.2
Total comprehensive income for the year	38.1
Attributable to:	
Shareholders of the Company	13.9
Non-controlling interests	24.2
	38.1

(c) On the consolidated balance sheet

	Increase/(decrease)	
	31.12.2015 US$m	1.1.2015 US$m
Plantations	(858.8)	(907.6)
Bearer plants	484.7	482.9
Total assets	(374.1)	(424.7)
Deferred tax liabilities	92.6	105.1
Net assets	(281.5)	(319.6)
Revenue and other reserves	(100.8)	(114.7)
Non-controlling interests	(180.7)	(204.9)
Total equity	(281.5)	(319.6)

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.1 Basis of Preparation (continued)

Certain new standards and amendments, which are effective after 2016, have been published and will be adopted by the Group from their effective dates. The Group is currently assessing the potential impact of these standards and amendments but expects their adoption will not have a significant effect on the Group's consolidated financial statements except as set out below.

IFRS 9 'Financial Instruments' (effective for accounting periods beginning on or after 1st January 2018), which replaces IAS 39 'Financial Instruments: Recognition and Measurement', addresses the classification and measurement of financial assets and liabilities and includes a new expected credit losses model for financial assets that replaces the incurred loss impairment model used today. A substantially-reformed approach to hedge accounting is introduced. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. The Group does not expect the new guidance to have a significant impact on the classification and measurement of its financial assets and financial liabilities. While the Group is still assessing the impact of how its impairment provisions would be affected by the new impairment model, it may result in an earlier recognition of credit losses. The new hedge accounting rules will align the accounting for hedging instruments closely with the Group's risk management practices. Nevertheless, the Group does not expect a significant impact on the accounting for its hedging relationships.

IFRS 15 'Revenue from Contracts with Customers' (effective for accounting periods beginning on or after 1st January 2018), establishes a comprehensive framework for determining when to recognise revenue and how much revenue to recognise. IFRS 15 replaces IAS 11 'Construction Contracts' and IAS 18 'Revenue' which covers contracts for goods and services. The core principle in that framework is that revenue is recognised when control of a good or service transfers to a customer. The new standard will also result in new disclosure requirements on revenue, provide guidance for transactions that were not previously addressed comprehensively (for example, service revenue and contract modifications) and improve guidance for multiple-element arrangements. At this stage, the Group is still assessing the impact of the new rules on the Group's financial statements.

IFRS 16 'Leases' (effective for accounting periods beginning on or after 1st January 2019) replaces IAS 17 'Leases' and related interpretations. It will result in lessees bringing almost all their leases onto the balance sheet as the distinction between operating leases and finance leases is removed. The model requires a lessee to recognise a right-of-use asset (the right to use the underlying leased asset) and a lease liability (the obligation to make lease payments) except for leases with a term of less than 12 months or with low-value. The accounting for lessors will not change significantly. IFRS 16 will affect primarily the accounting for the Group's operating leases. The Group is yet to undertake a detailed assessment on how the new lease model will affect the Group's profit, classification of cash flows and balance sheet position.

2.2 Consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries, and the Group's interests in associates and joint ventures on the basis set out below.

A subsidiary is an entity over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of acquisition includes the fair value at the acquisition date of any contingent consideration. The Group recognises the non-controlling interest's proportionate share of the recognised identifiable net assets of the acquired subsidiary. In a business combination achieved in stages, the Group remeasures its previously held interest in the acquiree at its acquisition-date fair value and recognises the resulting gain or loss in the profit and loss account. Changes in a parent's ownership interest in a subsidiary that do not result in the loss of control are accounted for as equity transactions. When control over a previous subsidiary is lost, any remaining interest in the entity is remeasured at fair value and the resulting gain or loss is recognised in the profit and loss account.

All material inter-company transactions, balances and unrealised gains and deficits on transactions between Group companies have been eliminated.

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.2 Consolidation (continued)

An associate is an entity, not being a subsidiary or joint venture, over which the Group exercises significant influence. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

Associates and joint ventures are accounted for in the consolidated financial statements using the equity method of accounting and are initially recorded at cost. The Group's investment in associates and joint ventures includes goodwill (net of any accumulated impairment loss) identified on acquisition. The Group's share of its post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are included in the carrying amount of the associates and joint ventures. Its share of post-acquisition profit and loss is recognised in the consolidated profit and loss account.

Profits and losses resulting from upstream and downstream transactions between the Group and its associates and joint ventures are recognised in the consolidated financial statements only to the extent of unrelated investor's interests in the associates and joint ventures.

The results of subsidiaries, associates and joint ventures are included or excluded from the consolidated financial statements from the effective dates of acquisition or disposal, respectively. The results of entities other than subsidiaries, associates and joint ventures are included to the extent of dividends received when the right to receive such dividend is established.

Non-controlling interests represent the proportion of the results and net assets of subsidiaries and their associates and joint ventures not attributable to the Group.

2.3 Property, Plant and Equipment

Freehold land and buildings, and the building component of owner-occupied leasehold properties are stated at cost less any accumulated depreciation and impairment loss. The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Mining properties, which are contractual rights to mine and own coal reserves in specified concession areas, and other assets are stated at historical cost or at fair value if acquired as part of a business combination, less accumulated depreciation and impairment loss. Cost of mining properties includes expenditure to restore and rehabilitate coal mining areas following the completion of production.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit and loss account during the financial year in which they are incurred.

Freehold land is not depreciated. Mining properties are depreciated using the unit of production method. Depreciation of all other assets is calculated using the straight line method to allocate the cost of each asset to their residual values over their estimated useful lives at the following annual rates:

Building and leasehold improvements	$3^1/_3$% - 50%
Plant and machinery	5% - 50%
Office furniture, fixtures and equipment	10% - 50%
Transportation equipment and motor vehicles	4% - 50%

The residual values, useful lives and depreciation methods of property, plant and equipment are reviewed at each balance sheet date and adjusted, if appropriate.

On disposal of property, plant and equipment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the profit and loss account.

Jardine Cycle & Carriage Limited | Annual Report 2016

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.4 Bearer Plants and Agricultural Produce

Bearer plants are stated at cost less any accumulated depreciation and impairment loss. The cost of bearer plants includes costs incurred for field preparation, planting, fertilising and maintenance, capitalization of borrowing costs incurred on loans used to finance the development of immature bearer plants and an allocation of other indirect costs based on planted hectares. Bearer plants are considered mature three to four years after planting and once they are generating fresh fruit bunches which average four to six tonnes per hectare per year. Depreciation of mature bearer plants commences in the year when the bearer plants are mature using the straight-line method over the estimated useful life of 20 years. Agricultural produce growing on bearer plants comprise oil palm fruits which are measured at fair value and are included under current debtors as they are not significant. Changes in fair value are recorded in the profit and loss account.

2.5 Investment Properties

Investment properties are properties, including those held under operating leases, held for long-term rental yields or capital gains, but their business model does not necessarily envisage that the properties will be held for their entire useful life. Investment properties are stated at fair value, representing estimated open market value determined annually by independent qualified valuers who have recent experience in the location and category of the investment property being valued. Changes in fair values are recorded in the profit and loss account. Investment properties under development are measured at cost until its fair value becomes reliably measurable or construction is completed (whichever is earlier).

2.6 Intangible Assets

i) Goodwill

Goodwill represents the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the acquisition-date fair value of any previously held equity interest in the acquiree over the acquisition-date fair value of the net identifiable assets acquired. Non-controlling interests are measured at their proportionate share of the net identifiable assets at the acquisition date. If the cost of acquisition is less than the fair value of the net assets acquired, the difference is recognised directly in the profit and loss account. Goodwill on acquisition of associates and joint ventures is included in interests in associates and joint ventures while goodwill on acquisition of subsidiaries is included in intangible assets. Goodwill on acquisition of subsidiaries is tested annually for impairment and carried at cost less accumulated impairment loss. Goodwill is allocated to cash-generating units or groups of cash-generating units for the purpose of impairment testing.

The profit or loss on disposal of subsidiaries, associates and joint ventures is stated after deducting the carrying amount of goodwill relating to the entity sold.

ii) Franchise rights

Franchise rights, which are rights under franchise agreements, are separately identified intangible assets acquired as part of a business combination. These franchise agreements are deemed to have indefinite lives because either they do not have any term of expiry or their renewal by the Group would be probable and would not involve significant costs, taking into account the history of renewal and the relationships between the franchisee and contracting parties. Franchise rights are not amortised, but are tested annually for impairment and carried at cost less accumulated impairment loss.

iii) Concession rights

Concession rights are operating rights for toll roads under service concession agreements. The cost of the construction services is amortised based on traffic volume projections over the period of the concession.

iv) Customer acquisition costs

Customer acquisition costs which are directly related to insurance contract, such as commissions, are capitalised and subsequently amortised over the lives of the contracts that range from 1 to 5 years.

v) Deferred exploration costs

Exploration costs are capitalised when the rights of tenure of a coal mining area are current and it is considered probable that the costs will be recouped through successful development and exploitation of the area. Deferred exploration costs are amortised using the unit of production method, and are assessed for impairment if facts and circumstances indicate that an impairment may exist.

vi) Computer software

Computer software is stated at cost less accumulated amortisation and impairment loss. These costs are amortised using the straight line method over their estimated useful lives that range from 1 to 9 years.

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.7 Leasehold Land Use Rights

Leasehold land use rights are payments to acquire long-term interests in owner-occupied property. Leasehold land use rights acquired by way of a business combination are measured at their fair values at the acquisition date. For subsequent measurement, leasehold land use rights are amortised over the useful lives of the leases which include the renewal period if the leases can be renewed without significant cost. The estimated useful lives range from 1 to 94 years.

2.8 Impairment of Non-financial Assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Assets that have an indefinite useful life, for example goodwill, are not subject to amortisation and are tested annually for impairment. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount which is the higher of an asset's fair value less cost to sell and value-in-use. For the purpose of assessing impairment, assets are grouped at the lowest level for which there is separately identifiable cash flows. Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment annually.

2.9 Financial Assets

Financial assets are initially recognised at fair value plus transaction costs. Subsequent measurement of financial assets depends on the classification of the financial assets.

The Group classifies its financial assets in the following categories: loans and receivables, available-for-sale financial assets and held-to-maturity financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are carried at amortised cost using the effective interest method, less impairment allowance. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. Loans and receivables are classified as "debtors" in the balance sheet.

ii) Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any other categories. They are stated at fair values and are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date. Unrealised gains and losses arising from changes in the fair value of these investments are recognised in other comprehensive income and accumulated under equity in the fair value reserve. On disposal of investments or when an investment is determined to be impaired, the cumulative gains and losses previously deferred in equity is recognised in the profit and loss account.

iii) Held-to-maturity financial assets

Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. Held-to-maturity financial assets are carried at amortised cost using the effective interest method.

All purchases and sales of investments are recognised on the trade date, which is the date that the Group commits to purchase or sell the investment.

The fair values of quoted financial assets are based on current market prices. If the market for a financial asset is not active (and for unquoted securities), the Group establishes fair values by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, or discounted cash flow analysis.

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the investment below its cost is considered in determining whether the investments are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss (measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the profit and loss account) is removed from the fair value reserve within equity and recognised in the profit and loss account. Impairment testing of debtors is described in Note 2.12.

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.10 Investments in Subsidiaries, Associates and Joint Ventures

Investments in subsidiaries, associates and joint ventures are stated in the financial statements of the Company at cost. When an indication of impairment exists, the carrying amount of the investment is written down immediately to its recoverable amount. The write-down is charged to the profit and loss account.

2.11 Stocks

Stocks are stated at the lower of cost and net realisable value. Cost is generally determined using the first-in, first-out method, specific identification method and weighted average method. The cost of finished goods and work in progress comprises goods held for resale, raw materials, labour and an appropriate portion of overheads. The net realisable value is the estimated selling price in the ordinary course of business, less the cost of completion and selling expenses.

2.12 Debtors

Debtors, excluding derivative financial instruments, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, except where the effect of discounting would be immaterial, less allowance for impairment. Repossessed assets of financial services companies, which represent collateral obtained from customers towards settlement of receivables that are in default, are measured at the lower of cost of the carrying amount of the debtors in default and fair value less costs to sell. The financial services company is given the right by the customers to sell the repossessed collateral. Any excess of proceeds from the sale over the outstanding receivables is refunded to the customer.

An allowance for impairment of debtors is established when there is objective evidence that the outstanding amounts will not be collected. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the debtors are impaired. The amount of the allowance is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the effective interest rate. The amount of the allowance is recognised in the profit and loss account. Bad debts are written off as soon as it is established that these are irrecoverable. Debtors with maturities greater than 12 months after the balance sheet date are classified under non-current assets.

2.13 Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprise deposits with banks and financial institutions, bank and cash balances, net of bank overdrafts. In the balance sheet, bank overdrafts are included under current borrowings.

2.14 Borrowings

Borrowings are initially stated at fair value, net of transaction costs incurred. In subsequent periods, borrowings are stated at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liabilities for at least 12 months after the balance sheet date. Borrowing costs that are not used in financing the acquisition or construction of qualifying assets, are recognised as an expense in the period in which they are incurred.

2.15 Provisions

Provisions are recognised when the Group has present legal or constructive obligations as a result of past events, it is more likely than not that an outflow of economic resources embodying economic benefits will be required to settle the obligations, and a reliable estimate of the amount of the obligation can be made.

i) Warranty and goodwill expenses

The Group recognises the estimated liability that falls due under the warranty terms offered on sale of new and used vehicles beyond that which is reimbursed by the manufacturer. The provision is calculated based on the past history of repairs.

ii) Closure costs

The Group recognises a provision for closure costs when legal or constructive obligations arise on closure or disposal of businesses.

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.16 Creditors

Creditors, excluding derivative financial instruments, are initially measured at fair value, and subsequently measured at amortised cost, using the effective interest method. Creditors are classified under non-current liabilities unless their maturities are within 12 months after the balance sheet date.

2.17 Employee Benefits

i) Pension obligations

The Group operates a number of defined benefit and defined contribution plans.

Pension accounting costs for defined benefit plans are assessed using the projected unit credit method. Under this method, the costs of providing pensions are charged to the profit and loss account spreading the regular cost over the service lives of employees in accordance with the advice of qualified actuaries, who carry out a full valuation of major plans every year. The pension obligations are measured as the present value of the estimated future cash outflows by reference to market yields on government bonds which have terms to maturity approximating the terms of the related liability. Plan assets are measured at fair value. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, and are recognised in other comprehensive income and accumulated under equity in the revenue reserve. Past service costs are recognised immediately in the profit and loss account.

The Group pays fixed contributions into separate entities for defined contribution plans and has no legal or constructive obligations once the contributions are paid. The Group's contributions to the defined contribution plans are charged to the consolidated profit and loss account in the period to which the contributions relate.

ii) Share-based compensation

The fair value of the employee services received in exchange for the grant of the options in respect of shares in the Company or in its subsidiaries is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options on the grant date, excluding the impact of non-market vesting conditions. At each balance sheet date, the entity revises its estimates of the number of options that are expected to become exercisable. It recognises the impact of the revision of original estimates, if any, in the profit and loss account, and a corresponding adjustment to share option reserve over the remaining vesting period.

The proceeds received net of any transaction costs are credited to share capital when the options are exercised.

iii) Employee leave entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for leave as a result of services rendered by employees up to the balance sheet date.

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.18 Foreign Currencies

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The functional currency of the Company is the Singapore Dollar. The financial statements of the Group and the Company are presented in United States Dollars to serve the needs of the readers of the Group's and the Company's financial statements who are spread globally and reflects the international nature of the Group.

Foreign currency transactions of each entity in the Group are translated into its functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency monetary assets and liabilities are translated into the functional currency at the rates of exchange prevailing at the balance sheet date. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies, are recognised in the profit and loss account, except when recognised in other comprehensive income and accumulated under equity in the hedging reserve as qualifying cash flow hedges.

Changes in the fair value of monetary securities denominated in foreign currency classified as available-for-sale are analysed between translation differences resulting from changes in the amortised cost of the security, and other changes in the carrying amount of the security. Translation differences are recognised in the profit and loss account, and other changes in carrying amount are recognised in other comprehensive income and accumulated under equity in the fair value reserve. Translation differences on non-monetary financial assets and liabilities are recognised in other comprehensive income and accumulated under equity in the fair value reserve.

For the purpose of consolidation, the balance sheets of foreign entities are translated into the Group's presentation currency in United States Dollars at the rates of exchange prevailing at the balance sheet date and the results of foreign entities are translated into United States Dollars at the average exchange rates for the financial year. The resulting exchange differences are recognised in other comprehensive income and accumulated in equity under the translation reserve. On disposal, these translation differences are recognised in the profit and loss account as part of the gain or loss on sale. None of the Group's entities has the currency of a hyperinflationary economy.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the rate of exchange prevailing at the balance sheet date. For the purpose of presenting the financial statements of the Company in United States Dollars, assets and liabilities of the Company are translated at the rates of exchange prevailing at the balance sheet date, the results of the Company are translated at the average exchange rates for the financial year and share capital and reserves are translated at the exchange rates prevailing at the dates of the transactions. The resulting exchange differences are taken to the Company's translation reserve.

The exchange rates used for translating assets and liabilities at the balance sheet date are US$1=S$1.4449 (2015: US$1= S$1.4144), US$1=RM4.4852 (2015: US$1= RM4.2945), US$1=IDR13,436 (2015: US$1= IDR13,795), US$1=VND22,765 (2015: US$1= VND22,495) and US$1=THB35.809 (2015: US$1= THB36.1000).

The exchange rates used for translating the results for the year are US$1=S$1.38327 (2015: US$1= S$1.3784), US$1=RM4.1462 (2015: US$1= RM3.9380), US$1=IDR13,330 (2015: US$1= IDR13,458), US$1=VND22,373 (2015: US$1= VND21,959) and US$1=THB35.271 (2015: US$1= THB34.4138).

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.19 Revenue Recognition

Revenue is measured at the fair value of the consideration received and receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts and sales related taxes. The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and when specific criteria have been met for each of the Group's activities as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved.

i) Revenue from the sale of goods is recognised on the transfer of significant risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers.

ii) Receipts under operating leases are accounted for on an accrual basis over the lease terms.

iii) Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract.

iv) Revenue from consumer financing and finance leases is recognised over the term of the respective contracts based on a constant rate of return on the net investment.

v) Interest income is recognised on a time proportion basis taking into account the principal amounts outstanding and the interest rates applicable.

vi) Dividend income is recognised when the right to receive payment is established.

2.20 Tax

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax is provided in full using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying values. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Provision for deferred tax is made on the revaluation of certain non-current assets and, in relation to business acquisitions, on the difference between the fair values of the net assets acquired and their tax bases. Deferred tax is provided on temporary differences associated with investments in subsidiaries, associates and joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.21 Leases

i) Finance leases - Group is the lessee

The Group leases certain property, plant and equipment. Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the commencement of the lease at the lower of the fair value of the leased property, plant and equipment and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other long-term borrowings, except for those with maturities of less than 12 months which are included in current borrowings. The interest element of the finance cost is charged to the profit and loss account over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the useful lives of the assets or the lease term.

ii) Operating leases - Group is the lessee

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit and loss account on a straight line basis over the period of the lease. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

iii) Finance leases - Group is the lessor

When assets are leased out under a finance lease, the present value of the lease payments is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income. Revenue from finance leases is recognised over the term of the respective contracts based on a constant periodic rate of return on the net investment.

iv) Operating leases - Group is the lessor

The Group leases out certain property, plant and equipment and investment properties. Rental income (net of any incentives given to lessees) is recognised on a straight line basis over the lease term.

2.22 Non-current Assets held for Sale

Non-current assets are classified as assets held for sale and stated at the lower of carrying amount and fair value less costs to sell if their carrying amount is recovered principally through a sale transaction rather than through continuing use. Once classified as held for sale, the assets are no longer amortised or depreciated.

2.23 Insurance Contracts

Insurance contracts are those contracts that transfer significant insurance risk. Premiums are recognised as revenue (earned premiums) proportionately over the period of coverage. The portion of premium received on in-force contracts that relates to unexpired risks at the balance sheet date is reported as the unearned premium liability.

Claims and loss adjustment expenses are charged to profit and loss account as incurred based on the estimated liabilities for compensation owed to contract holders or third parties damaged by the contract holders. They include direct and indirect claims settlement costs and arise from events that have occurred up to the balance sheet date even if they have not yet been reported to the Group. The Group does not discount its liabilities for unpaid claims. Liabilities for unpaid claims are estimated using the input of assessments for individual cases reported to the Group and statistical analysis for the claims incurred but not reported.

2.24 Financial Guarantee Contracts

Financial guarantee contracts under which the Group accepts significant risk from a third party by agreeing to compensate that party on the occurrence of a specified uncertain future event are accounted for in a manner similar to insurance contracts. Provisions are recognised when it is probable that the guarantee will be called upon and an outflow of resources embodying economic benefits will be required to settle the obligations.

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.25 Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

2.26 Non-trading Items

Non-trading items are separately identified to provide greater understanding of the Group's underlying business performance. Items classified as non-trading items include fair value gains or losses on revaluation of investment properties and agricultural produce; gains and losses arising from sale of businesses, investments and properties; impairment of non-depreciable intangible assets and other investments; provisions for closure of businesses; acquisition-related costs in business combinations and other credits and charges of a non-recurring nature that require inclusion in order to provide additional insight into the Group's underlying business performance.

2.27 Derivative Financial Instruments

The Group only enters into derivative financial instruments in order to hedge underlying exposures. Derivative financial instruments are initially recognised in the balance sheet at fair value on the date a derivative contract is entered into and subsequently remeasured at their fair values. The method of recognising the resulting gain or loss is dependent on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. On the date a derivative contract is entered into, the Group designates certain derivatives as either a hedge of the fair value of a recognised asset or liability (fair value hedge), a hedge of a forecasted transaction or of the foreign currency risk on a firm commitment (cash flow hedge) or a hedge of a net investment in a foreign entity (net investment hedge).

Changes in the fair value of derivatives that are designated and qualify as fair value hedges and that are highly effective, are recorded in the profit and loss account, along with any changes in the fair value of the hedged asset or liability that is attributable to the hedged risk. The gain or loss relating to the ineffective portion is recognised in the profit and loss account. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria of hedge accounting, the cumulative adjustment to the carrying amount of a hedged item, for which the effective interest method is used, is amortised to the profit and loss account over the residual period to maturity.

Changes in the fair value of derivatives that are designated and qualify as cash flow hedges and that are highly effective, are recognised in other comprehensive income and accumulated in equity under the hedging reserve. Changes in the fair value relating to the ineffective portion are recognised immediately in the profit and loss account. Where the forecasted transaction or firm commitment results in the recognition of a non-financial asset or of a non-financial liability, the gains and losses previously deferred in equity are transferred from hedging reserve and included in the initial measurement of the cost of the asset or liability. Otherwise, amounts deferred in equity are transferred to the profit and loss account and classified as income or expense in the same period during which the hedged firm commitment or forecasted transaction affects the profit and loss account. When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in hedging reserve at that time remains in equity and is recognised when the committed or forecasted transaction ultimately is recognised in the profit and loss account. When a committed or forecasted transaction is no longer expected to occur, the cumulative gain or loss that was reported in hedging reserve is immediately transferred to the profit and loss account.

Certain derivative transactions, while providing effective economic hedges under the Group's risk management policies, do not qualify for hedge accounting under the specific rules in IAS 39. Changes in the fair value of any derivative instruments that do not qualify for hedge accounting under IAS 39 are recognised immediately in the profit and loss account.

Hedges of net investments in foreign entities are accounted for on a similar basis to that used for cash flow hedges. Changes in the fair value of the hedging instrument relating to the effective portion of the hedge is recognised in other comprehensive income and accumulated in equity under the translation reserve; changes in the fair value relating to the ineffective portion is recognised immediately in the profit and loss account.

The fair value of derivative financial instruments is classified as a non-current asset or liability if the remaining maturities of the derivative financial instruments are greater than 12 months.

Notes to the Financial Statements
For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.28 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Board who is responsible for allocating resources and assessing performance of the operating segments.

2.29 Dividends

Interim dividends are recorded during the financial year in which they are declared payable. Final dividends are recorded during the financial year in which the dividends are approved by the shareholders.

2.30 Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.31 Financial Risk Management

i) Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.

The Group co-ordinates, under the directions of the directors, financial risk management policies and their implementation on a group-wide basis. The Group's treasury policies are designed to manage the financial impact of fluctuations in interest rates and exchange rates and to minimise the Group's financial risks. The Group uses derivative financial instruments, principally interest rate swaps, caps and collars, cross-currency swaps, forward foreign exchange contracts and forward currency options as appropriate for hedging transactions and managing the Group's assets and liabilities in accordance with the Group's financial risk management policies. Financial derivative contracts are executed between third party banks and the Group entity that is directly exposed to the risk being hedged. It is the Group's policy not to enter into derivative transactions for speculative purposes. The notional amounts and fair values of derivative financial instruments at 31st December 2016 are disclosed in Note 33.

a) Market risk

Foreign exchange risk

Entities within the Group are exposed to foreign exchange risk from future commercial transactions, net investments in foreign operations and net monetary assets and liabilities that are denominated in a currency that is not the entity's functional currency.

Entities in the Group use cross-currency swaps, forward foreign exchange contracts and foreign currency options in a consistent manner to hedge firm and anticipated foreign exchange commitments and manage their foreign exchange risk arising from future commercial transactions. The Group does not usually hedge its net investments in foreign operations except in circumstances where there is a material exposure arising from a currency that is anticipated to be volatile and the hedging is cost effective. Group entities are required to manage their foreign exchange risk against their functional currency. Foreign currency borrowings are swapped into the entity's functional currency using cross-currency swaps except where the foreign currency borrowings are repaid with cash flows generated in the same foreign currency. The purpose of these hedges is to mitigate the impact of movements in foreign exchange rates on assets and liabilities and the profit and loss account of the Group.

Currency risks as defined by IFRS 7 arise on account of monetary assets and liabilities being denominated in a currency that is not the functional currency. At 31st December 2016, the Group's Indonesian Rupiah functional currency entities had United States Dollar denominated net monetary assets of US$372.1 million (2015: US$276.1 million). At 31st December 2016, if the United States Dollar had strengthened/weakened by 10% against the Indonesian Rupiah with all other variables held constant, the profit attributable to shareholders of the Company would have been US$7.0 million higher/lower (2015: US$4.4 million), arising mainly from foreign exchange gains/losses taken to the profit and loss account on translation. The sensitivity analysis ignores any offsetting foreign exchange factors and has been determined assuming that the change in foreign exchange rates had occurred at the balance sheet date. The stated change represents management's assessment of reasonably possible changes in foreign exchange rates over the period until the next annual balance sheet date. There are no other significant monetary balances held by Group entities at 31st December 2016 that are denominated in a non-functional currency other than the cross currency swap contracts with contract amounts of US$1,604.3 million (2015: US$2,174.1 million). Differences resulting from the translation of financial statements into the Group's presentation currency are not taken into consideration.

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.31 Financial Risk Management (continued)

i) Financial risk factors (continued)

a) Market risk (continued)

Foreign exchange risk (continued)

Since the Group manages the interdependencies between foreign exchange risk and interest rate risk of foreign currency borrowings using cross-currency swaps, the sensitivity analysis on financial impacts arising from cross-currency swaps is included in the sensitivity assessment on interest rates under the interest rate risk section.

Interest rate risk

The Group is exposed to interest rate risk through the impact of rate changes on interest-bearing liabilities and assets. These exposures are managed partly by using natural hedges that arise from offsetting interest rate sensitive assets and liabilities, and partly through fixed rate borrowings and the use of interest rate swaps, caps and collars. The Group monitors interest rate exposure on a monthly basis by currency and business unit, taking into consideration proposed financing and hedging arrangements. The Group's guideline is to maintain 40% - 60% of its gross borrowings, exclusive of the financial services companies, in fixed rate instruments. The financial services companies borrow predominantly at a fixed rate. The interest rate profile of the Group's borrowings after taking into account hedging transactions are set out in Note 24.

Cash flow interest rate risk is the risk that changes in market interest rates will impact cash flows arising from variable rate financial instruments. Borrowings at floating rates therefore expose the Group to cash flow interest rate risk. The Group manages this risk by using forward rate agreements to a maturity of one year, and by entering into interest rate swaps, caps and collars for a maturity of up to five years. Forward rate agreements and interest rate swaps have the economic effect of converting borrowings from floating rate to fixed rate, caps provide protection against a rise in floating rates above a pre-determined rate, and collars combine the purchase of a cap and the sale of a floor to specify a range in which an interest rate will fluctuate.

Fair value interest rate risk is the risk that the value of a financial asset or liability and derivative financial instrument will fluctuate because of changes in market interest rates. The Group may manage its fair value interest rate risk by entering into interest rate swaps which have the economic effect of converting borrowings from fixed rate to floating rate, to maintain the Group's fixed rate instruments within the Group's guideline.

At 31st December 2016, if interest rates had been 100 basis points higher/lower with all other variables held constant, the Group's profit after tax would have been US$15.6 million (2015: US$13.1 million) higher/lower and the hedging reserve would have been US$17.7 million (2015: US$21.3 million) higher/lower as a result of fair value changes to cash flow hedges. The sensitivity analysis has been determined assuming that the change in interest rates had occurred at the balance sheet date and had been applied to the exposure to interest rate risk for both derivative and non-derivative financial instruments in existence at that date. There is no significant variation in the sensitivity analysis as a result of interest rate caps and collars. The 100 basis point increase or decrease represents management's assessment of a reasonable possible change in those interest rates, specifically the Indonesian rates, which have the most impact on the Group over the period until the next annual balance sheet date. In the case of effective fair value hedges, changes in fair value of the hedged items caused by interest rate movements balance out in the profit and loss account against changes in the fair value of the hedging instruments. Changes in market interest rates affect the interest income or expense of non-derivative variable-interest financial instruments, the interest payments of which are not designated as hedged items of cash flow hedges against interest rate risks. As a consequence, they are included in the calculation of profit after tax sensitivities. Changes in market interest rates of financial instruments that were designated as hedging instruments in a cash flow hedge to hedge payment fluctuations resulting from interest rate movements affect the hedging reserves and are therefore taken into consideration in the equity-related sensitivity calculations.

Jardine Cycle & Carriage Limited | Annual Report 2016

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.31 Financial Risk Management (continued)

i) Financial risk factors (continued)

a) Market risk (continued)

Price risk

The Group is exposed to securities price risk because of quoted and unquoted investments which are available-for-sale and held by the Group at fair value. Gains and losses arising from changes in the fair value of these investments are recognised in other comprehensive income and accumulated under equity in the fair value reserve. The performance of the Group's quoted and unquoted available-for-sale investments are monitored regularly, together with a regular assessment of their relevance to the Group's long-term strategic plans. Details of the Group's available-for-sale investments are contained in Note 17.

Available-for-sale investments are unhedged. At 31st December 2016, if the price of quoted and unquoted available-for-sale investments had been 30% higher/lower with all other variables held constant, total equity would have been US$150.2 million (2015: US$117.8 million) higher/lower. The sensitivity analysis has been determined based on a reasonable expectation of possible valuation volatility over the next 12 months.

The Group is exposed to financial risks arising from changes in commodity prices, primarily crude palm oil and coal. The Group considers the outlook for crude palm oil and coal regularly in considering the need for active financial risk management. The Group's policy is generally not to hedge commodity price risk, although limited hedging may be undertaken for strategic reasons. To mitigate or hedge the price risk, Group companies may enter into a forward contract to buy the commodity at a fixed price at a future date, or a forward contract to sell the commodity at a fixed price at a future date.

b) Credit risk

The Group's credit risk is primarily attributable to deposits with banks, credit exposures to customers and derivative financial instruments with a positive fair value. The Group has credit policies in place and the exposures to these credit risks are monitored on an ongoing basis.

The Group manages its deposits with banks and financial institutions and transactions involving derivative financial instruments by monitoring credit ratings and capital adequacy ratios of counterparties, limiting the aggregate risk to any individual counterparty. The utilisation of credit limits is regularly monitored. At 31st December 2016, deposits with banks and financial institutions amounted to US$2,457.7 million (2015: US$2,169.1 million) of which 24% (2015: 14%) were made to financial institutions with credit ratings of no less than A– (Fitch). This is because in Indonesia, it may be necessary to deposit money with banks that have a lower credit rating. However, the Group only enters into derivative transactions with counterparties which have credit ratings of at least investment grade. Management does not expect any counterparty to fail to meet its obligations.

In respect of credit exposures to customers, the Group has policies in place to ensure that sales on credit without collateral are made principally to corporate companies with an appropriate credit history and credit insurance is purchased for businesses where it is economically effective. The Group normally obtains collateral over motor vehicles and motorcycles from consumer financing debtors towards settlement of receivables. Customers give the right to the Group to sell the repossessed collateral or take any other action to settle the outstanding receivable. Sales to other customers are made in cash or by major credit cards.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the balance sheet after deducting any impairment allowance. The Group's exposure to credit risk arising from consumer financing and trade debtors, and derivative financial instruments with a positive fair value are set out in Note 20. The Group's exposure to credit risk arising from deposits and balances with banks and financial institutions is set out in Note 21.

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.31 Financial Risk Management (continued)

i) Financial risk factors (continued)

c) Liquidity risk

Prudent liquidity risk management includes managing the profile of debt maturities and funding sources, maintaining sufficient cash and marketable securities, and ensuring the availability of funding from an adequate amount of committed credit facilities and the ability to close out market positions. The Group's ability to fund its existing and prospective debt requirements is managed by maintaining diversified funding sources with adequate committed funding lines of evenly spread debt maturities from high quality lenders, and by monitoring rolling short-term forecasts of the Group's cash and gross debt on the basis of expected cash flows. In addition, long-term cash flows are projected to assist with the Group's long-term debt financing plans.

At 31st December 2016, total available committed and uncommitted borrowing facilities amounted to US$8,274.4 million (2015: US$8,521.5 million) of which US$5,310.6 million (2015: US$5,151.9 million) was drawn down. Undrawn committed facilities, in the form of revolving credit and term loan facilities, totalled US$1,546.0 million (2015: US$1,876.4 million).

The following table analyses the Group's non-derivative financial liabilities, derivative financial liabilities and estimated losses on insurance contracts into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity dates. Derivative financial liabilities are included in the analysis if their contractual maturities are essential for an understanding of the timing of the cash flows. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Within one year US$m	Between one and two years US$m	Between two and three years US$m	Between three and four years US$m	Between four and five years US$m	Beyond five years US$m	Total US$m

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.31 Financial Risk Management (continued)

ii) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern while seeking to maximise benefits to shareholders and other stakeholders. Capital is total equity as shown in the consolidated balance sheet plus net debt.

The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group and capital efficiency, prevailing and projected profitability, projected operating cash flows, projected capital expenditure and projected strategic investment opportunities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, purchase Group shares, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group monitors capital on the basis of the Group's consolidated gearing ratio and consolidated interest cover. The gearing ratio is calculated as net debt divided by total equity. Net debt is calculated as total borrowings less bank balances and other liquid funds. Interest cover is calculated as underlying operating profit and share of results of associates and joint ventures divided by net financing charges. The relevant ratios are monitored both inclusive and exclusive of the Group's financial services companies, which by their nature are generally more leveraged than the Group's other businesses. The Group does not have a defined gearing or interest cover benchmark or range.

The financing activities of Astra are subject to a minimum paid-up capital requirement of Rp1,400 billion (2015: Rp1,300 billion), in aggregate. The insurance activities of Astra are subject to a minimum solvency ratio of 120% calculated in accordance with requirements set out by the Ministry of Finance in Indonesia, and a minimum paid-up capital requirement of Rp100 billion (2015: Rp100 billion), in aggregate. The Group had complied with all externally imposed capital requirements throughout the reporting period.

The gearing ratios at 31st December 2016 and 2015 were as follows:

	Group	
	2016	2015
Gearing ratio excluding financial services companies	**-**	-
Gearing ratio including financial services companies	**24%**	28%
Interest cover excluding financial services companies	**29 times**	30 times
Interest cover including financial services companies	**47 times**	77 times

The Group did not have gearing ratios excluding financial services companies at 31st December 2016 and 2015 as it was in a net cash position.

iii) Fair value estimation

a) Financial instruments that are measured at fair value

For financial instruments that are measured at fair value in the balance sheet, the corresponding fair value measurements are disclosed by level of the following fair value measurement hierarchy:

Quoted prices (unadjusted) in active markets for identical assets or liabilities ("quoted prices in active markets")

The fair value of quoted securities, which are classified as available-for-sale, is based on quoted prices in active markets at the balance sheet date. The quoted market price used for listed investments held by the Group is the current bid price.

Inputs other than quoted prices in active markets that are observable for the asset or liability, either directly or indirectly ("observable current market transactions")

The fair value of derivative financial instruments is determined using rates quoted by the Group's bankers at the balance sheet date. The rates for interest rate swaps and caps, cross-currency swaps and forward foreign exchange contracts are calculated by reference to the market interest rates and foreign exchange rates.

Notes to the Financial Statements

For the year ended 31st December 2016

2 **Significant Accounting Policies (continued)**

2.31 Financial Risk Management (continued)

iii) Fair value estimation (continued)

a) Financial instruments that are measured at fair value (continued)

Inputs for the asset or liability that are not based on observable market data ("unobservable inputs")

The fair value of unlisted securities, which are classified as available-for-sale, is determined using valuation techniques by reference to observable current market transactions or the market prices of the underlying investments with certain degree of entity-specific estimates. There were no changes in valuation techniques during the year.

The table below analyses financial instruments carried at fair value, by the levels in the fair value measurement hierarchy.

	Quoted prices in active markets US$m	Observable current market transactions US$m	Unobservable inputs US$m	Total US$m
2016				
Assets				
Available-for-sale financial assets

Notes to the Financial Statements

For the year ended 31st December 2016

2 **Significant Accounting Policies (continued)**

2.31 Financial Risk Management (continued)

iii) Fair value estimation (continued)

b) Financial instruments that are not measured at fair value

The fair values of current debtors, bank balances and other liquid funds, current creditors and current borrowings are assumed to approximate their carrying amounts due to the short-term maturities of these assets and liabilities.

The fair values of long-term borrowings disclosed are based on market prices or are estimated using the expected future payments discounted at market interest rates.

The table below analyses financial instruments by category.

	Loans and receivables US$m	Derivatives used for hedging US$m	Available-for-sale US$m	Other financial instruments at amortised cost US$m	Other financial instruments fair value through profit and loss US$m	Total carrying amount US$m	Fair value US$m

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.32 Critical Accounting Estimates and Judgements

Estimates and judgements used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant effect on the carrying amounts of assets and liabilities are discussed below.

i) Acquisition of subsidiaries, associates and joint ventures

The initial accounting on the acquisition of subsidiaries, associates and joint ventures involves identifying and determining the fair values to be assigned to the identifiable assets, liabilities and contingent liabilities of the acquired entities. The fair values of franchise rights, leasehold land use rights, concession rights, property, plant and equipment and investment properties are determined by independent, professionally qualified valuers by reference to comparable market prices or present value of expected net cash flows from the assets. Any changes in the assumptions used and estimates made in determining the fair values, and management's ability to measure reliably the contingent liabilities of the acquired entity will impact the carrying amount of these assets and liabilities.

On initial acquisition or acquisition of further interests in an entity, an assessment of the level of control or influence exercised by the Group is required. For entities where the Group has a shareholding of less than 50%, an assessment of the Group's level of voting rights, board representation and other indicators of influence is performed to consider whether the Group has de facto control, requiring consolidation of that entity, or significant influence, requiring classification as an associate.

ii) Property, plant and equipment

Management determines the estimated useful lives and related depreciation charges for the Group's mining properties and other property, plant and equipment. Management will revise the depreciation charge where useful lives are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned.

iii) Impairment of assets

The Group tests annually whether goodwill and other non-financial assets that have indefinite useful lives have suffered any impairment. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset exceeds its recoverable amount. The recoverable amount of an asset or a cash generating unit is determined based on the higher of fair value less costs to sell or value-in-use calculations prepared on the basis of management's assumptions and estimates. Changing the key assumptions, including the amount of estimated coal reserves, discount rates or growth rates in the cash flow projections, could materially affect the value-in-use calculations.

The results of the impairment review undertaken at 31st December 2016 on the Group's indefinite life franchise rights indicated that no impairment charge was necessary. If there is a significant increase in the discount rate and/or a significant adverse change to the projected performance of the business to which these rights attach, it may be necessary to take an impairment charge to the profit and loss account in the future.

In determining when an available-for-sale equity investment is impaired, significant judgement is required. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost; and the financial health of and near-term business outlook for the investee, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

Notes to the Financial Statements

For the year ended 31st December 2016

2 Significant Accounting Policies (continued)

2.32 Critical Accounting Estimates and Judgements (continued)

iv) Income taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required in determining the provision for income taxes, particularly in Indonesia. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred tax follows the way management expects to recover or settle the carrying amount of the related assets or liabilities, which management may expect to recover through use, sale or combination of both. Accordingly, deferred tax will be calculated at income tax rate, capital gains tax rate or combination of both. There is a rebuttable presumption in IFRS that investment properties measured at fair value are recovered by sale. Thus, deferred tax on revaluation of investment properties held by the Group are calculated at the capital gains tax rate.

Recognition of deferred tax assets, which principally relate to tax losses, depends on management's expectation of future taxable profit that will be available against which the tax losses can be utilised. The outcome of their actual utilisation may be different.

v) Pension obligations

The present value of the pension obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost/income for pensions include the discount rate. Any changes in these assumptions will impact the carrying amount of pension obligations.

The Group determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the interest rates of high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liabilities.

Other key assumptions for pension obligations are based in part on current market conditions.

vi) Non-trading items

The Group uses underlying business performance in its internal financial reporting to distinguish between the underlying profits and non-trading items. The identification of non-trading items requires judgement by management, but follows the consistent methodology as set out in the Group's accounting policies.

Notes to the Financial Statements
For the year ended 31st December 2016

7 Tax
Tax expense attributable to profit is made up of:

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
Current tax:				
- Singapore	**17.8**	15.4	**0.2**	0.1
- Foreign	**395.8**	434.2	**28.5**	34.8
	413.6	449.6	**28.7**	34.9
Deferred tax (Note 25)	**(83.0)**	(111.8)	**-**	(1.6)
	330.6	337.8	**28.7**	33.3
Adjustments in respect of prior years	**12.4**	0.4	**-**	-
	343.0	338.2	**28.7**	33.3

The following sets out the differences between the tax expense on the Group's and the Company's profit before tax and the theoretical amount that would arise using the domestic tax rates applicable to profits of the respective companies.

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
Profit before tax	**1,840.5**	1,624.7	**324.8**	461.6
Less: Share of associates' and joint ventures' results after tax	**(379.9)**	(471.1)	**-**	-
	1,460.6	1,153.6	**324.8**	461.6
Tax calculated at domestic tax rates applicable to profits in the respective countries	**353.8**	276.5	**35.8**	54.8
Income not subject to tax	**(41.9)**	(43.7)	**(11.1)**	(23.9)
Expenses not deductible for tax purposes	**55.3**	40.7	**4.0**	4.0
Utilisation of previously unrecognised tax losses	**(10.7)**	(1.8)	**-**	-
Recognition of previously unrecognised tax losses	**(0.9)**	-	**-**	-
Deferred tax assets written off	**-**	0.2	**-**	-
Tax losses arising in the year not recognised	**14.0**	38.7	**-**	-
Temporary differences arising in the year not recognised	**0.3**	0.3	**-**	-
Withholding tax	**29.6**	29.0	**-**	(1.1)
Adjustments in respect of prior years	**12.4**	0.4	**-**	-
Recognition of tax assets revaluation incentive in Indonesia	**(68.3)**	-	**-**	-
Others	**(0.6)**	(2.1)	**-**	(0.5)
	343.0	338.2	**28.7**	33.3

The effective tax rates for the Group and Company were 23% (2015: 29%) and 9% (2015: 7%), respectively.

Tax relating to components of other comprehensive income is analysed as follows:

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
Revaluation of available-for-sale investments	**0.3**	0.1	**-**	-
Cash flow hedges	**8.1**	(11.3)	**-**	-
Defined benefit pension plans	**(8.2)**	1.3	**-**	-
	0.2	(9.9)	**-**	-

Notes to the Financial Statements
For the year ended 31st December 2016

8 Dividends
At the Annual General Meeting on 28th April 2017, a final one-tier tax exempt dividend in respect of 2016 of US¢56 per share amounting to a dividend of approximately US$221.3 million is to be proposed. These financial statements do not reflect this dividend payable, which will be accounted for in shareholders' equity as an appropriation of retained earnings in the year ending 31st December 2017. The dividends paid in 2016 and 2015 were as follows:

	Group and Company	
	2016 US$m	2015 US$m
Final one-tier tax exempt dividend in respect of previous year of US¢51 per share (2015: in respect of 2014 of US¢67)	**200.0**	232.6
Interim one-tier tax exempt dividend in respect of current year of US¢18 per share (2015: US¢18)	**70.1**	73.3
	270.1	305.9

9 Earnings Per Share

	Group	
	2016 US$m	2015 US$m
Basic and diluted earnings per share		
Profit attributable to shareholders	**701.7**	690.8
Weighted average number of ordinary shares in issue (millions)	**395.2**	378.1
Basic earnings per share	**US¢178**	US¢183
Diluted earnings per share	**US¢178**	US¢183
Basic and diluted underlying earnings per share		
Underlying profit attributable to shareholders	**679.1**	631.8
Basic underlying earnings per share	**US¢172**	US¢167
Diluted underlying earnings per share	**US¢172**	US¢167

As at 31st December 2015 and 2016, there were no dilutive potential ordinary shares in issue.

A reconciliation of profit attributable to shareholders and underlying profit attributable to shareholders is as follows:

	Group	
	2016 US$m	2015 US$m
Profit attributable to shareholders	**701.7**	690.8
Less:		
Non-trading items (net of tax and non-controlling interests)		
Gain on disposal of property	**16.0**	-
Fair value changes of agricultural produce	**6.6**	-
Fair value changes of investment properties	**4.3**	17.3
Reversal of impairment charge on associate	**-**	42.5
Gain on disposal of associate	**-**	0.8
Loss on dilution of interest in an associate	**(4.3)**	(1.6)
	22.6	59.0
Underlying profit attributable to shareholders	**679.1**	631.8

Goodwill relating to Astra represents goodwill arising from acquisition of shares in Astra which is regarded as an operating segment. Accordingly, for the purpose of impairment review, the carrying value of Astra is compared with the recoverable amount measured by reference to the quoted market price of the shares held. On the basis of this review and the continued expected level of profitability, management concluded that no impairment has occurred.

Notes to the Financial Statements
For the year ended 31st December 2016

10 Intangible Assets (continued)

The carrying amounts of franchise rights comprise mainly Astra's automotive of US$56.8 million (2015: US$55.3 million) and heavy equipment of US$100.5 million (2015: US$97.9 million). Management has performed an impairment review of the carrying amounts of franchise rights at 31st December 2016 and concluded that no impairment has occurred. The impairment review of franchise rights was made by comparing the carrying amounts of the cash-generating units in which the franchise rights reside with the recoverable amounts of the cash-generating units. The recoverable amounts of the cash-generating units are determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a three-year period. Cash flows beyond the three-year period are extrapolated using the estimates stated below:

	2016	2015
Growth rates	**3% - 4%**	3% - 4%
Pre-tax discount rates	**14% - 16%**	14% - 17%

The growth rates do not exceed the long-term average growth rates of the industries. The pre-tax discount rates reflect business specific risks relating to the relevant industries.

The remaining amortisation lives for intangible assets are as follows:

Concession rights	Traffic volume over 29 to 31 years
Customer acquisition costs	1 to 5 years
Computer software and others	1 to 8 years
Deferred exploration costs	146.1 million tonnes (based on unit of production method)

11 Leasehold Land Use Rights

	Group	
	2016 US$m	2015 US$m

Property, plant and equipment at 31st December 2016 with a net book value of US$7.3 million (2015: US$56.0 million) have been pledged as security for borrowings (Note 24).

Included in the additions are property, plant and equipment acquired under finance leases amounting to US$1.7 million (2015: US$0.4 million).

The carrying amount of plant and machinery and motor vehicles held under finance leases at 31st December 2016 amounted to US$13.7 million and US$44.0 million (2015: US$41.0 million and US$45.3 million), respectively.

Notes to the Financial Statements

For the year ended 31st December 2016

12 Property, Plant and Equipment (continued)

In 2015, as a result of the decline in coal prices as well as the subdued outlook, management has performed an impairment review of the carrying amount of the mining properties and other assets, and concluded that an impairment has occurred. An impairment loss of US$370.0 million had been included in net operating costs, under the operating segment of Astra. In 2016, no further impairment was recognised in view of the increase in coal price over the year, while management assumptions about the long-term price trend remain largely unchanged.

The impairment review was performed by comparing the carrying amount of the cash-generating units of the mining properties with the recoverable amount. The cash-generating unit is determined based on the location of the mining properties and the extent that they share infrastructure. The recoverable amount of US$337.2 million, net of deferred tax, is determined based on its fair value less costs to sell, using a discounted cash flow method with unobservable inputs. Major assumptions used in the valuation are:

	2015
Coal price per tonne	US$52 - US$72
Post-tax discount rate	12.8%

The periods used in the cash flow forecasts are based on the depletion of reserves or the expiration of the concession period, whichever is earlier.

Transfer to completed commercial properties	**(0.2)**	(0.3)
Balance at 31st December	**215.1**	109.4
Total	**460.2**	253.2

The valuations of the investment properties were conducted by independent, professionally qualified valuers, based on the open market value. Fair values of these properties are generally derived based on the direct comparison method, using observable recent market transactions. This valuation method is based on comparing the property to be valued directly with other comparable properties. However, appropriate adjustments are usually required to allow for any qualitative differences that may affect the price likely to be achieved by the property under consideration.

The Group's policy is to recognise transfers between the levels in the fair value measurement hierarchy as of the date of the event or change in circumstances that caused the transfer.

The Group's investment properties have not been pledged as security for borrowings at 31st December 2015 and 2016.

Jardine Cycle & Carriage Limited | Annual Report 2016

Notes to the Financial Statements
For the year ended 31st December 2016

14 Bearer Plants

The Group's bearer plants are primarily for the production of palm oil.

	496.8	484.7

The Group's bearer plants have not been pledged as security for borrowings at 31st December 2015 and 2016.

15 Interests in Subsidiaries

	Company	
	2016 US$m	2015 US$m
At cost:		
- quoted equity securities (market value: 2016: US$12,535.0 million; 2015: US$8,871.0 million)	**1,190.1**	1,215.8
- unquoted equity securities	**39.3**	40.1
	1,229.4	1,255.9
Less: Impairment	**(2.8)**	(2.9)
	1,226.6	1,253.0

A list of principal subsidiaries is set out in Note 41.

Notes to the Financial Statements

For the year ended 31st December 2016

16 Interests in Associates and Joint Ventures

The amounts recognised in the balance sheet are as follows:

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
At cost:				
- quoted equity securities (Group market value: 2016: US$1,162.6 million; 2015: US$1,048.9 million)	**1,324.0**	1,083.8	**636.5**	647.4
- unquoted equity securities	**693.5**	562.7	**140.2**	139.6
	2,017.5	1,646.5	**776.7**	787.0
Post-acquisition reserves	**1,744.9**	1,639.1	**-**	-
	3,762.4	3,285.6	**776.7**	787.0
Less: Impairment	**(23.9)**	(23.9)	**-**	-
	3,738.5	3,261.7	**776.7**	787.0
Associates	**1,447.3**	1,307.8	**725.7**	741.2
Joint ventures	**2,291.2**	1,953.9	**51.0**	45.8
	3,738.5	3,261.7	**776.7**	787.0

The market value of quoted equity securities is based on their quoted prices. In determining whether these investments are impaired, management has also considered recent arm's length transactions of a similar nature.

Movements of the Group's associates and joint ventures during the year are as follows:

	Associates		Joint ventures	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
Balance at 1st January	**1,307.8**	539.4	**1,953.9**	2,085.0
Translation differences	**11.2**	(111.8)	**48.3**	(201.3)
Share of results after tax and non-controlling interests	**220.6**	243.6	**159.3**	227.5
Share of other comprehensive income/(expense) after tax and non-controlling interests	**(1.9)**	(1.2)	**(2.4)**	3.9
Dividends received	**(119.9)**	(115.7)	**(211.7)**	(203.2)
Acquisitions and increases in attributable interests	**33.2**	743.9	**338.6**	32.8
Disposals and decreases in attributable interests	**(3.7)**	0.9	**-**	(1.4)
Other	**-**	8.7	**5.2**	10.6
Balance at 31st December	**1,447.3**	1,307.8	**2,291.2**	1,953.9

In 2015, the share of results of associates and joint ventures amounting to US$471.1 million included an amount of US$42.5 million for the reversal of impairment charge.

(a) Investment in associates

The material associates of the Group are Siam City Cement Public Company Limited ("SCCC") and PT Astra Daihatsu Motor. These associates have share capital consisting solely of ordinary shares. The Company has a 24.9% interest in SCCC and the Group's subsidiary, Astra has a 31.9% interest in PT Astra Daihatsu Motor. SCCC is a cement manufacturer in Thailand and PT Astra Daihatsu Motor is principally involved in the manufacturing and distribution of Daihatsu motor vehicles in Indonesia.

As at 31st December 2016, the fair value of the Group's interest in SCCC, which is listed on the Stock Exchange of Thailand, was US$435.0 million (2015: US$514.0 million).

The information above reflects the amounts presented in the financial statements of the associates, adjusted for differences in accounting policies between the Group and the associates, and fair value of the associates at the time of acquisition. For associates acquired during 2016, the fair value of the identifiable assets and liabilities at the acquisition date is provisional and will be finalised within one year after the acquisition date.

Jardine Cycle & Carriage Limited | Annual Report 2016

Notes to the Financial Statements
For the year ended 31st December 2016

16 Interests in Associates and Joint Ventures (continued)

(a) Investment in associates (continued)

Reconciliation of the summarised financial information presented to the carrying amount of the Group's interest in the material associates is set out below.

	SCCC US$m	PT Astra Daihatsu Motor US$m	Total US$m
2016			
Net assets	**885.7**	**993.0**	**1,878.7**
Interest in associate (%)	**24.9%**	**31.9%**	
Group's share of net assets in associates	**220.5**	**316.5**	**537.0**
Goodwill	**345.5**	**-**	**345.5**
Carrying value	**566.0**	**316.5**	**882.5**
2015			
Net assets	887.7	937.4	1,825.1
Interest in associate (%)	24.9%	31.9%	
Group's share of net assets in associates	221.0	298.7	519.7
Goodwill	342.6	-	342.6
Carrying value	563.6	298.7	862.3

The Group has interests in a number of individually immaterial associates. The following table analyses, in aggregate, the share of profit and other comprehensive income and carrying amount of these associates.

	2016 US$m	2015 US$m
Share of profit	**111.4**	140.8
Share of other comprehensive income/(expense)	**0.5**	(0.7)
Share of total comprehensive income	**111.9**	140.1
Carrying amount of interests in these associates	**564.9**	445.5

(b) Investment in joint ventures

The material joint ventures of the Group are PT Astra Honda Motor and PT Bank Permata Tbk. These joint ventures have share capital consisting solely of ordinary shares, which are held by the Group's subsidiary, Astra. Astra has a 50.0% interest in PT Astra Honda Motor and a 44.6% interest in PT Bank Permata Tbk. PT Astra Honda Motor is principally involved in the manufacturing and distribution of Honda motorcycles in Indonesia, while PT Bank Permata Tbk is a commercial bank with operations in Indonesia.

As at 31st December 2016, the fair value of the Group's interest in PT Bank Permata Tbk, which is listed on the Indonesia Stock Exchange, was US$411.2 million (2015: US$362.8 million).

Notes to the Financial Statements
For the year ended 31st December 2016

16 Interests in Associates and Joint Ventures (continued)

(b) Investment in joint ventures (continued)

Summarised statement of comprehensive income for the year ended 31st December:

	PT Astra Honda Motor US$m	PT Bank Permata Tbk US$m	Total US$m
2016			
Revenue	**4,559.9**	**1,226.2**	**5,786.1**
Depreciation and amortisation	**(133.6)**	**(18.7)**	**(152.3)**
Financing income	**23.9**	**-**	**23.9**
Tax	**(124.8)**	**161.5**	**36.7**
Profit/(loss) after tax	**455.3**	**(499.4)**	**(44.1)**
Other comprehensive income/(expense)	**3.0**	**(6.4)**	**(3.4)**
Total comprehensive income	**458.3**	**(505.8)**	**(47.5)**
Dividends received from joint ventures	**131.1**	**-**	**131.1**
2015			
Revenue	4,256.7	1,331.7	5,588.4
Depreciation and amortisation	(105.5)	(19.0)	(124.5)
Financing income	20.2	-	20.2
Tax	(103.6)	(3.5)	(107.1)
Profit/(loss) after tax	321.0	(18.5)	302.5
Other comprehensive income/(expense)	(2.4)	(3.5)	(5.9)
Total comprehensive income	318.6	(22.0)	296.6
Dividends received from joint ventures	122.7	5.5	128.2

The information above reflects the amounts presented in the financial statements of the joint ventures, adjusted for fair value adjustments made at time of acquisition and differences in accounting policies between the Group and the joint ventures. There are no contingent liabilities relating to the Group's interest in the joint ventures.

Notes to the Financial Statements
For the year ended 31st December 2016

16 Interests in Associates and Joint Ventures (continued)

(b) Investment in joint ventures (continued)

Reconciliation of the summarised financial information presented to the carrying amount of the Group's interest in the material joint ventures is set out below.

	PT Astra Honda Motor US$m	PT Bank Permata Tbk US$m	Total US$m
2016			
Net assets	**1,406.3**	**1,381.7**	**2,788.0**
Interest in joint ventures (%)	**50.0%**	**44.6%**	
Group's share of net assets in joint ventures	**703.1**	**617.5**	**1,320.6**
Goodwill	**-**	**36.7**	**36.7**
Carrying value	**703.1**	**654.2**	**1,357.3**
2015			
Net assets	1,180.2	1,302.8	2,483.0
Interest in joint ventures (%)	50.0%	44.6%	
Group's share of net assets in joint ventures	590.1	580.6	1,170.7
Goodwill	-	35.7	35.7
Carrying value	590.1	616.3	1,206.4

The Group has interests in a number of individually immaterial joint ventures. The following table analyses, in aggregate, the share of profit and other comprehensive income and carrying amount of these joint ventures.

	2016 US$m	2015 US$m
Share of profit	**154.2**	75.3
Share of other comprehensive income/(expense)	**(2.8)**	6.6
Share of total comprehensive income	**151.4**	81.9
Carrying amount of interests in these joint ventures	**933.8**	747.5

A list of the Group's principal associates and joint ventures is set out in Note 41.

	398.2	542.5	**347.1**	475.1

The consumer financing debtors relate primarily to Astra's motor vehicle and motorcycle financing. Before accepting any new customer, the Group assesses the potential customer's credit quality and sets credit limits by customer using internal scoring systems. These limits and scoring are reviewed periodically. The Group obtains collateral in the form of motor vehicles and motorcycles from consumer financing debtors who give the Group the right to sell the repossessed collateral or take any other action to settle the outstanding debt.

The loan period ranges from 6 to 60 months for motor vehicles and motorcycles. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payment are considered indicators that the debtor is impaired. An allowance for impairment is made based on the estimated irrecoverable amount by reference to past default experience. The Group has the right to repossess the assets whenever its customers default on their instalment obligations. It usually exercises its right if monthly instalments are overdue for 30 days for motor vehicles and 60 days for motorcycles. Management has considered the balances against which collective impairment provision is made as impaired.

At 31st December 2016, consumer financing debtors of US$44.3 million (2015: US$31.9 million) and financing leases of US$15.8 million (2015: US$18.4 million) were impaired. The impaired amounts were covered by allowances of impairment of these debtors which are assessed collectively.

Jardine Cycle & Carriage Limited | Annual Report 2016

Notes to the Financial Statements

For the year ended 31st December 2016

19 Financing Debtors (continued)

At 31st December 2016, consumer financing debtors of US$384.8 million (2015: US$349.8 million) and financing leases of US$90.1 million (2015: US$135.5 million) were past due but not impaired. The ageing analysis of these debtors is as follows:

	Consumer financing debtors		Financing leases	
	2016 US$m	2015 US$m	2016 US$m	2015 US$m
Below 30 days	**311.3**	283.2	**61.5**	86.5
Between 31 and 60 days	**61.4**	55.5	**20.6**	37.6
Between 61 and 90 days	**12.1**	11.1	**8.0**	6.7
More than 90 days	**-**	-	**-**	4.7
	384.8	349.8	**90.1**	135.5

The fair value of the financing debtors is US$4,779.1 million (2015: US$4,303.3 million). The fair value of financing debtors are determined based on a discounted cash flow method using unobservable inputs, which are mainly rates of 6% to 34% per annum (2015: 6% to 33% per annum). The higher the rates, the lower the fair value.

Financing debtors are due within five years (2015: five years) from the balance sheet date and the interest rates range from 6% to 34% per annum (2015: 6% to 33% per annum).

Financing debtors amounting to US$1,868.3 million at 31st December 2016 (2015: US$1,836.5 million) have been pledged as security for borrowings (Note 24).

Movements in the allowance for impairment of financing debtors are as follows:

	2016 US$m	2015 US$m
Balance at 1st January	**196.9**	231.2
Translation adjustments	**3.8**	(22.2)
Allowance made during the year (Note 4)	**101.3**	91.6
Utilised during the year	**(105.9)**	(103.7)
Balance at 31st December	**196.1**	196.9

	7,328.3	6,871.0	**42.8**	44.8

Notes to the Financial Statements

For the year ended 31st December 2016

20 Debtors (continued)

The average credit period on sale of goods and services varies among Group businesses, but is not more than 60 days. Before accepting any new customer, the individual Group business assesses the potential customer's credit quality and sets credit limits by customer using internal credit scoring systems. These limits and scoring are reviewed periodically. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payment are considered indicators that the debtor is impaired and an allowance for impairment is made based on the estimated irrecoverable amount determined by reference to past default experience.

At 31st December 2016, trade and other debtors of the Group and the Company of US$61.7 million (2015: US$85.1 million) and US$19.9 million (2015: US$20.3 million), respectively, were impaired. The amount of the allowances for the Group and the Company was US$38.8 million (2015: US$46.6 million) and US$19.9 million (2015: US$20.3 million), respectively. It was assessed that a portion of the debtors is expected to be recovered.

At 31st December 2016, trade and other debtors of the Group of US$527.9 million (2015: US$536.8 million) were past due but not impaired. The ageing analysis of these debtors is as follows:

	Group	
	2016 US$m	2015 US$m
Below 30 days	**247.1**	274.8
Between 31 and 60 days	**79.1**	91.4
Between 61 and 90 days	**39.2**	51.6
Over 90 days	**162.5**	119.0
	527.9	536.8

The risk of debtors that are neither past due nor impaired as at 31st December 2016 becoming impaired is low as they have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

Movements in the allowance for impairment of trade debtors are as follows:

	Group	
	2016 US$m	2015 US$m
Balance at 1st January	**45.6**	37.5
Translation adjustments	**1.2**	(3.8)
Allowance/(write-back) made during the year (Note 4)	**(6.8)**	14.1
Utilised during the year	**(2.5)**	(2.2)
Balance at 31st December	**37.5**	45.6

Notes to the Financial Statements
For the year ended 31st December 2016

20 Debtors (continued)

Movements in the allowance for impairment of other debtors are as follows:

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
Balance at 1st January	**1.0**	1.1	**20.3**	21.8
Translation adjustments	**-**	(0.1)	**(0.4)**	(1.5)
Allowance made during the year (Note 4)	**0.4**	0.2	**-**	-
Utilised during the year	**(0.1)**	(0.2)	**-**	-
Balance at 31st December	**1.3**	1.0	**19.9**	20.3

The fair value of the non-current debtors are determined based on a discounted cash flow method using unobservable inputs, which are mainly rates of 9% to 14% per annum (2015: 14% to 15% per annum). The higher the rates, the lower the fair value. The fair value of the repossessed assets held amounted to US$24.9 million (2015: US$26.0 million).

Trade and other debtors of the Group amounting to US$9.1 million at 31st December 2016 (2015: US$6.5 million) have been pledged as security for borrowings (Note 24).

The amounts owing by subsidiaries, associates and joint ventures are interest free except for amounts owing by associates and joint ventures amounting to US$35.0 million (2015: US$92.5 million) which bear weighted average interest rate of 5% (2015: 7.4%) per annum.

21 Bank Balances and Other Liquid Funds

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m

			3,732.8	1,419.1	5,151.9

Notes to the Financial Statements

For the year ended 31st December 2016

24 Borrowings (continued)

The fair values of current borrowings approximate their carrying amounts, as the impact of discounting is not significant. The fair values of the non-current borrowings at the end of the year are as follows:

	Group	
	2016 US$m	2015 US$m
Bank loans	**750.2**	1,331.9
Bonds and others	**1,130.4**	1,167.0
	1,880.6	2,498.9

The fair values are based on market prices, or are estimated using the expected future payments discounted at market interest rates ranging from 6.50% to 12.00% per annum (2015: 7.50% to 11.25% per annum). This is in line with the definition of "observable current market transactions" under the fair value measurement hierarchy.

At 31st December 2016, bank loans and bonds amounting to US$3,201.4 million (2015: US$3,129.2 million) have been collateralised by debtors, stocks, financing debtors, property, plant and equipment and leasehold land use rights.

	Maturity	Interest rates	Nominal values

Notes to the Financial Statements

For the year ended 31st December 2016

25 Deferred Tax (continued)

Deferred tax balances predominantly comprise non-current items. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred income taxes relate to the same fiscal authority. The following amounts, determined after appropriate offsetting, are shown in the balance sheets:

	Group		Company	
	2016 US$m	2015 US$m	**2016 US$m**	2015 US$m
Deferred tax assets	**291.2**	220.0	**-**	-
Deferred tax liabilities	**(188.0)**	(201.2)	**(5.6)**	(5.7)
Balance at 31st December	**103.2**	18.8	**(5.6)**	(5.7)

Deferred tax assets are recognised for tax losses carried forward to the extent that realisation of the related tax benefits through future taxable profits is probable. The Group did not recognise deferred income tax assets of US$59.8 million (2015: US$66.0 million) in respect of tax losses of US$234.4 million in 2016 (2015: US$264.1 million) which can be carried forward and used to offset against future taxable income subject to meeting certain statutory requirements by those companies with unrecognised tax losses in their respective countries of incorporation. These tax losses have expiry dates as follows:

	Group	
	2016 US$m	2015 US$m
No expiry date	**1.4**	1.5
Expiring in one year	**13.5**	6.9
Expiring in two years	**18.7**	21.5
Expiring in three years	**44.6**	41.6
Expiring in four years	**66.7**	41.5
Expiring beyond four years	**89.5**	151.1
	234.4	264.1

Deferred tax liabilities of US$463.0 million (2015: US$447.6 million) on temporary differences associated with investments in subsidiaries of US$4,630.1 million (2015: US$4,476.3 million) have not been recognised as there is no intention of remitting the retained earnings to the Company in the foreseeable future.

26 Pension Liabilities

The Group, through Astra, has defined benefit pension plans covering its employees in Indonesia and are either funded or unfunded. The assets of the funded plans are held independently of the Group's assets in separate trustee administered funds. The pension liabilities are calculated annually by an independent actuary using the projected unit credit method.

The amounts recognised in the Group balance sheet are as follows:

	2016 US$m	2015 US$m
Fair value of plan assets	**70.4**	62.7
Present value of funded obligations	**(80.5)**	(81.4)
	(10.1)	(18.7)
Present value of unfunded obligations	**(205.3)**	(201.2)
Impact of minimum funding requirement/assets ceiling	**(0.5)**	0.3
Net pension liabilities	**(215.9)**	(219.6)

Notes to the Financial Statements
For the year ended 31st December 2016

26 Pension Liabilities (continued)

At 31st December	62.7	(282.6)	(219.9)	0.3	(219.6)

Notes to the Financial Statements
For the year ended 31st December 2016

26 Pension Liabilities (continued)
The weighted average duration of the defined benefit obligation at 31st December 2016 is 17 years.

Expected maturity analysis of undiscounted pension benefits at 31st December is as follows:

	2016 US$m	2015 US$m
Less than a year	**20.0**	18.6
Between one and two years	**14.7**	14.4
Between two and five years	**93.2**	86.7
Beyond five years	**3,878.4**	4,722.3
	4,006.3	4,842.0

The principal actuarial assumptions used for accounting purposes at 31st December are as follows:

	2016 %	2015 %
Discount rate	**8**	9
Salary growth rate	**7**	8

As the employees in Indonesia usually take one-off lump sum amounts from the plans upon retirement, mortality is not a significant assumption for these plans.

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

		Impact on defined benefit obligation	
	Change in assumption	Increase in assumption US$m	Decrease in assumption US$m
Discount rate	1%	(33.3)	43.8
Salary growth rate	1%	47.2	(36.1)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied when calculating the pension liability recognised within the balance sheet.

Notes to the Financial Statements
For the year ended 31st December 2016

26 Pension Liabilities (continued)

The analysis of the fair value of plan assets at 31st December is as follows:

	2016 US$m	2015 US$m
Quoted investments		
Equity instruments	**20.9**	27.0
Debt instruments		
- government	**25.0**	15.6
- corporate bonds (investment grade)	**19.1**	17.6
Total investments	**65.0**	60.2
Cash and cash equivalents	**5.4**	2.5
	70.4	62.7

The top three sectors of the quoted equity instruments at the end of both 2016 and 2015 were financials, properties and consumer goods with combined fair values of US$15.8 million and US$20.7 million, respectively.

Through its defined benefit pension plans, the Group is expected to be exposed to a number of risks such as asset volatility and changes in bond yields, which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with reference to government bond yields; if plan assets underperform this yield, this will create a deficit. The Group's defined benefit plans hold a significant proportion of equities, which are expected to outperform government and corporate bonds in the long-term while providing volatility and risk in the short-term.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plan's bond holdings.

The Group ensures that the investment positions are managed within an asset-liability matching (ALM) framework that is developed to achieve long-term returns that are in line with the obligations under the pension schemes. Within this ALM framework, the Group's objective is to match assets to the pension obligations by investing in a well-diversified portfolio that generates sufficient risk-adjusted returns that match the benefit payments. The Group also actively monitors the duration and the expected yield of the investments to ensure it matches the expected cash outflows arising from the pension obligations.

Investments across the plans are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

The Group maintains an active and regular contribution schedule across all the plans. The contributions to all its plans in 2016 were US$4.0 million and the estimated amount of contributions expected to be paid to the plans in 2017 is US$2.9 million.

Incurred, but not reported	**24.4**	20.2
Total at 31st December	**85.2**	74.2

Notes to the Financial Statements

For the year ended 31st December 2016

34 Insurance Contracts (continued)

Movements in insurance liabilities and reinsurance assets (continued)

(b) Unearned premium provision

	2016 US$m	2015 US$m
At 1st January	**299.2**	342.4
Increase/(decrease)	**35.3**	(9.8)
Translation adjustments	**7.7**	(33.4)
Total at 31st December	**342.2**	299.2

The risk under an insurance contract is the possibility that the insured event may occur and the resulting loss may vary in severity. Although it is possible for the actual loss to exceed the carrying amount of insurance liabilities, the extent of liabilities of the risk carrier is confined to the sum insured or the limit specified under the contract.

The Group manages its insurance risks through its underwriting guidelines, which are approved by an appropriate level of management regularly. The Group also has adequate reinsurance arrangements and proactive claims handling.

The concentration of insurance risks after reinsurance with reference to the carrying amount of the insurance liabilities is in four classes of business namely motor vehicles, heavy equipment, fire and fire major risks and marine cargo.

The insurance business is not a significant activity of the Group.

Notes to the Financial Statements

For the year ended 31st December 2016

36 Notes to Consolidated Statement of Cash Flows

Cash and cash equivalents included in the consolidated statement of cash flows comprise the following balance sheet amounts:

	Group	
	2016 US$m	2015 US$m
Bank balances and other liquid funds (Note 21)	**2,465.7**	2,175.1
Bank overdrafts (Note 24)	**-**	(2.1)
	2,465.7	2,173.0

(a) Purchase of subsidiaries

In 2016, Astra acquired new subsidiaries for US$13.7 million (2015: US$60.6 million). This comprised net cash outflow of US$11.6 million as an advance payment for a 80% interest in PT Suprabari Mapanindo Mineral, a coal mining company, US$1.2 million for a 100% interest in PT Mitra Barito Gemilang, a rubber plantation company and US$0.9 million representing further payments made in relation to the acquisition of PT Duta Nurcahya, a coal mining business, in 2012.

The acquisitions in 2015 comprised net cash outflow of US$56.8 million for a 50.1% interest in PT Acset Indonusa Tbk, an Indonesian listed company which operates a construction business, US$2.4 million for a 75.5% interest in PT Sumbawa Jutaraya, a gold mining company and US$1.4 million representing further payments for the acquisition of PT Duta Nurcahya.

There were no revenue and only nominal profit after tax since acquisition in respect of new subsidiaries acquired during the year. Had the acquisitions occurred on 1st January 2016, there would be no changes to the consolidated revenue and consolidated profit after tax for the year ended 31st December 2016 at US$15,764.0 million and US$1,497.5 million, respectively.

	2016 Fair value US$m	2015 Fair value US$m
Intangible assets (Note 10)	**-**	1.6
Leasehold land use rights (Note 11)	**3.6**	4.0

Advance payment	**11.6**	-
Net cash flow from business combination	**13.7**	60.6

Notes to the Financial Statements
For the year ended 31st December 2016

36 Notes to Consolidated Statement of Cash Flows (continued)

(b) Purchase of shares in associates and joint ventures

Purchase of shares in associates and joint ventures in 2016 included US$240.1 million for subscription to PT Bank Permata Tbk's rights issue, US$56.6 million for capital injection into PT Astra Modern Land, US$21.4 million for capital injection into PT Astra Aviva Life and US$19.3 million as an advance payment for a 40% investment in PT Baskhara Utama Sedaya.

Purchase of shares in associates and joint ventures in 2015 included US$619.0 million for a 24.9% investment in Siam City Cement Public Company Limited, US$64.7 million for a 25% investment in PT Trans Marga Jateng, a toll road operator, and US$14.9 million for capital injection into PT Isuzu Astra Motor Indonesia.

(c) Changes in controlling interests of subsidiaries

Change in controlling interests of subsidiaries in 2016 comprised an inflow of US$8.3 million arising from Astra's decrease in shareholding from 90% to 70% in PT Balai Lalang Serasi.

Change in controlling interests of subsidiaries in 2015 comprised an outflow of US$0.4 million arising from Astra's increase in shareholding from 75.5% to 80% in PT Sumbawa Jutaraya.

37 Segment Information

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the Board for the purpose of resource allocation and performance assessment. The Board considers Astra as one operating segment because it represents a single direct investment made by the Company. Decisions for resource allocation and performance assessment of Astra are made by the JC&C Board while resource allocation and performance assessment of the various Astra businesses are made by the board of Astra, taking into consideration the opinions of the JC&C Board. Direct Motor Interests are aggregated into one reportable segment based on the similar automotive nature of their products and services, while Other Interests, comprising the Group's strategic investment portfolio, are aggregated into another reportable segment based on their exposure to market-leading companies in key regional economies. Set out below is an analysis of the segment information.

Notes to the Financial Statements

For the year ended 31st December 2016

37 Segment Information (continued)

Set out below are analyses of the Group's revenue and non-current assets, by geographical areas:

	Indonesia US$m	Others US$m	Total US$m
2016			
Revenue	**13,609.6**	**2,154.4**	**15,764.0**
Non-current assets	**8,222.2**	**1,044.5**	**9,266.7**
2015			
Revenue	13,702.2	2,016.1	15,718.3
Non-current assets	7,385.4	955.9	8,341.3

Non-current assets excluded financial instruments and deferred tax assets. Indonesia is disclosed separately as a geographical area as most of the customers are based in Indonesia.

38 Immediate and Ultimate Holding Companies

The Company's immediate holding company is Jardine Strategic Singapore Pte Ltd, incorporated in Singapore and its ultimate holding company is Jardine Matheson Holdings Limited, incorporated in Bermuda.

39 Reclassification of Accounts

Certain comparative amounts have been reclassified for consistency with the presentation of the 2015 consolidated financial statements. The reclassification has no material impact to the Group.

40 Subsequent Events

(a) In October 2016, PT Astratel Nusantara ("AN"), an indirect subsidiary, signed the Conditional Shares Sales and Purchase Agreement ("CSPA") to acquire 40% shares in PT Baskhara Utama Sedaya ("BUS") and 97.35% of the mezzanine loan which can be converted into shares with a total acquisition value of approximately US$194.6 million. The transaction has been completed in January 2017. Subsequent to the closing of the above-mentioned transaction, in January 2017, AN signed another CSPA for the purchase of 60% shares in BUS and mezzanine loan ("Second Transaction"). BUS owns 45% shares in PT Lintas Marga Sedaya ("LMS"), Cikopo-Palimanan toll road operator. After the completion of the Second Transaction, AN will indirectly own 45% shares in LMS.

(b) In February 2017, the Group acquired an additional 229,900 shares in Siam City Cement Public Company Limited ("SCCC") for a cash consideration of approximately US$1.8 million. With the acquisition, the Group's interests in SCCC increased from 24.9% to 24.99%.

Notes :

1. The exchange rate of US$1=S$1.4449 (2015: US$1=S$1.4144, 2014: US$1=S$1.3205) was used for translating assets and liabilities at the balance sheet date and US$1=S$1.3833 (2015: US$1=S$1.3784, 2014: US$1=S$1.2695) was used for translating the results for the year.
2. Net tangible assets as at 31.12.16 were US$4,978.6 million (2015: US$4,336.7 million, 2014: US$4,116.6 million) and were computed after deducting intangibles from shareholders' funds.
3. Gearing is computed based on net borrowings divided by total equity.
4. Dividend cover is based on underlying profit attributable to shareholders divided by dividend declared and dividend proposed for the financial year.
5. Dividend payout is based on dividend declared and dividend proposed for the financial year divided by underlying profit attributable to shareholders.
6. Return on shareholders' funds is computed based on underlying profit attributable to shareholders, divided by average shareholders' funds.
7. Return on total equity is computed based on underlying profit after tax, divided by average total equity.
8. The financials for 2015 and 2014 have been restated due to a change in accounting policy as set out in Note 2 to the financial statements.

Investment Properties

Notice of Annual General Meeting

NOTICE IS HEREBY GIVEN THAT the 48th Annual General Meeting of the Company will be held at Atrium Suites, Lobby Level, Mandarin Oriental, Singapore, 5 Raffles Avenue, Singapore 039797 on Friday, 28th April 2017 at 11.30 a.m. for the following purposes:

As Ordinary Business:

1. To receive and adopt the Audited Financial Statements and the Directors' Statement for the year ended 31st December 2016 together with the Auditors' Report.

2. To approve the payment of a final one-tier tax exempt dividend of US$0.56 per share for the year ended 31st December 2016 as recommended by the Directors.

3. To approve the payment of Directors' fees of up to S$1,201,000 for the year ending 31st December 2017. (2016: S$1,182,000)

4. To re-elect the following Directors retiring pursuant to article 94 of the Constitution of the Company:

   a. Mr James Watkins;
   b. Mr Mark Greenberg;
   c. Dr Marty Natalegawa; and
   d. Mr Benjamin Keswick.

5. To re-elect Ms Vimala Menon, a Director retiring pursuant to article 100 of the Constitution of the Company.

6. To re-appoint PricewaterhouseCoopers LLP as Auditors and to authorise the Directors to fix their remuneration.

As Special Business:

7. To consider and, if thought fit, to pass with or without any amendments the following resolutions as Ordinary Resolutions:

Renewal of the Share Issue Mandate

7A. "That authority be and is hereby given to the Directors of the Company to:

a. i. issue shares of the Company (**"shares"**) whether by way of rights, bonus or otherwise; and/or

ii. make or grant offers, agreements or options (collectively, **"Instruments"**) that might or would require shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) warrants, debentures or other instruments convertible into shares,

at any time and upon such terms and conditions and for such purposes and to such persons as the Directors may in their absolute discretion deem fit; and

b. (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue shares in pursuance of any Instrument made or granted by the Directors while this Resolution was in force,

provided that:

1. the aggregate number of shares to be issued pursuant to this Resolution (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 50% of the total number of issued shares (excluding treasury shares) (as calculated in accordance with sub-paragraph 2 below), of which the aggregate number of shares to be issued other than on a *pro-rata* basis to shareholders of the Company (including shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) does not exceed 20% of the total number of issued shares (excluding treasury shares) (as calculated in accordance with sub-paragraph 2 below);

Jardine Cycle & Carriage Limited | Annual Report 2016

Notice of Annual General Meeting

As Special Business: (continued)

2. (subject to such manner of calculation as may be prescribed by the Singapore Exchange Securities Trading Limited) for the purpose of determining the aggregate number of shares that may be issued under sub-paragraph 1 above, the total number of issued shares (excluding treasury shares) shall be based on the total number of issued shares (excluding treasury shares) at the time of the passing of this Resolution, after adjusting for:

   a. new shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards which are outstanding or subsisting at the time of the passing of this Resolution; and

   b. any subsequent bonus issue, consolidation or subdivision of shares;

3. in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the Singapore Exchange Securities Trading Limited for the time being in force (unless such compliance has been waived by the Singapore Exchange Securities Trading Limited) and the Constitution for the time being of the Company; and

4. (unless revoked or varied by the Company in general meeting) the authority conferred by this Resolution shall continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier."

Renewal of the Share Purchase Mandate

7B. "That:

a. for the purposes of Sections 76C and 76E of the Companies Act, Cap. 50 (the **"Act"**), the exercise by the Directors of the Company of all the powers of the Company to purchase or otherwise acquire issued ordinary shares of the Company (**"Shares"**) not exceeding in aggregate the Prescribed Limit (as hereafter defined), at such price or prices as may be determined by the Directors from time to time up to the Maximum Price (as hereafter defined), whether by way of:

i. market purchases (each a **"Market Purchase"**) on the Singapore Exchange Securities Trading Limited (**"SGX-ST"**); and/or

ii. off-market purchases (each an **"Off-Market Purchase"**) effected otherwise than on the SGX-ST in accordance with any equal access schemes as may be determined or formulated by the Directors as they consider fit, which schemes shall satisfy all the conditions prescribed by the Act,

and otherwise in accordance with all other laws, regulations and rules of the SGX-ST as may for the time being be applicable, be and is hereby authorised and approved generally and unconditionally (the **"Share Purchase Mandate"**);

b. unless varied or revoked by the Company in general meeting, the authority conferred on the Directors of the Company pursuant to the Share Purchase Mandate may be exercised by the Directors at any time and from time to time during the period commencing from the passing of this Resolution and expiring on the earlier of:

i. the date on which the next Annual General Meeting of the Company is held; or

ii. the date by which the next Annual General Meeting of the Company is required by law to be held;

Notice of Annual General Meeting

As Special Business: (continued)

c. in this Resolution:

"**Prescribed Limit**" means that number of issued Shares representing 10% of the issued Shares as at the date of the passing of this Resolution (excluding any Shares which are held as treasury shares); and

"**Maximum Price**" in relation to a Share to be purchased, means an amount (excluding brokerage, stamp duties, applicable goods and services tax and other related expenses) not exceeding:

i. in the case of a Market Purchase, 105% of the Average Closing Price; and

ii. in the case of an Off-Market Purchase, 120% of the Highest Last Dealt Price,

where:

"**Average Closing Price**" means the average of the closing market prices of a Share over the last 5 Market Days on which transactions in the Shares were recorded, preceding the day of the Market Purchase, as deemed to be adjusted for any corporate action that occurs after the relevant 5 Market Day period;

"**Highest Last Dealt Price**" means the highest price transacted for a Share as recorded on the Market Day on which there were trades in the Shares immediately preceding the day of the making of the offer pursuant to the Off-Market Purchase;

"**day of the making of the offer**" means the day on which the Company makes an offer for the purchase of Shares from shareholders stating the purchase price (which shall not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase; and

"**Market Day**" means a day on which the SGX-ST is open for trading in securities; and

d. the Directors of the Company be and are hereby authorised to complete and do all such acts and things (including executing such documents as may be required) as they may consider expedient or necessary to give effect to the transactions contemplated by this Resolution."

Renewal of the General Mandate for Interested Person Transactions

7C. "That:

a. approval be and is hereby given, for the purposes of Chapter 9 of the Listing Manual ("**Chapter 9**") of the Singapore Exchange Securities Trading Limited, for the Company, its subsidiaries and associated companies that are considered to be "entities at risk" under Chapter 9, or any of them, to enter into any of the transactions falling within the types of Interested Person Transactions described in Appendix B of the Company's letter to shareholders dated 6th April 2017 (the "**Letter**"), with any party who is of the classes of Interested Persons described in Appendix B of the Letter, provided that such transactions are made on normal commercial terms and in accordance with the review procedures for Interested Person Transactions (the "**IPT Mandate**");

b. the IPT Mandate shall, unless revoked or varied by the Company in general meeting, continue in force until the conclusion of the next Annual General Meeting of the Company; and

c. the Directors of the Company be and are hereby authorised to complete and do all such acts and things (including executing all such documents as may be required) as they may consider expedient or necessary or in the interests of the Company to give effect to the IPT Mandate and/or this Resolution."

By Order of the Board

Jeffery Tan Eng Heong
Company Secretary

Singapore, 6th April 2017

Jardine Cycle & Carriage Limited | Annual Report 2016

Notice of Annual General Meeting

Notes:

1. (a) A member of the Company who is not a relevant intermediary is entitled to appoint one or two proxies to attend, speak and vote at the Annual General Meeting. Where such member's form of proxy appoints more than one proxy, the proportion of the shareholding concerned to be represented by each proxy shall be specified in the form of proxy.

   (b) A member of the Company who is a relevant intermediary is entitled to appoint more than two proxies to attend, speak and vote at the Annual General Meeting, but each proxy must be appointed to exercise the rights attached to a different share or shares held by such member. Where such member's form of proxy appoints more than two proxies, the number and class of shares in relation to which each proxy has been appointed shall be specified in the form of proxy.

   "Relevant intermediary" has the meaning ascribed to it in Section 181 of the Companies Act, Cap. 50.

2. A proxy need not be a member of the Company. An instrument appointing a proxy must be deposited at the office of the share registrar, M & C Services Private Limited, 112 Robinson Road, #05-01, Singapore 068902, not less than 72 hours before the time for holding the Annual General Meeting or any adjournment thereof.

Personal data privacy

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents or service providers) for the purpose of the processing, administration and analysis by the Company (or its agents or service providers) of proxies and representatives appointed for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents or service providers) to comply with any applicable laws, listing rules, take-over rules, regulations and/or guidelines (collectively, the "**Purposes**"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents or service providers), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents or service providers) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

Statement pursuant to Rule 704(8) of the Listing Manual of the Singapore Exchange Securities Trading Limited

Ms Vimala Menon's appointment as an independent Director and Audit Committee member is effective from 23rd April 2017. Mr James Watkins, Mr Mark Greenberg and Ms Vimala Menon will continue as members of the Company's Audit Committee upon their re-election as Directors of the Company. Mr James Watkins is also an independent Director.

Additional information for items under the heading "As Ordinary Business"

a. Item 3 is to request shareholders' approval for payment of Directors' fees (including benefits-in-kind) on a current year basis, calculated taking into account the number of scheduled Board and committee meetings for 2017 and assuming that all non-executive Directors will hold office for the full year. In the event the Directors' fees proposed for 2017 are insufficient (e.g. due to more meetings or enlarged Board size), approval will be sought at next year's Annual General Meeting for additional fees to meet the shortfall.

b. In item 4, Tan Sri Azlan Zainol, an independent Director, retires by rotation at the Annual General Meeting pursuant to article 94 of the Constitution of the Company and is not seeking re-election.

c. Key information on the Directors to be re-elected are set out in pages 16 to 19 of the Annual Report 2016.

Notice of Annual General Meeting

Statement pursuant to article 57 of the Constitution of the Company
The effects of the resolutions under the heading "As Special Business" are:

a. Ordinary Resolution No. 7A is to renew effective until the next Annual General Meeting, the Share Issue Mandate to allow the Directors to issue shares, make or grant instruments convertible into shares and to issue shares pursuant to such instruments, up to a number not exceeding, in total, 50% of the issued shares (excluding treasury shares) of the Company, of which up to 20% may be issued other than on a pro-rata basis to shareholders. For determining the aggregate number of shares that may be issued, the total number of issued shares (excluding treasury shares) will be calculated based on the total number of issued shares (excluding treasury shares) of the Company at the time that this Resolution is passed, after adjusting for new shares arising from the conversion or exercise of any convertible securities or share options or vesting of share awards which are outstanding or subsisting at the time that this Resolution is passed, and any subsequent bonus issue, consolidation or subdivision of shares.

b. Ordinary Resolution No. 7B is to renew effective until the next Annual General Meeting, the Share Purchase Mandate for the Company to make purchases or acquisitions of its issued ordinary shares. The Company intends to use internal sources of funds, external borrowings, or a combination of internal resources and external borrowings, to finance purchases or acquisitions of its shares. For illustrative purposes only, the financial effects of an assumed purchase or acquisition by the Company, of 10% of its issued ordinary shares as at 9th March 2017, at a purchase price equivalent to the Maximum Price per share, in the case of a Market Purchase and an Off-Market Purchase respectively, based on the audited accounts of the Group and the Company for the financial year ended 31st December 2016, and certain other assumptions, are set out in the Company's letter to shareholders dated 6th April 2017 accompanying the Annual Report 2016.

c. Ordinary Resolution No. 7C is to renew effective up to the next Annual General Meeting, the General Mandate for Interested Person Transactions to enable the Company, its subsidiaries and associated companies that are considered "entities at risk" to enter in the ordinary course of business into certain types of transactions with specified classes of the Company's interested persons. Particulars of the IPT Mandate, and the Audit Committee's confirmation in support of the renewal of the IPT Mandate, are set out in the Company's letter to shareholders dated 6th April 2017 accompanying the Annual Report 2016.

Proxy Form

IMPORTANT:
1. Relevant intermediaries as defined in Section 181 of the Companies Act, Cap. 50 may appoint more than two proxies to attend, speak and vote at the Annual General Meeting.
2. For CPF/SRS investors who have used their CPF/SRS monies to buy **Jardine Cycle & Carriage Limited** shares, this Proxy Form is not valid for use by CPF investors and shall be ineffective for all intents and purposes if used or purported to be used by them. CPF/SRS investors should contact their respective Agent Banks/SRS Operators if they have any queries regarding their appointment as proxies.

Personal Data Privacy
By submitting an instrument appointing a proxy(ies) and/or representative(s), the member accepts and agrees to the personal data privacy terms set out in the Notice of Annual General Meeting dated 6th April 2017.

The Company Secretary

Total number of shares held

....
Signature(s) of Member(s) or Common Seal

Important: Please Read Notes Below

Notes:

1. A member should insert the total number of shares held. If the member has shares entered against his name in the Depository Register (maintained by The Central Depository (Pte) Limited), he should insert that number of shares. If the member has shares registered in his name in the Register of Members (maintained by or on behalf of the Company), he should insert that number of shares. If the member has shares entered against his name in the Depository Register and shares registered in his name in the Register of Members, he should insert the aggregate number of shares. If no number is inserted, the instrument appointing a proxy or proxies shall be deemed to relate to all the shares held by the member.

2. (a) A member of the Company who is not a relevant intermediary is entitled to appoint one or two proxies to attend, speak and vote at the Annual General Meeting. Where such member's form of proxy appoints more than one proxy, the proportion of the shareholding concerned to be represented by each proxy shall be specified in the form of proxy.

   (b) A member of the Company who is a relevant intermediary is entitled to appoint more than two proxies to attend, speak and vote at the Annual General Meeting, but each proxy must be appointed to exercise the rights attached to a different share or shares held by such member. Where such member's form of proxy appoints more than two proxies, the number and class of shares in relation to which each proxy has been appointed shall be specified in the form of proxy.

   "Relevant intermediary" has the meaning ascribed to it in Section 181 of the Companies Act, Cap. 50.

3. A proxy need not be a member of the Company.

4. Completion and return of this instrument appointing a proxy or proxies shall not preclude a member from attending and voting at the Annual General Meeting. Any appointment of a proxy or proxies shall be deemed to be revoked if a member attends the Annual General Meeting in person, and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the instrument of proxy to the Annual General Meeting.

5. The instrument appointing a proxy or proxies must be deposited at the office of the share registrar, M & C Services Private Limited, 112 Robinson Road, #05-01, Singapore 068902, not less than 72 hours before the time appointed for the Annual General Meeting.

6. The instrument appointing a proxy or proxies must be under the hand of the appointor or of his attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its seal or under the hand of its officer or attorney duly authorised.

7. A corporation which is a member may authorise by resolution of its directors or other governing body such person as it thinks fit to act as its representative at the Annual General Meeting, in accordance with Section 179 of the Companies Act, Cap. 50.

General

The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the instrument (including any related attachment). In addition, in the case of shares entered in the Depository Register, the Company may reject any instrument appointing a proxy or proxies lodged if the member, being the appointor, is not shown to have shares entered against his name in the Depository Register as at 72 hours before the time appointed for holding the Annual General Meeting, as certified by The Central Depository (Pte) Limited to the Company.

To: The Shareholders of Jardine Cycle & Carriage Limited
("**Shareholders**")

6th April 2017

Dear Sir/Madam

We refer to items 7B and 7C of the Notice of the 48th Annual General Meeting of the Company ("**48th AGM**"). Items 7B and 7C are Ordinary Resolutions to be proposed at the 48th AGM for the renewals of the Company's share purchase mandate ("**Resolution 7B**") and the Company's general mandate for interested person transactions ("**Resolution 7C**") respectively. The purpose of this letter is to provide Shareholders with information relating to these Resolutions.

1. RENEWAL OF THE SHARE PURCHASE MANDATE

1.1 **Background.** At the 47th Annual General Meeting of the Company held on 28th April 2016 (the "**47th AGM**"), Shareholders had (*inter alia*) approved the renewal of a mandate authorising the Directors to exercise all powers of the Company to purchase or otherwise acquire issued ordinary shares of the Company ("**Shares**") on the terms of such mandate (the "**Share Purchase Mandate**"). The authority contained in the Share Purchase Mandate was expressed to continue in force until the next Annual General Meeting of the Company and, as such, will be expiring on 28th April 2017, being the date of the forthcoming 48th AGM. Although the Company has not undertaken any purchases or acquisitions of its Shares pursuant to the authority conferred by the Share Purchase Mandate approved by Shareholders at the 47th AGM, it is proposed nonetheless that such authority be renewed at the 48th AGM.

1.2 **Rationale and benefit.** The renewal of the Share Purchase Mandate will give the Company the flexibility to undertake purchases or acquisitions of its issued Shares at any time, subject to market conditions, during the period when the Share Purchase Mandate is in force. Share purchases or acquisitions provide the Company with a mechanism to facilitate the return of surplus cash over and above its ordinary capital requirements, in an expedient and cost-efficient manner. Share purchases or acquisitions will also allow the Directors greater flexibility over the Company's share capital structure with a view to enhancing the earnings and/or net asset value per Share.

1.3 **Authority and limits.** The authority and limits placed on the Share Purchase Mandate for which renewal is sought are summarised below.

(a) ***Maximum number of Shares***

Only issued Shares may be purchased or otherwise acquired by the Company pursuant to the authority conferred by the Share Purchase Mandate.

The total number of issued Shares that may be purchased or acquired must not exceed that number representing 10% of the issued Shares as at the date on which the renewal of the Share Purchase Mandate is approved at the 48th AGM (the "**Approval Date**"), excluding any Shares that are held as treasury shares. Under the Companies Act, Cap. 50 of Singapore (the "**Companies Act**") any Shares which are held as treasury shares shall be disregarded for the purposes of computing the 10% limit.

As at 9th March 2017 (the "**Latest Practicable Date**"), the share capital of the Company comprised 395,236,288 issued Shares (all of which are fully paid) and none of which were held as treasury shares. No Shares are reserved for issue by the Company for any particular purpose as at the Latest Practicable Date.

Purely for illustrative purposes, on the basis of 395,236,288 issued Shares as at the Latest Practicable Date, and assuming that (i) no further Shares are issued; (ii) no Shares are purchased or acquired pursuant to the subsisting Share Purchase Mandate; and (iii) none of the Shares are held as treasury shares on or prior to the 48th AGM, then not more than 39,523,628 Shares (representing 10% of the issued Shares as at that date) may be purchased or acquired by the Company pursuant to the renewed Share Purchase Mandate.

(b) ***Duration of authority***

Purchases or acquisitions of Shares may be made, at any time and from time to time, on and from the Approval Date up to the earlier of:

(i) the date (being a date after the Approval Date) on which the next Annual General Meeting of the Company is held or required by law to be held; or

(ii) the date (being a date after the Approval Date) on which the authority contained in the Share Purchase Mandate is revoked or varied.

(c) ***Manner of purchase***

Purchases or acquisitions of Shares may be made by way of:

(i) market purchases ("**Market Purchases**"); and/or

(ii) off-market purchases in accordance with an equal access scheme ("**Off-Market Purchases**").

Market Purchases refer to purchases or acquisitions of Shares by the Company effected on the Singapore Exchange Securities Trading Limited ("**SGX-ST**") through one or more duly licensed stockbrokers appointed by the Company for the purpose.

Off-Market Purchases refer to purchases or acquisitions of Shares by the Company made under an equal access scheme or schemes for the purchase or acquisition of Shares from Shareholders. The Directors may impose such terms and conditions which are not inconsistent with the Share Purchase Mandate, the listing rules of the SGX-ST and the Companies Act as they consider fit in the interests of the Company in connection with or in relation to an equal access scheme or schemes. Under the Companies Act, an equal access scheme must, however, satisfy all the following conditions:

(I) offers for the purchase or acquisition of Shares shall be made to every person who holds Shares to purchase or acquire the same percentage of their issued Shares;

(II) all of those persons shall be given a reasonable opportunity to accept the offers made; and

(III) the terms of all the offers are the same, except that there shall be disregarded:

(aa) differences in consideration attributable to the fact that offers may relate to Shares with different accrued dividend entitlements;

(bb) (if applicable) differences in consideration attributable to the fact that offers relate to Shares with different amounts remaining unpaid; and

(cc) differences in the offers introduced solely to ensure that each person is left with a whole number of Shares.

Additionally, the Listing Manual of the SGX-ST ("**Listing Manual**") provides that, in making an Off-Market Purchase, the Company must issue an offer document to all Shareholders which must contain, *inter alia*:

(1) the terms and conditions of the offer;

(2) the period and procedures for acceptances;

(3) the reasons for the proposed Share purchases;

(4) the consequences, if any, of Share purchases by the Company that will arise under the Singapore Code on Take-overs and Mergers (the "**Take-over Code**") or other applicable takeover rules;

(5) whether the Share purchases, if made, would have any effect on the listing of the Shares on the SGX-ST;

(6) details of any Share purchases made by the Company in the previous 12 months (whether Market Purchases or Off-Market Purchases), giving the total number of Shares purchased, the purchase price per Share or the highest and lowest prices paid for the purchases, where relevant, and the total consideration paid for the purchases; and

(7) whether the Shares purchased by the Company will be cancelled or kept as treasury shares.

(d) ***Maximum purchase price***

The purchase price (excluding brokerage, stamp duties, applicable goods and services tax and other related expenses) to be paid for the Shares will be determined by the Directors. However, the purchase price must not exceed:

(i) in the case of a Market Purchase, 105% of the Average Closing Price; and

(ii) in the case of an Off-Market Purchase, 120% of the Highest Last Dealt Price,

(the "**Maximum Price**") in either case, excluding related expenses of the purchase or acquisition.

For the above purposes:

"**Average Closing Price**" means the average of the closing market prices of a Share over the last 5 Market Days on which transactions in the Shares were recorded, preceding the day of the Market Purchase, as deemed to be adjusted for any corporate action that occurs after the relevant 5 Market Day period;

"**Highest Last Dealt Price**" means the highest price transacted for a Share as recorded on the Market Day on which there were trades in the Shares immediately preceding the day of the making of the offer pursuant to the Off-Market Purchase;

"**day of the making of the offer**" means the day on which the Company makes an offer for the purchase or acquisition of Shares from Shareholders, stating the purchase price (which shall not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase; and

"**Market Day**" means a day on which the SGX-ST is open for trading in securities.

1.4 **Status of purchased or acquired Shares.** Under current law, the Shares purchased or acquired by the Company shall be deemed cancelled immediately upon purchase or acquisition, and all rights and privileges attached to the Shares shall expire on cancellation, unless such Shares are held by the Company as treasury shares. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased or acquired by the Company which are cancelled and are not held as treasury shares.

1.5 **Treasury shares.** Under the Companies Act, the Shares purchased or acquired by the Company may be held or dealt with as treasury shares. Some of the provisions on treasury shares under the Companies Act are summarised below.

(a) ***Maximum holdings***

The number of Shares held as treasury shares cannot at any time exceed 10% of the total number of issued Shares.

(b) ***Voting and other rights***

The Company cannot exercise any right in respect of treasury shares. In particular, the Company cannot exercise any right to attend or vote at meetings and for the purposes of the Companies Act, the Company shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights.

In addition, no dividend may be paid, and no other distribution of the Company's assets may be made, to the Company in respect of treasury shares. However, the allotment of Shares as fully paid bonus shares in respect of treasury shares is allowed. A subdivision or consolidation of any treasury share is also allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before.

(c) ***Disposal and cancellation***

Where Shares purchased or acquired by the Company are held as treasury shares, the Company may at any time but subject always to the Take-over Code:

(i) sell the treasury shares for cash;

(ii) transfer the treasury shares for the purposes of or pursuant to any share scheme, whether for employees, directors or other persons;

(iii) transfer the treasury shares as consideration for the acquisition of shares in or assets of another company or assets of a person;

(iv) cancel the treasury shares; or

(v) sell, transfer or otherwise use the treasury shares for such other purposes as may be prescribed by the Minister for Finance.

Under the Listing Manual, immediate announcement must be made of any sale, transfer, cancellation and/or use of treasury shares (in each case, the "**usage**"). Such announcement must include details such as the date of the usage, the purpose of the usage, the number of treasury shares of the usage, the number of treasury shares before and after the usage, the percentage of the number of treasury shares of the usage against the total number of issued shares (of the same class as the treasury shares) which are listed on the SGX-ST before and after the usage, and the value of the treasury shares of the usage.

1.6 **Source of funds.** In purchasing or acquiring Shares, the Company may only apply funds legally available for such purchase or acquisition in accordance with its Constitution and applicable laws in Singapore. The Companies Act permits the Company to purchase or acquire its own Shares out of capital as well as out of its profits. The Company intends to use internal sources of funds, external borrowings, or a combination of internal resources and external borrowings, to finance purchases or acquisitions of its Shares.

1.7 **Financial effects.** The financial effects on the Company and its subsidiaries (collectively, the "**Group**") and the Company arising from purchases or acquisitions of Shares which may be made pursuant to the Share Purchase Mandate will depend on, *inter alia*, the aggregate number of Shares purchased or acquired and the consideration paid at the relevant time. The financial effects on the Group and the Company based on the audited financial statements of the Group and the Company for the financial year ended 31st December 2016 are based on the assumptions set out below.

(a) ***Purchase or acquisition out of profits and/or capital***

Under the Companies Act, purchases or acquisitions of Shares by the Company may be made out of the Company's profits and/or capital so long as the Company is solvent. Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of profits, such consideration will correspondingly reduce the amount available for the distribution of cash dividends by the Company.

Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of capital, the amount available for the distribution of cash dividends by the Company will not be reduced.

(b) ***Maximum Price paid for Shares purchased or acquired***

Based on 395,236,288 issued Shares as at the Latest Practicable Date (of which none were treasury shares), the exercise in full of the Share Purchase Mandate will result in the purchase or acquisition of 39,523,628 Shares.

Assuming that the Company purchases or acquires the 39,523,628 Shares at the Maximum Price, the maximum amount of funds required is approximately:

(i) in the case of Market Purchases, S$1,837.1 million (approximately US$1,301.4 million) based on S$46.48 for each Share (being 105% of the Average Closing Price of a Share immediately preceding the Latest Practicable Date); and

(ii) in the case of an Off-Market Purchase, S$2,102.7 million (approximately US$1,489.6 million) based on S$53.20 for each Share (being 120% of the Highest Last Dealt Price of a Share immediately preceding the Latest Practicable Date).

Purely for illustrative purposes, on the basis of the assumptions set out above, and based on the audited financial statements of the Group and the Company for the financial year ended 31st December 2016, and assuming that (i) purchases of Shares are made to the extent as aforesaid; (ii) such purchases of Shares are financed solely by borrowings; (iii) no further Shares are issued between 1st January 2016 and the Latest Practicable Date; (iv) the Share Purchase Mandate had been effective on 1st January 2016; and (v) the Company had purchased the 39,523,628 Shares on 1st January 2016, the financial effects of the purchase or acquisition of such Shares by the Company on the audited financial statements of the Group and the Company for the financial year ended 31st December 2016 would be as set out in Appendix A of this letter.

As illustrated in the table in Appendix A, a Market Purchase of the 39,523,628 Shares will have the effect of reducing the working capital and the net asset value (**"NAV"**) of the Group, and an Off-Market Purchase of the 39,523,628 Shares will have the effect of reducing the working capital and the NAV of the Group. In the case of the Market Purchase, the consolidated NAV per Share as at 31st December 2016 would decrease from US$14.56 to US$12.44, and the consolidated basic earnings per Share of the Group for the financial year ended 31st December 2016 would increase from US¢178 to US¢189 per Share, after taking into account interest cost incurred. In the case of the Off-Market Purchase, the consolidated NAV per Share as at 31st December 2016 would decrease from US$14.56 to US$11.90, and the consolidated basic earnings per Share of the Group for the financial year ended 31st December 2016 would increase from US¢178 to US¢188 per Share, after taking into account interest cost incurred. The said disclosed financial effects remain the same irrespective of whether the purchase of the Shares is effected out of capital or profits or whether the purchased Shares are held in treasury or are cancelled.

SHAREHOLDERS SHOULD NOTE THAT THE FOREGOING FINANCIAL EFFECTS ARE FOR ILLUSTRATIVE PURPOSES ONLY. In particular, Shareholders should note that it is not possible for the Company to realistically calculate or quantify the impact of purchases or acquisitions that may be made pursuant to the Share Purchase Mandate on the NAV and/or earnings per Share as the resultant effect would depend on factors such as the aggregate number of Shares purchased, the purchase prices paid at the relevant time, and the amount (if any) borrowed by the Company to fund the purchases or acquisitions.

It should also be noted that purchases or acquisitions of Shares by the Company pursuant to the Share Purchase Mandate would only be made in circumstances where it is considered to be in the best interests of the Company, and that purchases or acquisitions of Shares may not be carried out to the full 10% as mandated. In addition, the Company may cancel or hold in treasury all or part of the Shares it purchased or acquired. Further, the Directors would emphasise that they do not propose to carry out Share purchases or acquisitions to such an extent that would, or in circumstances that might, result in a material adverse effect on the financial position of the Company or the Group, or result in the Company being delisted from the SGX-ST.

1.8 **Taxation.** Shareholders who are in doubt as to their respective tax positions or any tax implications, or who may be subject to tax in a jurisdiction outside Singapore, should consult their own professional advisers.

1.9 **Listing status of the Shares.** The Listing Manual provides that a listed company shall ensure that at least 10% of the total number of issued shares excluding treasury shares (excluding preference shares and convertible equity securities) in a class that is listed is at all times held by public shareholders. As there is a public float of approximately 25.00% in the issued Shares as at the Latest Practicable Date, the Company is of the view that there is, as of that date, a sufficient number of the Shares in public hands that would permit the Company to potentially undertake purchases of its Shares through Market Purchases up to the full 10% limit pursuant to the Share Purchase Mandate without affecting adversely the listing status of the Shares on the SGX-ST. Additionally, the Company will consider investor interests when maintaining a liquid market in its securities, and will ensure that there is a sufficient float for an orderly market in its securities when purchasing its Shares.

1.10 **Listing rules.** Any purchase or acquisition by the Company of its Shares pursuant to the Share Purchase Mandate will be reported by the Company in accordance with prevailing reporting requirements of the SGX-ST.

The Listing Manual restricts a listed company from purchasing shares by way of market purchases at a price per share which is more than 5% above the "average closing price", being the average of the closing market prices of the shares over the last 5 Market Days on which transactions in the shares were recorded, before the day on which the purchases were made, as deemed to be adjusted for any corporate action that occurs after the relevant 5-day period. The Maximum Price for a Share in relation to Market Purchases referred to in Paragraph 1.3 above complies with this requirement. Although the Listing Manual does not prescribe a maximum price in relation to purchases of shares by way of off-market purchases, the Company has set a cap of 20% above the highest last dealt price of a Share as the Maximum Price for a Share to be purchased or acquired by way of an Off-Market Purchase.

While the Listing Manual does not expressly prohibit any purchase or acquisition of shares by a listed company during any particular time or times, because the listed company would be regarded as an "insider" in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase or acquisition of Shares pursuant to the Share Purchase Mandate at any time after any matter or development of a price sensitive nature has occurred or has been the subject of consideration and/or a decision of the Board of Directors (the "**Board**") until such price sensitive information has been publicly announced. In particular, in line with the Company's internal guide on securities dealings, the Company will not purchase or acquire any Shares through Market Purchases during the two weeks before, and up to, the date of announcement of the Company's results for each of the first three quarters of its financial year, and during the one month before, and up to, the date of announcement of the Company's results for the full financial year.

1.11 **Take-over implications.** The circumstances under which Shareholders, including Directors and persons acting in concert with them respectively, will incur an obligation to make a take-over offer under Rule 14 of the Take-over Code after a purchase or acquisition of Shares by the Company are set out in Appendix 2 of the Take-over Code ("**R14-Appendix**"). These take-over implications are summarised below.

(a) ***Obligation to make a take-over offer***

If, as a result of any purchase or acquisition by the Company of its issued Shares, a Shareholder's proportionate interest in the voting capital of the Company increases, such increase will be treated as an acquisition for the purposes of Rule 14 of the Take-over Code. Consequently, a Shareholder or a group of Shareholders acting in concert with a Director could obtain or consolidate effective control of the Company and become obliged to make a take-over offer under Rule 14 of the Take-over Code.

(b) ***Persons acting in concert***

Under the Take-over Code, persons acting in concert comprise individuals or companies who, pursuant to an agreement or understanding (whether formal or informal) co-operate, through the acquisition by any of them of shares in a company, to obtain or consolidate control of that company.

Unless the contrary is established, the following persons (*inter alia*) will be presumed to be acting in concert: (i) a company with any of its directors (together with their close relatives, related trusts as well as companies controlled by any of the directors, their close relatives and related trusts); and (ii) a company, its parent, subsidiaries and fellow subsidiaries, and their associated companies, and companies of which such companies are associated companies, all with each other, and any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the foregoing companies for the purchase of voting rights. For this purpose, ownership or control of at least 20% but not more than 50% of the equity share capital of a company will be regarded as the test of associated company status.

(c) ***Effect of Rule 14 and R14-Appendix***

Under R14-Appendix, a Shareholder not acting in concert with the Directors will not be required to make a take-over offer under Rule 14 of the Take-Over Code if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Shareholder in the Company would increase to 30% or more, or if such Shareholder holds between 30% and 50% of the Company's voting rights, the voting rights of such Shareholder would increase by more than 1% in any period of 6 months. Such Shareholder need not abstain from voting in respect of the resolution authorising the Share Purchase Mandate.

In relation to Directors and persons acting in concert with them, R14-Appendix provides that unless exempted (or if exempted, such exemption is subsequently revoked), Directors and persons acting in concert with them will incur an obligation to make a take-over offer if, as a result of a purchase or acquisition of Shares by the Company the percentage of voting rights held by such Directors and their concert parties in the Company increases to 30% or more, or, if they together hold between 30% and 50% of the Company's voting rights, their voting rights are increased by more than 1% in any period of 6 months. In calculating the percentages of voting rights of such Directors and their concert parties, treasury shares shall be excluded.

SHAREHOLDERS WHO ARE IN DOUBT AS TO THEIR OBLIGATIONS, IF ANY, TO MAKE A MANDATORY TAKE-OVER OFFER AS A RESULT OF ANY PURCHASE OR ACQUISITION OF SHARES BY THE COMPANY SHOULD CONSULT THE SECURITIES INDUSTRY COUNCIL AND/OR THEIR PROFESSIONAL ADVISERS AT THE EARLIEST OPPORTUNITY.

As at the Latest Practicable Date, Jardine Strategic Holdings Limited ("**JSHL**") (a member of the Jardine Matheson group of companies) and certain of its related corporations were collectively interested in 296,427,311 Shares, representing 75.00% of the total issued Shares as at that date.

Under the Take-over Code, unless the contrary is established, the Directors of the Company (including any alternate Director) who are also directors of JSHL or its related corporations and/or are its or their nominees on the Board would be presumed to be persons acting in concert with JSHL. Additionally, as JSHL and the Directors (including any alternate Director) presumed to be acting in concert with it collectively already hold more than 50% of the issued Shares, purchases or acquisitions of Shares by the Company pursuant to the Share Purchase Mandate will not result in the Directors (or any of them) and/or JSHL incurring an obligation to make a mandatory take-over offer under Rule 14 read with R14-Appendix of the Take-over Code.

2. RENEWAL OF THE GENERAL MANDATE FOR INTERESTED PERSON TRANSACTIONS

2.1 **Background.** At the 47th AGM, Shareholders had also approved the renewal of a general mandate for interested person transactions for the purposes of Chapter 9 of the Listing Manual (the "**IPT Mandate**"). The terms of the IPT Mandate were set out in Appendix B of the Company's Letter to Shareholders dated 6th April 2016. The IPT Mandate enables the Company, its subsidiaries and associated companies that are considered to be "entities at risk" within the meaning of Chapter 9 of the Listing Manual to enter in the ordinary course of business into any of the mandated transactions with the specified classes of interested persons, provided that such transactions are made on normal commercial terms and in accordance with the review procedures for such transactions.

2.2 **Annual renewal of the IPT Mandate.** Under Chapter 9 of the Listing Manual, the IPT Mandate is subject to annual renewal. The IPT Mandate approved at the 47th AGM was expressed to continue in force until the next Annual General Meeting of the Company, being the 48th AGM, which is to be held on 28th April 2017. Accordingly, it is proposed that the IPT Mandate be renewed at the 48th AGM, to take effect until the conclusion of the next Annual General Meeting of the Company.

2.3 **Particulars of the IPT Mandate to be renewed.** The nature of the interested person transactions and the classes of interested persons in respect of which the IPT Mandate is sought to be renewed remain unchanged. Particulars of the IPT Mandate, including the rationale for the IPT Mandate, the benefits to be derived by the Company, as well as the review procedures for determining transaction prices with the specified classes of Interested Persons, are set out in Appendix B of this letter.

2.4 **Audit Committee's confirmation.** The Audit Committee of the Company confirms that:

(a) the methods or procedures for determining the transaction prices under the IPT Mandate have not changed since the 47th AGM; and

(b) the methods or procedures referred to in (a) above are sufficient to ensure that the transactions will be carried out on normal commercial terms and will not be prejudicial to the interests of the Company and its minority Shareholders.

2.5 **Chapter 9 of the Listing Manual.** General information on the listing rules relating to interested person transactions, including the meanings of terms such as "associate", "approved exchange", "entity at risk", "interested person", "same interested person" and "interested person transaction" used in Chapter 9 of the Listing Manual, is set out in Appendix C of this letter.

3. DIRECTORS' AND SUBSTANTIAL SHAREHOLDERS' INTERESTS

3.1 **Interests in Shares.** As at the Latest Practicable Date, based on the Company's Register of Directors' Shareholdings, none of the Directors has any interest, direct or indirect, in the issued share capital of the Company.

As at the Latest Practicable Date, the interests of the substantial Shareholders in the issued share capital of the Company, based on the Company's Register of Substantial Shareholders, were as follows:

Name of Shareholder	No. of Shares	%
Jardine Strategic Holdings Limited	296,427,311	75.00

Note: Jardine Strategic Holdings Limited ("**JSHL**") is interested in 296,427,311 Shares through its wholly-owned subsidiary, JSH Asian Holdings Limited ("**JAHL**"). JAHL is in turn interested in the said Shares through its wholly-owned subsidiary, Jardine Strategic Singapore Pte Ltd. By virtue of Jardine Matheson Holdings Limited's ("**JMH**") interests in JSHL through its wholly-owned subsidiary, JMH Investments Limited ("**JMHI**"), JMH and JMHI are also deemed to be interested in the said Shares.

3.2 **Abstention from voting.** Benjamin Keswick, Anthony Nightingale, Boon Yoon Chiang, Mark Greenberg, James Watkins and Michael Kok (each a non-executive Director) hold directorships in companies in the Jardine Matheson Group. Alexander Newbigging and Adrian Teng, the Company's incumbent Group Managing Director and Group Finance Director respectively, are on secondment from a company in the Jardine Matheson Group. They will abstain from voting their shareholdings (if any) in the Company on Resolution 7C relating to the renewal of the IPT Mandate at the 48th AGM.

The foregoing Directors will also not accept appointment as proxies to vote on Resolution 7C at the 48th AGM for any Shareholder who is regarded as being interested in the subject matter of Resolution 7C. They may, however, act as proxies to vote at the 48th AGM for independent Shareholders provided that the appointor (being the independent Shareholder) shall have given specific voting instructions to the proxy on the voting of the appointor's Shares in relation to Resolution 7C.

As JSHL and its associates are interested persons in relation to the renewal of the IPT Mandate, they will abstain from voting their shareholdings (if any) in the Company on Resolution 7C relating to the renewal of the IPT Mandate at the 48th AGM.

4. RECOMMENDATIONS

4.1 **Renewal of the Share Purchase Mandate.** The Directors are of the view, for the reasons set out in Paragraph 1.2 above, that the renewal of the Share Purchase Mandate is in the interests of the Company. They accordingly recommend that Shareholders vote in favour of Resolution 7B relating to the renewal of the Share Purchase Mandate at the 48th AGM.

4.2 **Renewal of the IPT Mandate.** The Directors who are considered independent for the purposes of the renewal of the IPT Mandate are Hassan Abas, Chang See Hiang, Tan Sri Azlan Zainol, Mrs Lim Hwee Hua and Dr Marty Natalegawa. They are of the opinion that the entry into of the Interested Person Transactions (as described in paragraph 5 of Appendix B) between the JC&C Group (as described in paragraph 1 of Appendix B) and the Interested Persons (as described in paragraph 4 of Appendix B) in the ordinary course of business will enhance the efficiency of the JC&C Group and is in the best interests of the Company. For the reasons set out in paragraphs 1, 3 and 5 of Appendix B, they recommend that Shareholders vote in favour of Resolution 7C for the renewal of the IPT Mandate at the 48th AGM.

5. RESPONSIBILITY STATEMENT

5.1 **Directors' responsibility.** The Directors collectively and individually accept full responsibility for the accuracy of the information given in this letter and confirm, after having made all reasonable enquiries, that to the best of their knowledge and belief, this letter constitutes full and true disclosure of all material facts about the proposals to renew the Share Purchase Mandate and the IPT Mandate at the 48th AGM (collectively, the **"Proposals"**), and the Company and its subsidiaries which are relevant to the Proposals, and the Directors are not aware of any facts the omission of which would make any statement in this letter misleading. Where information in this letter has been extracted from published or otherwise publicly available sources or obtained from a named source, the sole responsibility of the Directors has been to ensure that such information has been accurately and correctly extracted from those sources and/or reproduced in this letter in its proper form and context.

5.2 **Disclaimer.** The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed in this letter. Shareholders who are in any doubt as to the action they should take should consult their stockbrokers or other professional advisers immediately.

Yours faithfully
JARDINE CYCLE & CARRIAGE LIMITED

Benjamin Keswick
Chairman
6th April 2017

THE GENERAL MANDATE FOR INTERESTED PERSON TRANSACTIONS

1. Introduction

Due to the diverse business interests and activities of the Company's interested persons, it is envisaged that in the ordinary course of their businesses, transactions between the JC&C Group (as defined below) and the Company's interested persons are likely to occur with some degree of frequency, and may arise at any time. Such transactions would include, but are not limited to, the provision of goods and services in the ordinary course of business of the JC&C Group to the Company's interested persons or the obtaining of goods and services from them for day-to-day operational needs.

Rationale for the IPT Mandate

In view of the time-sensitive and recurrent nature of commercial transactions, the obtaining of a general mandate (the "**IPT Mandate**") pursuant to Chapter 9 of the Listing Manual of the Singapore Exchange Securities Trading Limited ("**SGX-ST**") will enable the Company, its subsidiaries and associated companies which are considered to be "entities at risk" within the meaning of Chapter 9 of the Listing Manual (together, the "**JC&C Group**"), or any of them, in the ordinary course of their businesses, to enter into the categories of transactions set out in Paragraph 5 below (the "**Interested Person Transactions**"), with the classes of the Company's interested persons specified in Paragraph 4 below (the "**Interested Persons**"), provided that such Interested Person Transactions are made on normal commercial terms and are not prejudicial to the interests of the Company and the minority Shareholders.

Scope of the IPT Mandate

The IPT Mandate covers a wide range of transactions arising in the normal course of the business operations of the JC&C Group, in particular, those relating to the Company's principal activities of investment holding and provision of management services, as well as those of its subsidiaries and associated companies which include the distribution and retailing of motor vehicles.

The following transactions are excluded from the IPT Mandate:

(a) any transaction by a company in the JC&C Group with an Interested Person that is below S$100,000 in value, as the threshold and aggregation requirements contained in Chapter 9 of the Listing Manual would not apply to such a transaction; and

(b) any transaction by Cycle & Carriage Bintang Berhad ("**CCB**") (a subsidiary of the Company that is listed on Bursa Malaysia), or its subsidiaries or associated companies which are considered "entities at risk" of CCB, with a counter-party who is an Interested Person, as Bursa Malaysia, on which CCB is listed, is regarded by the SGX-ST as an "approved exchange" for the purposes of Rule 904(1) of Chapter 9 of the Listing Manual.

Transactions by the JC&C Group with Interested Persons that do not fall within the ambit of the IPT Mandate will be subject to the relevant provisions of Chapter 9 of the Listing Manual and/or other applicable provisions of the Listing Manual.

2. Validity period

The IPT Mandate will take effect from the passing of the Ordinary Resolution relating thereto and will continue in force until the conclusion of the next Annual General Meeting of the Company (unless sooner revoked or varied by the Company in general meeting). Approval from Shareholders will be sought for the renewal of the IPT Mandate at the next Annual General Meeting and at each subsequent Annual General Meeting of the Company, subject to satisfactory review by the Audit Committee of the Company ("**Audit Committee**") of its continued application to the Interested Person Transactions.

3. Benefit to Shareholders

The obtaining of the IPT Mandate (and its subsequent renewal on an annual basis) will enhance the ability of the JC&C Group to pursue business opportunities that are time-sensitive in nature, and will eliminate the need (pursuant to the materiality thresholds imposed under Chapter 9 of the Listing Manual) for the Company to announce such transactions, or, to announce and convene separate general meetings as and when potential transactions with the specified classes of Interested Persons arise to seek Shareholders' prior approval for the entry by the relevant company in the JC&C Group into such transactions. This will substantially reduce the expenses associated with the convening of general meetings on an *ad hoc* basis, improve administrative efficacy considerably, and allow manpower resources and time to be channelled toward attaining other corporate objectives.

4. Classes of Interested Persons

The IPT Mandate will apply to the Interested Person Transactions (described in Paragraph 5 below) that are carried out with the following classes of Interested Persons:

(a) Jardine Strategic Holdings Limited ("**JSHL**"); and

(b) any company which, at the time of the relevant transaction, is an associate of JSHL.

JSHL is a member of the Jardine Matheson group of companies (the "**Jardine Matheson Group**"). Purely for the purposes of illustration, the associates of JSHL would include Jardine Strategic Singapore Pte Ltd, JSH Asian Holdings Ltd, JMH Investments Limited and Jardine Matheson Holdings Limited and their respective related corporations, as well as any company in which they or any of them taken together (directly or indirectly) have an equity interest of 30% or more.

5. Categories of Interested Person Transactions

The types of Interested Person Transactions to which the IPT Mandate will apply, and the benefits to be derived therefrom, are set out below.

(a) Vehicle-based Transactions

This category of transactions arises from the vehicle-based businesses of the JC&C Group ("**Vehicle-based Transactions**"). Transactions coming within this category comprise:

(i) the marketing, sale and purchase of vehicle stocks, spares, parts, and related accessories;

(ii) the provision of rental and/or leasing of vehicles;

(iii) the provision of maintenance and after sales service for vehicles, and the repair, modification and upgrading of vehicles and related components and equipment;

(iv) the purchase of vehicle freight services;

(v) the purchase of vehicle insurance;

(vi) the provision and/or receipt of commissions, rebates and other trade-related or marketing incentives to or by counter-parties such as dealers, distributors, principals and finance houses or other financial institutions; and

(vii) the provision or obtaining of such other products and services which are incidental to or in connection with the provision or obtaining of products and services in sub-paragraphs (i) to (vi) above.

The JC&C Group will benefit from transacting with Interested Persons, in addition to non-Interested Persons, in an expeditious manner. The JC&C Group would also benefit from having access to competitive quotes from Interested Persons.

(b) Property-based Transactions

This category of transactions pertains to the property development and property investment activities of the JC&C Group ("**Property-based Transactions**"), and consists of transactions relating to:

(i) the leasing and/or rental of properties;

(ii) the award of contracts to main contractors and nominated sub-contractors and consultants for projects;

(iii) the appointment of consultants in relation to property development and property investment;

(iv) the provision or obtaining of project management services;

(v) the provision or obtaining of property-linked services (such as property and rental valuation services, building maintenance services, estate management services, security services and property management and marketing services); and

(vi) the provision or obtaining of such other products and services which are incidental to or in connection with the provision or obtaining of products and services in sub-paragraphs (i) to (v) above.

The JC&C Group will benefit from transacting with Interested Persons, in addition to non-Interested Persons, in an expeditious manner. The JC&C Group would also benefit from having access to competitive quotes from Interested Persons.

(c) General Transactions

This category of transactions comprises general business transactions for services and products arising in the day-to-day operations of various companies in the JC&C Group ("**General Transactions**"). The transactions within this category comprise:

(i) the provision or obtaining of consultancy and advisory services (including in the areas of feasibility studies, market research and analysis);

(ii) the obtaining of insurance brokerage services;

(iii) the provision or obtaining of hotel services (including room rentals and the related sale and purchase of food and beverages);

(iv) the obtaining of office equipment, furniture and fittings;

(v) the obtaining of renovation services;

(vi) the provision or obtaining of information technology products and accessories, and information technology services (including repair, maintenance and technical services); and

(vii) the provision or obtaining of such other products and services which are incidental to or in connection with the provision or obtaining of products and services in sub-paragraphs (i) to (vi) above.

The JC&C Group will benefit from transacting with Interested Persons, in addition to non-Interested Persons, in an expeditious manner. The JC&C Group would also benefit from having access to competitive quotes from Interested Persons. The JC&C Group may also derive operational and financial leverage through savings in terms of economies of scale, such as bulk discounts accorded to the Jardine Matheson Group on a group basis.

(d) Management Support Transactions

This category ("**Management Support Transactions**") relates to corporate management, administration and support services that the JC&C Group may, from time to time, receive from, or provide to, its Interested Persons. Such services, which encompass (i) the receipt of strategic management consultancy from Interested Persons, as well as (ii) the provision and/or receipt of general support to/from Interested Persons, relate to the areas of corporate finance, taxation, investment review and management, risk review and management, strategic business evaluation, treasury and accounting advisory services, corporate planning and business development, management information systems, information technology management and development, information technology systems, human resource and executive compensation, legal and corporate secretarial/administration, accountancy, payroll, internal audit, corporate communications and investor relations.

As a principal subsidiary within the Interested Persons' group of companies, the Company is able to tap into, and draw from, their management and corporate expertise on an international basis for the provision by Interested Persons to the Company of support of a strategic nature having a bearing on the JC&C Group's long-term profitability and development. The JC&C Group may also, from time to time, procure and/or provide support of a general nature relating to its day-to-day operations. By having access to, and (where applicable) providing, such management, administration and support, the JC&C Group will derive operational and financial leverage in its dealings with third parties as well as benefit from the global network of its Interested Persons. Through such support and services, the JC&C Group would also enjoy sharing of resources and economies of scale, and eliminate duplication of efforts.

(e) Corporate Finance and Treasury Transactions

This category of transactions comprises various corporate finance and treasury related activities ("**Corporate Finance and Treasury Transactions**") of the JC&C Group. It includes the obtaining of project financing or other financial assistance and services from Interested Persons, as well as transactions that are undertaken by the JC&C Group in connection with the management of its finances, investments and funding requirements. Within this category of transactions are:

(i) the placement of funds or deposits with any Interested Person;

(ii) the borrowing of funds from any Interested Person;

(iii) the entry into with any Interested Person of foreign exchange, swap and option transactions for hedging purposes; and

(iv) the subscription of debt securities issued by any Interested Person and the issue of debt securities to any Interested Person, and the buying from, or selling to, any Interested Person of debt securities.

The JC&C Group can benefit from competitive rates or quotes offered by Interested Persons by leveraging on the financial strength and credit standing of the Interested Persons in an expeditious manner.

6. Review procedures for Interested Person Transactions

The Company has in place an internal control system to ensure that transactions with Interested Persons are made on normal commercial terms, supported by independent valuation where appropriate, and consistent with the JC&C Group's usual policies and practices.

(a) The internal control system includes the following guidelines:

(i) In relation to Vehicle-based Transactions, Property-based Transactions, and General Transactions, any transaction proposed to be carried out with an Interested Person for the obtaining or provision of the services or products described shall be made at the prevailing rates/prices of the service or product provider which (in relation to services or products to be provided to an Interested Person) are no more favourable to the Interested Person than those extended to third parties, or (in relation to services or products to be obtained from an Interested Person) are no less favourable than those extended by the Interested Person to third parties, on the service or product provider's usual commercial terms or otherwise in accordance (where applicable) with industry norms.

For the above purposes, market rates will be reviewed where applicable. As a basis for comparison to determine whether the price and terms offered to the Interested Person are no more favourable than those extended to third parties, at least two recent contracts for the same or substantially the same types of transactions entered into by the JC&C Group with third parties will be used. As a basis of comparison to determine whether the terms offered by the Interested Person are fair and reasonable (taking into account, where relevant, factors such as pricing, delivery schedule, rebates or discounts accorded for bulk purchases), quotes will be obtained wherever possible from at least two third party suppliers, for the same or substantially similar quantities and quality of products and/or services. Where it is impractical or not possible for such contracts or (as the case may be) quotes to be obtained:

(aa) in relation to the sale of goods or services to the Interested Person, the terms of supply will be determined in accordance with the JC&C Group's usual business practice and consistent with the margins obtained by the JC&C Group in its business operations; and

(bb) in relation to the purchase of goods or services from the Interested Person, the terms of supply will be compared to those for the same or substantially the same types of transactions entered into between the Interested Persons and third parties. The review procedures in such cases may include, where applicable, reviewing the standard price lists provided by the Interested Person to its customers for such services or products and be based on the commercial merits of the transaction.

(ii) In relation to Management Support Transactions:

(aa) the JC&C Group will satisfy itself that the fees payable to an Interested Person for any such transaction shall be on arm's length and commercial terms, in accordance with either: (A) a formula for cost recovery agreed with such Interested Person; or (B) a rate of charge agreed with such Interested Person not exceeding 0.5 per centum of the profit attributable to the shareholders of the Company based on its audited financial statements for the financial year in respect of which the transaction occurred[Note]. The fee for any such transaction shall be determined by the JC&C Group with the Interested Person before the transaction is entered into. The JC&C Group will also satisfy itself that, having regard to the nature of the services to be provided by the Interested Person, the formula for cost recovery (for services of a general nature) or the rate of charge (for services of a strategic nature) (as the case may be) to be applied to the particular transaction with the Interested Person is in line with that applied by the Interested Person to its other strategic business units for the same or substantially the same management, administration and/or support services; and

[Note] Based on the audited consolidated financial statements of the Group for the financial year ended 31st December 2016, the profit attributable to the shareholders of the Company was US$701.7 million.

(bb) the JC&C Group will satisfy itself that fees receivable from an Interested Person for services of a general nature shall be on arm's length and commercial terms, and are not prejudicial to the Shareholders or disadvantageous to the JC&C Group. As a test of reasonableness, the rate of charge for determining the fees payable by the Interested Person for the services to be provided by the JC&C Group will be on a cost recovery basis.

(iii) In relation to Corporate Finance and Treasury Transactions, any transaction proposed to be carried out with an Interested Person for the obtaining or provision of the services described shall be made on terms no less favourable than those offered by the Interested Person to third parties on the Interested Person's usual commercial terms, and on terms no less favourable than those offered by third parties for the same or substantially similar type of services or otherwise in accordance (where applicable) with industry norms.

(b) The following review and approval procedures will be implemented for Vehicle-based Transactions, Property-based Transactions and General Transactions:

(i) Transactions equal to or exceeding S$100,000 each in value but below S$5.0 million each in value, will be reviewed and approved by the Group Managing Director for the time being of the Company (**"Group Managing Director"**) or, in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose, and tabled for review by the Audit Committee on a quarterly basis.

(ii) Transactions equal to or exceeding S$5.0 million each in value will be reviewed and approved by the Audit Committee.

(iii) The Group Managing Director (or in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose) and the Audit Committee may, as he/it deems fit, request for additional information pertaining to the transaction under review from independent sources or advisers, including the obtaining of valuations from independent professional valuers.

(c) In relation to Management Support Transactions, the following procedures will be implemented to supplement the internal control system:

(i) Any Management Support Transaction, the value of which, singly, or on aggregation with other Management Support Transactions with the same Interested Person (as such term is construed under Chapter 9 of the Listing Manual) is below S$5.0 million will be reviewed and approved by the Group Managing Director (or in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose) and tabled for inspection by the Audit Committee on a quarterly basis. The Group Managing Director (or in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose) shall review the transaction in question, including the value thereof, on the basis of the benefits and cost effectiveness of the transaction.

(ii) Where the value of any Management Support Transaction, singly, or on aggregation with other Management Support Transactions with the same Interested Person (as such term is construed under Chapter 9 of the Listing Manual) is equal to or exceeds S$5.0 million, such Management Support Transaction and each subsequent Management Support Transaction with that Interested Person will be reviewed and approved by the Audit Committee.

(iii) For purposes of determining the aggregate value in (i) and (ii) above, the values of all Management Support Transactions with the same Interested Person shall not be offset and shall be aggregated, irrespective of whether any one or more of such transaction(s) is/are for services provided by the JC&C Group to the Interested Person, or any one or more of such transaction(s) is/are for services receivable by the JC&C Group from that Interested Person.

(d) In relation to Corporate Finance and Treasury Transactions, the following procedures will be implemented to supplement the internal control system:

(i) Placements

In relation to the placement of funds with any Interested Person by the JC&C Group of its funds, the Company will require that quotations shall be obtained from such Interested Person and at least two banks for rates of deposits with such banks of an equivalent amount, and for the equivalent period, of the funds to be placed by the JC&C Group. The JC&C Group will only place funds with such Interested Person provided that the terms quoted are no less favourable to the JC&C Group than the terms quoted by such banks.

(ii) Borrowings

In relation to the borrowing of funds from any Interested Person by the JC&C Group, the Company will require that quotations shall be obtained from such Interested Person and at least two banks for loans from such banks of an equivalent amount, and for the equivalent period, of the funds to be borrowed by the JC&C Group. The JC&C Group will only borrow funds from such Interested Person provided that the terms quoted are no less favourable to the JC&C Group than the terms quoted by such banks.

(iii) Foreign exchange, swaps and options

In relation to the entry into of foreign exchange, swap and option transactions by the JC&C Group with any Interested Person, the Company will require that rate quotations shall be obtained from such Interested Person and at least two banks. The JC&C Group will only enter into the foreign exchange, swap or option transactions with such Interested Person provided that the rates quoted are no less favourable to the JC&C Group than the rates quoted by such banks.

(iv) Debt securities

In relation to the subscription of debt securities issued by, or the purchase of debt securities from, Interested Persons, the JC&C Group will only enter into the subscription or purchase of such debt securities issued provided that the price(s) at which the JC&C Group subscribes for or purchases such debt securities will not be higher than the price(s) at which such debt securities are subscribed for or purchased by third parties.

In relation to the issue or sale to Interested Persons of debt securities, the JC&C Group will only issue or sell such debt securities to Interested Persons provided that the price(s) at which the JC&C Group issues or sells such debt securities will not be lower than the price(s) at which such debt securities are issued or sold by the JC&C Group to third parties.

In addition, the Company will monitor Corporate Finance and Treasury Transactions entered into by the JC&C Group as follows:

Borrowings from and debt securities issued or sold to Interested Persons

Where the interest expense on any borrowing from, or any debt securities to be issued or sold to, an Interested Person when aggregated with the interest expense incurred by the JC&C Group on previous borrowings from, and debt securities issued or sold to, the same Interested Person (as such term is construed under Chapter 9 of the Listing Manual) is equal to or exceeds S$5.0 million, such (and each subsequent) borrowing from that Interested Person, or issue or sale of debt securities to, that Interested Person shall require the prior approval of the Audit Committee.

Borrowings from, or issue or sale of debt securities to, the same Interested Person in respect of which the interest expense thereon in aggregate does not exceed the limit set out above will be reviewed and approved by the Group Managing Director (or in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose) and shall be tabled to the Audit Committee for review on a quarterly basis.

Placements with and debt securities subscribed or purchased from Interested Persons

Where the value (including the applicable interest income) of any funds to be placed with, or any debt securities to be subscribed which are issued by/purchased from, an Interested Person when aggregated with the value (including the applicable interest income) of previous funds placed with, and debt securities subscribed/purchased from, the same Interested Person (as such term is construed under Chapter 9 of the Listing Manual) by the JC&C Group exceeds S$100.0 million, such (and each subsequent) placement of funds with, or subscription of debt securities issued by, or purchase of debt securities from, the same Interested Person shall require the prior approval of the Audit Committee.

Placements of funds with, or subscription of debt securities issued by, or purchase of debt securities from, the same Interested Person where the value (including the applicable interest income thereof) does not in aggregate exceed the limit set out above will be reviewed and approved by the Group Managing Director (or, in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose) and shall be tabled to the Audit Committee for review on a quarterly basis.

Foreign exchange, swaps and options entered into with Interested Persons

Where the principal amount of any foreign exchange, swap or option transaction to be entered into with an Interested Person when aggregated with the principal amount of previous foreign exchange, swap and option transactions entered into by the JC&C Group with the same Interested Person (as such term is construed under Chapter 9 of the Listing Manual) exceeds S$100.0 million, such (and each subsequent) foreign exchange, swap or option transaction to be entered into with the same Interested Person shall require the prior approval of the Audit Committee.

Entry into of foreign exchange, swap or option transactions with the same Interested Person where the principal amount thereof does not in aggregate exceed the limit set out above will be reviewed and approved by the Group Managing Director (or, in his absence, such other senior executive of the Company designated by the Audit Committee from time to time for such purpose) and shall be tabled to the Audit Committee for review on a quarterly basis.

(e) The following will apply to the review and approval process for all categories of Interested Person Transactions:

(i) If the Group Managing Director has an interest in the transaction or is a nominee for the time being of the Interested Person, the review and approval process shall be undertaken by the senior executive of the Company designated by the Audit Committee from time to time for such purpose.

(ii) If the Group Managing Director and such senior executive has an interest in the transaction or are nominees for the time being of the Interested Person, the review and approval process shall be undertaken by the Chairman of the Audit Committee or another member of the Audit Committee (who is not a nominee of the Interested Person and has no interest in the transaction) designated by the Chairman of the Audit Committee from time to time for such purpose.

(iii) If a member of the Audit Committee has an interest in a transaction or is a nominee for the time being of the Interested Person, he shall abstain from participating in the review and approval process of the Audit Committee in relation to that transaction.

(f) The Company will maintain a register of Interested Person Transactions carried out with Interested Persons (recording the basis, including the quotations obtained to support such basis, on which they are entered into), and the Company's annual internal audit plan will incorporate a review of all Interested Person Transactions entered into in the relevant financial year pursuant to the IPT Mandate.

The Audit Committee will review the internal audit reports on Interested Person Transactions to ascertain that the guidelines and review procedures for Interested Person Transactions have been complied with.

(g) If during any of the reviews by the Audit Committee, the Audit Committee is of the view that the guidelines and review procedures for Interested Person Transactions have become inappropriate or insufficient in the event of changes to the nature of, or manner in which, the business activities of the JC&C Group or the Interested Persons are conducted, the Company will revert to Shareholders for a fresh general mandate based on new guidelines and review procedures so that Interested Person Transactions will be carried out at arm's length, on normal commercial terms and will not be prejudicial to the interests of the Company and the minority Shareholders.

7. Disclosures

In accordance with the requirements of Chapter 9 of the Listing Manual, the Company will: (a) disclose in the Company's Annual Report the aggregate value of transactions conducted with Interested Persons pursuant to the IPT Mandate during the financial year (as well as in the Annual Reports for subsequent financial years that the IPT Mandate continues in force); and (b) announce the aggregate value of transactions conducted with Interested Persons pursuant to the IPT Mandate for the financial periods that it is required to report on pursuant to Rule 705 of the Listing Manual (which relates to quarterly reporting by listed companies) within the time required for the announcement of such report.

GENERAL INFORMATION RELATING TO CHAPTER 9 OF THE LISTING MANUAL

Chapter 9 of the Listing Manual of the SGX-ST governs transactions between a listed company, as well as transactions by its subsidiaries and associated companies that are considered to be "at risk", with the listed company's interested persons.

Except for any transaction which is below S$100,000 in value and certain transactions which, by reason of the nature of such transactions, are not considered to put the listed company at risk to its interested person and hence are excluded from the ambit of Chapter 9, when this Chapter applies to a transaction with an interested person and the value of the transaction alone or on aggregation with other transactions conducted with the same interested person during the financial year reaches or exceeds certain materiality thresholds (which are based on the listed company's latest audited consolidated net tangible assets ("**NTA**")), the listed company is required to make an immediate announcement, or to make an immediate announcement and seek its shareholders' approval for the transaction. In particular, shareholders' approval is required for an interested person transaction of a value equal to, or exceeding:

(a) 5% of the listed company's latest audited consolidated NTA[(Note)]; or

(b) 5% of the listed company's latest audited consolidated NTA, when aggregated with the values of all other transactions entered into with the same interested person (as such term is construed under Chapter 9 of the Listing Manual) during the same financial year.

Chapter 9 of the Listing Manual, however, allows a listed company to seek a mandate from its shareholders for recurrent transactions of a revenue or trading nature or those necessary for its day-to-day operations such as the purchase and sale of supplies and materials (but not for the purchase or sale of assets, undertakings or businesses) which may be carried out with the listed company's interested persons. A general mandate is subject to annual renewal.

For the purposes of Chapter 9 of the Listing Manual:

- an "**entity at risk**" means:

    (i) the listed company;

    (ii) a subsidiary of the listed company that is not listed on the SGX-ST or an approved exchange; or

    (iii) an associated company of the listed company that is not listed on the SGX-ST or an approved exchange, provided that the listed company and/or its subsidiaries (the "**listed group**"), or the listed group and its interested person(s), has control over the associated company;

- an "**interested person**" means a director, chief executive officer or controlling shareholder of the listed company or an associate of such director, chief executive officer or controlling shareholder;

- an "**associate**" in relation to an interested person who is a director, chief executive officer or controlling shareholder, includes an immediate family member (that is, the spouse, child, adopted child, step-child, sibling or parent) of such director, chief executive officer or controlling shareholder, the trustees of any trust of which the director/his immediate family, the chief executive officer/his immediate family or the controlling shareholder/his immediate family is a beneficiary, or in the case of a discretionary trust, is a discretionary object, and any company in which the director/his immediate

[(Note)] Based on the audited consolidated financial statements of the Group for the financial year ended 31st December 2016, the NTA of the Group was US$4,978.6 million. Accordingly, in relation to the Company, for the purpose of Chapter 9 of the Listing Manual, in the current financial year and until the audited consolidated financial statements of the Group are published for the financial year ended 31st December 2017, 5% of the Company's latest audited consolidated NTA would be US$248.9 million.

family, the chief executive officer/his immediate family or the controlling shareholder/his immediate family has or have an aggregate interest (directly or indirectly) of 30% or more, and, where a controlling shareholder is a corporation, its subsidiary or holding company or fellow subsidiary or a company in which it and/or they have (directly or indirectly) an interest of 30% or more;

- an "**approved exchange**" means a stock exchange that has rules which safeguard the interests of shareholders against interested person transactions according to similar principles as Chapter 9;

- an "**interested person transaction**" means a transaction between an entity at risk and an interested person;

- a "**transaction**" includes the provision or receipt of financial assistance; the acquisition, disposal or leasing of assets; the provision or receipt of services; the issuance or subscription of securities; the granting of or being granted options; and the establishment of joint ventures or joint investments, whether or not entered into in the ordinary course of business, and whether entered into directly or indirectly; and

- in interpreting the term "**same interested person**" for the purpose of aggregation of the values of all transactions entered into with the same interested person during the same financial year under Rules 905 and 906 of Chapter 9 of the Listing Manual, the following applies:

  (i) transactions between an entity at risk and interested persons who are members of the same group are deemed to be transactions between the entity at risk with the same interested person; and

  (ii) if an interested person (which is a member of a group) is listed, its transactions with the entity at risk need not be aggregated with transactions between the entity at risk and other interested persons of the same group, provided that the listed interested person and other listed interested persons have boards the majority of whose directors are different and are not accustomed to act on the instructions of the other interested persons and their associates and have audit committees whose members are completely different.
